July 10, 2024

BEFORE THE  
SURFACE TRANSPORTATION BOARD

---

Docket No. FD 32760 (Sub-No. 50)

BNSF RAILWAY COMPANY  
—PETITION FOR ENFORCEMENT—  
INTERCHANGE WITH SAVAGE TOOEELE RAILROAD COMPANY

---

**UNION PACIFIC’S REPLY  
TO BNSF’S PETITION FOR ENFORCEMENT**

The Board should dismiss the petition filed by BNSF Railway Company (BNSF) and allow BNSF and Union Pacific to arbitrate their dispute in accordance with the Restated and Amended BNSF Settlement Agreement (RASA),<sup>1</sup> and the Board’s decision in *Union Pacific Railroad Company—Operation Exemption—in Tooele County, Utah*, FD 36741 (STB served Feb. 13, 2024) (*Union Pacific Exemption*). Union Pacific commenced arbitration in this matter in accordance with the RASA. BNSF filed its petition only after the American Arbitration Association (AAA) rejected BNSF’s request that the arbitration be held in Fort Worth, Texas, and instead determined hearings would be held in Omaha, Nebraska. The Board should reject such obvious forum-shopping and give effect to its long-standing policy supporting and promoting private arbitration as an efficient and effective mechanism for resolving disputes.

---

<sup>1</sup> The RASA is a revised version of the BNSF Settlement Agreement, which the Board imposed as a condition to the Union Pacific/Southern Pacific merger. *See Union Pacific/Southern Pacific Merger*, 1 S.T.B. 233, 419 (1996). The RASA incorporates conditions the Board imposed in approving the merger, as interpreted, clarified, and supplemented in subsequent Board decisions and through agreements between the parties. *See Union Pacific/Southern Pacific Merger, General Oversight*, Decision No. 21, 5 S.T.B. 1173, 1178 (2001).

## **I. BACKGROUND**

This dispute involves application of the RASA’s “short-line interchange” provision to Savage Tooele Railroad Company (STR). Section 8(k) of the RASA gives BNSF the right to interchange with any short-line railroad that constructs a new line to and establishes an interchange on a line over which BNSF obtained trackage rights in the RASA. *See* RASA § 8(k) (attached hereto as Exhibit A). To serve the new Lakeview Business Park in Grantsville, Utah, STR recently obtained Board authority to construct and operate eleven miles of rail line connecting to Union Pacific’s Warner Branch, where it will establish an interchange with Union Pacific. *See Savage Tooele R.R.—Constr. & Operation Exemption—Line of R.R. in Tooele Cnty., Utah*, FD 36616 (STB served Apr. 1, 2024). The Warner Branch is not a line over which BNSF obtained trackage rights in the RASA. Union Pacific’s predecessor, Western Pacific Railroad, sought and received authority to abandon the former Warner Branch in 1983. *See Western Pac. R.R.—Abandonment Exemption—in Tooele Cnty., Utah*, FD 30208 (ICC served Aug. 9, 1983). Union Pacific maintained ownership of most of the line but sold a portion to STR. Union Pacific obtained authority to reinstitute common carrier operations over the portion it retained in *Union Pacific Exemption*.

## **II. THE BOARD SHOULD ALLOW ARBITRATION OF THIS DISPUTE**

### **A. BNSF PARTICIPATED IN THE ARBITRATION UNTIL IT RECEIVED AN UNFAVORABLE DETERMINATION**

BNSF does not contest that STR will not construct a connection to any line over which BNSF obtained trackage rights in the RASA. Nonetheless, BNSF is asking the Board to “enforce” its supposed “right” under Section 8(k) of the RASA to interchange with STR on the Warner Branch.

BNSF sought to raise similar claims about its supposed rights under the RASA when Union Pacific sought authority to reinstitute common carrier operations on the Warner Branch. The Board denied BNSF's motion to institute a proceeding, explaining that granting Union Pacific authority to reinstitute common carrier service "does not preclude BNSF from seeking, through either arbitration or a new, separate Board proceeding, a determination that BNSF is entitled to access STR." *Union Pacific Exemption*, slip op. at 2.

Union Pacific properly initiated arbitration proceedings before the AAA on April 15, 2024, to remove the uncertainty created by BNSF's STR interchange claim in accordance with Section 15 of the RASA, Section 15 provides:

Except as otherwise provided by any decision of the STB or by separate agreement, unresolved disputes and controversies concerning any of the terms and provisions of this Agreement or the application of charges hereunder *shall* be submitted for binding arbitration under the Commercial Arbitration Rules of the American Arbitration Association which shall be the exclusive remedy of the parties.

(Emphasis added.)

Union Pacific's Demand for Arbitration is attached hereto as Exhibit B.

On May 1, 2024, AAA sent BNSF and Union Pacific a letter initiating the proceeding. In the letter, AAA noted Union Pacific had asked that the hearing be held in Omaha, Nebraska, and informed BNSF that it was entitled to file an Answering Statement, including any objection to the requested locale, within 14 days. AAA's letter is attached hereto as Exhibit C.

Rather than immediately pursue relief from the Board, BNSF filed an Answering Statement with the AAA in mid-May. BNSF denied the Union Pacific claims and requested the arbitration hearing be held in Fort Worth, Texas.<sup>2</sup>

BNSF only sought relief from the Board after receiving its first adverse arbitration ruling. On June 17, 2024, the AAA informed BNSF and Union Pacific that it had made the initial determination the hearing would be held in Omaha, Nebraska, though the AAA left the final venue determination to the arbitrator.<sup>3</sup> Abandoning the arbitration process in which it had participated, BNSF then filed its petition for enforcement with the Board.

**B. THE BOARD SPECIFICALLY RECOGNIZED THIS DISPUTE IS SUITABLE FOR ARBITRATION**

The Board has repeatedly directed BNSF and Union Pacific to arbitrate disputes involving access to specific facilities following the Union Pacific-Southern Pacific merger. *See Union Pacific/Southern Pacific Merger*, 3 S.T.B. 737, 742 (1998) (“[A]ny further disputes between BNSF and UP arising under their settlement agreement should be arbitrated under the provisions of that agreement before bringing the matter to us to resolve.”); *Union Pacific/Southern Pacific Merger*, 4 S.T.B. 303, 306 (1999) (“To the extent that BNSF seeks a ruling as to whether [the] particular facility [at issue] qualifies, however, it must seek arbitration pursuant to its agreement.”).

The Board has also acknowledged this case was specifically suitable for arbitration. When the Board denied BNSF’s motion to institute a proceeding in *Union Pacific Exemption*, the Board said its decision “does not preclude BNSF from seeking, through either arbitration or a new, separate Board proceeding, a determination that BNSF

---

<sup>2</sup> BNSF did state the dispute was subject to the Board’s jurisdiction. *See* Exhibit D.

<sup>3</sup> *See* Exhibit E.

is entitled to access STR.” *Union Pacific Exemption*, slip op. at 2. The Board was not giving BNSF exclusive control over the forum for resolving this dispute but was instead indicating this dispute could be resolved through arbitration. If BNSF has the option to arbitrate, so should Union Pacific. *Cf. Assessment of Mediation and Arbitration Procedures*, EP 699, slip op. at 2 (STB served May 13, 2013) (Board policy strongly favors use of private methods of dispute resolution “in lieu of formal Board proceedings, whenever possible”).

Furthermore, under the conditions the Board imposed on the Union Pacific/Southern Pacific merger, if any party has the *option* to arbitrate, it is *required* to arbitrate. Specifically, the RASA provides that unless otherwise required by the Board, “unresolved disputes and controversies concerning any of the terms and provisions of [the RASA] *shall* be submitted for binding arbitration.” RASA § 15 (emphasis added). Courts routinely hold that arbitration provisions using the term “shall” require mandatory arbitration and are not permissive. *See Promega Corp. v. Life Technologies Corp.*, 674 F.3d 1352, 1356 (Fed. Cir. 2012). This is also consistent with the “liberal federal policy favoring arbitration agreements.” *Mitsubishi Motors Co. v. Soler Chrysler-Plymouth, Inc.*, 473 U.S. 614, 625 (1985).

### **C. THE ISSUES RAISED IN THIS CASE SHOULD BE ARBITRATED**

In the past, the Board has declined to dismiss cases in favor of arbitration where the issues presented have broad implications concerning conditions imposed in the UP/SP merger or where the case raises important issues related to the preservation of premerger rail competition. *See, e.g., Union Pacific/Southern Pacific Merger (Decision No. 86)*, 4 S.T.B. 303 (1999). This case has neither broad implications nor raises important issues.

Contrary to BNSF's claims, this case does not "'raise[] important issues related to the preservation of pre-merger rail competition.'" Pet. at 6 (quoting *Union Pac. Corp.—Control & Merger—S. Pac. Rail Corp. (Decision No. 108)*, FD 32760, slip op. at 3 (STB served May 5, 2017)). Neither STR nor the industrial park it will serve existed until nearly 30 years after Union Pacific merged with Southern Pacific. The Warner Branch was abandoned long before the merger. When BNSF previously submitted STR interchange arguments to the Board, STR stated its understanding "BNSF would be precluded from also interchanging traffic with STR." STR Reply to BNSF Railway Company's Motion to Institute a Proceeding at 3 (attached hereto as Exhibit F). There is no pre-merger rail competition at stake in this matter.

Also contrary to BNSF's claims, this is not a case "'with potentially broad implications concerning conditions imposed in the UP/SP merger.'" Pet. at 6 (quoting *Decision No. 108*, slip op. at 3). This case involves fact-specific questions about BNSF's access to a single short line railroad. BNSF's assertion that "no material facts appear to be in dispute," Pet. at 12, is belied by its subsequent admission that it "intends to seek discovery in this proceeding regarding the circumstances surrounding the structure of the UP/STR transaction," *id.* at 12 n.4, and its request for a procedural schedule that includes a 120-day discovery period that contemplates both written discovery and depositions, *id.* at 15. As the Board has recognized, "arbitration is preferable for resolution of disputed factual matters." *Decision No. 86*, 4 S.T.B. at 309.

### **CONCLUSION**

For the foregoing reasons, the Board should dismiss BNSF's petition for enforcement.

Respectfully submitted,

/s/ Michael L. Rosenthal]

### RESTATED AND AMENDED AGREEMENT

This Restated and Amended Agreement ("Agreement") is entered into this \_\_\_\_ day of March, 2002, between UNION PACIFIC RAILROAD COMPANY ("UP"), a Delaware corporation, and THE BURLINGTON NORTHERN AND SANTA FE RAILWAY COMPANY ("BNSF"), a Delaware corporation.

#### WITNESSETH:

WHEREAS, UP and BNSF entered into an agreement dated September 25, 1995, as amended by supplemental agreements dated November 18, 1995, and June 27, 1996 (collectively, the "1995 Agreement"), in connection with UP's acquisition of Southern Pacific Rail Corporation and its affiliates ("SP") in Finance Docket No. 32760, Union Pacific Corporation, Union Pacific Railroad Company, and Missouri Pacific Railroad Company -- Control and Merger -- Southern Pacific Rail Corporation, Southern Pacific Transportation Company, St. Louis Southwestern Railway Company, SPCSL Corp., and The Denver and Rio Grande Western Railroad Company;

WHEREAS, the Surface Transportation Board ("STB") approved the common control and merger of UP and SP in Decision No. 44 in Finance Docket No. 32760 (served August 12, 1996) and in so doing imposed certain conditions on UP and SP, including, as modified by the STB, the April 18, 1996 settlement agreement among UP, BNSF and the Chemical Manufacturers Association (the "CMA Agreement");

WHEREAS, as a part of its oversight of the UP/SP merger in Finance Docket Nos. 32760, 32760 (Sub-No. 21), and 32760 (Sub-No. 26), the STB has modified and clarified certain of the conditions it imposed in Decision No. 44;

WHEREAS, UP and BNSF entered into a Term Sheet Agreement dated February 12, 1998 (the "Term Sheet Agreement"), pursuant to which UP and BNSF agreed to the joint ownership of the line of railroad between Dawes, TX and Avondale, LA, which joint ownership was effected by separate agreement dated September 1, 2000 (the "TX-LA Line Sale Agreement");

WHEREAS, UP and BNSF have reached agreement with respect to the implementation of the conditions imposed by the STB on the UP/SP merger, as modified and clarified, and certain other matters relating to their rights and obligations under the 1995 Agreement, the CMA Agreement, the Term Sheet Agreement and the TX-LA Line Sale Agreement; and

WHEREAS, UP and BNSF now wish to amend and restate the 1995 Agreement to incorporate the conditions imposed by the STB on the UP/SP merger (including the CMA Agreement, as modified by the STB) and the agreements they have reached relating to those conditions and other related matters.

NOW, THEREFORE, the parties agree to amend and restate the 1995 Agreement as follows:

#### DEFINITIONS

For purposes of this Agreement, the following definitions and terms shall apply:

Shipper Facilities shall mean all existing or new shipper or receiver facilities, including transload facilities as well as rail car storage and car service and repair facilities not owned, leased or operated by UP.

"2-to-1" Points shall mean all geographic locations at which at least one "2-to-1" Shipper Facility is located. Such points include, without limitation, the points listed in Section 8(i) of and on Exhibit A to this Agreement. The boundaries for such "2-to-1" Points shall be deemed to

include all areas within the switching limits of the locations as described in Section 9(g) of this Agreement.

"2-to-1" Shipper Facilities shall mean all Shipper Facilities that were open to both UP and SP, whether via direct service or via reciprocal switching, joint facility or other arrangements, and no other railroad when the 1995 Agreement was executed, regardless of how long ago the shipper or receiver at that facility may have shipped or received, or whether the shipper or receiver at that facility ever shipped or received, any traffic via either UP or SP. The "2-to-1 Point Identification Protocol" between the parties attached hereto as Exhibit E shall govern the process for identifying "2-to-1" Shipper Facilities open to BNSF as a result of the conditions imposed on the UP/SP merger.

New Shipper Facilities shall mean: (i) existing Shipper Facilities constructing trackage for accessing rail service for the first time; and (ii) newly constructed rail-served Shipper Facilities. New Shipper Facilities shall also mean previously-served Shipper Facilities that begin to ship by rail again where (i) there has been a change of owner or lessee, and (ii) the use of the facility is actually different in nature and purpose from the facility's prior use (e.g., there has been a change in the type of products shipped from or received at the facility). New Shipper Facilities shall not include expansion of or additions to an existing rail-served Shipper Facility, but do include (1) Shipper Facilities which, on September 25, 1995, were being developed or for which land had been acquired for that purpose in contemplation of receiving rail service by both UP and SP, and (2) Transload Facilities located after September 11, 1996, including those owned or operated by BNSF.

Trackage Rights Lines shall mean the lines over which BNSF has been granted trackage rights pursuant to this Agreement, but shall not include any other lines over which UP/SP grants

BNSF trackage rights ("Overhead Trackage Rights") solely (i) to facilitate the parties' operation over Trackage Rights Lines, (ii) to permit BNSF's operation between a mutually-agreed upon BNSF junction point and points listed or described in Section 8(i) of this Agreement, or (iii) to permit BNSF's operation between a mutually-agreed upon BNSF junction point and a build-in/build-out line pursuant to Sections 4(a), 6(c) and 8(l) of this Agreement. The mutually-agreed upon junction point will be selected with the objective of minimizing the operating inconvenience to UP, consistent with ensuring that BNSF can provide competitive service. BNSF acknowledges that it shall not have the right to serve any existing or New Shipper Facility on a line over which BNSF has been granted Overhead Trackage Rights unless such right is specified in this Agreement or in any agreement implementing the Overhead Trackage Rights or unless BNSF has the right to serve a build-in/build-out line on such Overhead Trackage Rights line pursuant to the CMA Agreement or the conditions imposed on the UP/SP merger. All Overhead Trackage Rights Lines, as of the date of the execution hereof, are listed in Exhibit F to this Agreement, which exhibit may be amended and replaced from time to time by a new exhibit signed and dated by the parties. New Shipper Facilities shall be deemed to be "on" a Trackage Rights Line if the facility is either (1) adjacent to a Trackage Rights Line or (2) adjacent to a spur, an industrial track, or a yard that is itself served by such Trackage Rights Line. New Shipper Facilities are not "on" a Trackage Rights Line if they can be accessed only via a 49 U.S.C. 10901 "line of railroad" which is not a Trackage Rights Line.

Transload Facilities shall mean Shipper Facilities other than automotive or intermodal facilities or team tracks where freight is transferred from one railcar to another or from one mode to another (short term incidental storage may also occur) as defined by the STB in its decisions

in Finance Docket No. 32760. An "Existing Transload Facility" is a Transload Facility which was in existence on September 25, 1995.

1. **Western Trackage Rights**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- SP's line between Denver, CO and Salt Lake City, UT;
- UP's line between Salt Lake City and Ogden, UT;
- SP's line between Ogden and Little Mountain, UT;
- UP's line between Salt Lake City and Alazon, NV;
- UP's and SP's lines between Alazon and Weso, NV;
- SP's line between Weso, and Oakland, CA via SP's line between Sacramento, CA and Oakland referred to as the "Cal-P" (subject to traffic restrictions as set forth in Section 1(g));
- Overhead Trackage Rights on SP's line between Binney Junction, CA and Roseville, CA in the vicinity of SP MP 106.6;
- SP's line between Elvas (Elvas Interlocking) and Stockton, CA (subject to traffic restrictions as set forth in Section 1(g) and also excluding any trains moving over the line between Bieber and Keddie, CA purchased by BNSF pursuant to Section 2(a) of this Agreement);
- UP's line between Weso and Stockton, CA; and
- SP's line between Oakland and San Jose, CA.

(b) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload

Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facilities located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facilities located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. BNSF shall also receive the right to interchange with: the BHP Nevada Railroad Company at Shafter, NV; the Utah Railway Company at Utah Railway Junction, UT; Grand Junction, CO; and Provo, UT; the Utah Central Railway Company at Ogden; the Salt Lake, Garfield and Western at Salt Lake City; and the Salt Lake City Southern Railroad Company at Salt Lake City. BNSF shall also receive the right to utilize in common with UP/SP, for normal and customary charges, SP's soda ash Transload Facilities in Ogden and Salt Lake City. BNSF shall also have the right to access any shipper-owned soda ash Transload Facilities in Ogden and Salt Lake City and to establish its own soda ash Transload Facilities along the Trackage Rights Lines. BNSF shall have the same access as UP to all "2-to-1" Shipper Facilities and "2-to-1" Points between Salt Lake City, UT, and SP MP 755.1 north of Woods Cross, UT.

(c) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections,

sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(d) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 1(c) above, of the manner by which it proposes such service be provided and

the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(e) For Reno area intermodal traffic, BNSF may use SP's intermodal ramp at Sparks, NV with UP/SP providing intermodal terminal services to BNSF for normal and customary charges. If expansion of SP's Sparks intermodal facility is required to accommodate the combined needs of UP/SP and BNSF, then the parties shall share in the cost of such expansion on a pro rata basis allocated on the basis of the relative number of lifts for each party in the 12-month period preceding the date construction begins. If for any reason UP/SP vacates its Sparks intermodal facility, BNSF (i) may vacate the facility and independently establish one of its own, or (ii) shall be permitted by UP/SP to continue to occupy the Sparks facility upon entry into an agreement with UP/SP containing normal and customary terms and conditions (including, without limitation, rental) for the use of similar facilities. If UP elects to offer the Sparks intermodal ramp property for sale to a third party and/or receives an offer UP is willing to accept,

UP will offer to sell the property to BNSF on the same terms and conditions as are applicable to the third party. BNSF shall have thirty (30) days in which to advise UP whether or not it will buy the property on those terms. In the event BNSF declines to buy the property on those terms or fails to advise UP of its intentions within thirty (30) days, BNSF's right of first refusal will be extinguished, and UP may sell the property to the third party. BNSF will then be required to vacate the property within six (6) months, and UP's obligation to furnish BNSF with intermodal terminal services and access to a UP intermodal facility in the Sparks/Reno area will be extinguished.

(f) Except as otherwise herein provided, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(g) BNSF may operate only the following trains on SP's "Cal-P" line between Sacramento and Oakland: (i) intermodal and automotive trains composed of over ninety percent (90%) multi-level automobile equipment and/or flat cars carrying trailers and containers in single or double stack configuration and (ii) one overhead through manifest train of carload business per day in each direction. These BNSF manifest trains may be either I-5 Corridor or Central Corridor trains. On the Donner Pass line between Sacramento and Weso, BNSF may operate only intermodal and automotive trains as described in clause (i) and one overhead through manifest train of carload business per day in each direction. The manifest trains must be equipped with adequate motive power to achieve the same horsepower per trailing ton as comparable UP/SP manifest trains. BNSF may use helpers on these trains only if comparable UP/SP manifest trains use helpers; BNSF must provide the helper service. The restrictions set forth in this section do not apply to local trains serving Shipper Facilities to which BNSF has

access on the identified lines, and such trains shall not be considered in determining whether BNSF is in compliance with such restrictions. If UP grants its prior concurrence, BNSF's overhead through manifest trains shall be allowed to set out and pick up traffic to or from intermediate points on the identified lines.

(h) At BNSF's request, UP/SP shall provide train and engine crews and required support personnel and services in accordance with UP/SP's operating practices necessary to handle BNSF trains moving between Salt Lake City and Oakland. UP/SP shall be reimbursed for providing such employees on a cost plus reasonable additives basis and for any incremental cost associated with providing employees such as lodging or crew transportation expense. BNSF must also give UP/SP reasonable advance notice of its need for employees in order to allow UP/SP time to have adequate trained crews available. All UP/SP employees engaged in or connected with the operation of BNSF's trains shall, solely for purposes of standard joint facility liability, be deemed to be "sole employees" of BNSF. If UP/SP adds to its labor force to comply with a request or requests from BNSF to provide employees, then BNSF shall be responsible for any labor protection, guarantees or reserve board payments for such incremental employees resulting from any change in BNSF operations or traffic levels.

(i) UP/SP agree that their affiliate Central California Traction Company shall be managed and operated so as to provide BNSF non-discriminatory access to industries on its line on the same and no less favorable basis as provided UP and SP.

(j) If BNSF desires to operate domestic high cube double stacks over Donner Pass, then BNSF shall be responsible to pay for the cost of achieving required clearances. UP/SP shall pay BNSF one-half of the original cost of any such work funded by BNSF (including per annum interest thereon calculated in accordance with section 9(c)(v) of this Agreement) if UP/SP

subsequently decides to begin moving domestic high cube double stacks over this route. If UP/SP initiates and funds the clearance program, then BNSF shall pay one half of the original cost (including per annum interest thereon calculated in accordance with section 9(c)(v) of this Agreement) at such time as BNSF begins to use the line for domestic high cube double stacks.

(k) BNSF agrees to waive its right under Section 9 of the Agreement dated April 13, 1995, and agreements implementing that agreement to renegotiate certain compensation terms of such agreement in the event of a merger, consolidation or common control of SP by UP. BNSF also agrees to waive any restrictions on assignment in the 1990 BN-SP agreement covering trackage rights between Kansas City and Chicago.

2. **I-5 Corridor**

(a) UP/SP shall sell to BNSF UP's line between Bieber and Keddie, CA. UP/SP shall retain the right to use the portion of this line between MP 0 and MP 2 for the purpose of turning equipment. UP/SP shall pay BNSF a normal and customary trackage rights charge for this right.

(b) BNSF shall grant UP/SP overhead trackage rights on BN's line between Chemult and Bend, OR for rail traffic of all kinds, carload and intermodal, for all commodities.

(c) The parties will, under the procedures established in Section 9(f) of this Agreement, establish a proportional rate agreement incorporating the terms of the "Term Sheet for UP/SP-BNSF Proportional Rate Agreement Covering I-5 Corridor" attached hereto as Exhibit B.

3. **Southern California Access**

(a) UP/SP shall grant access to BNSF to serve all "2-to-1" Shipper Facilities in Southern California at the points listed on Exhibit A to this Agreement.

(b) UP/SP shall grant to BNSF trackage rights on the following lines:

- UP's line between Riverside and Ontario, CA; and

- UP's line between Basta, CA and Fullerton and La Habra, CA.

(c) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement.

(d) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement the use of a third party contractor; PROVIDED, HOWEVER, that it shall be

UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(e) BNSF shall grant UP/SP overhead trackage rights on Santa Fe's line between Barstow (including both legs of the wye) and Mojave, CA.

(f) Except as otherwise provided herein, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(g) UP/SP shall work with BNSF to facilitate access by BNSF to the Ports of Los Angeles and Long Beach, CA. Other than as legally precluded, UP/SP shall (a) extend the term of the present agreement dated November 21, 1981, to continue until completion of Alameda Corridor, (b) amend that agreement to apply to all carload and intermodal traffic, and (c) grant BNSF the right to invoke such agreement to provide loop service utilizing UP's and Santa Fe's

lines to the Ports at BNSF's option to allow for additional operating capacity. UP/SP's commitment is subject to available capacity. Any incremental capacity related projects necessary to accommodate BNSF traffic shall be the sole responsibility of BNSF.

(h) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 3(d) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

4. **South Texas Trackage Rights and Purchase**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- UP's line between Ajax and San Antonio, TX;

- UP's line between Houston (Algoa) and Brownsville, TX (with parity and equal access to the Mexican border crossing at Brownsville);
- UP's line between Odem and Corpus Christi, TX;
- UP's line between Ajax and Sealy, TX;
- SP's line between San Antonio and Eagle Pass, TX (with parity and equal access to the Mexican border crossing at Eagle Pass);
- UP's line between Craig Junction and SP Junction, TX (Tower 112) via Track No. 2 through Fratt, TX;
- SP's line between SP Junction (Tower 112) and Elmendorf, TX;
- SP's line in San Antonio between SP Tower 105 and SP Junction (Tower 112);
- Overhead Trackage Rights on SP's Port Lavaca Branch, between Placedo and Port Lavaca, TX, for the purpose of reaching a point of build-in/build-out to/from Union Carbide Corporation's ("UCC") facility at North Seadrift, TX. UP/SP shall permit BN/Santa Fe or UCC to construct and connect to the Port Lavaca Branch, at their expense, a build-in/build-out line. BN/Santa Fe or UCC shall have the right to purchase for net liquidation value all or any part of the Port Lavaca Branch that UP/SP may abandon;
- UP's line between Kerr (connection to Georgetown RR) and Taylor, TX;
- Overhead Trackage Rights on UP's line between Round Rock and McNeil, TX for the purpose of interchanging with the Capital Metro Transit Authority, its successors or agent;

- UP's line between Temple and Waco, TX;
- UP's line between Temple and Taylor, TX;
- UP's line between Taylor and Smithville, TX; and
- SP's line between El Paso and Sierra Blanca, TX.

(b) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement and City Public Service Board of San Antonio, Texas Elmendorf facilities listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. BNSF shall also have the right to interchange with: the Texas Mexican Railway Company at Corpus Christi and Robstown, TX; the Georgetown Railroad at Kerr; Transportacion Ferroviaria Mexicana ("TFM") at Brownsville (Matamoros, Mexico); Ferrocarril Mexicano ("FXE") at Eagle Pass; and the operator of SP's former line between Giddings and Llano at McNeil, TX. BNSF's access and interchange rights at Corpus Christi and Brownsville shall be at least as favorable as SP had on September 25, 1995. BNSF shall have direct access to the Port of Brownsville, the Brownsville and Rio Grande International Railroad, and the TFM. UP will designate a yard in Brownsville for sale to BNSF at such time as BNSF establishes its own trackage rights operations into Brownsville and at such time as the connection between UP and SP as a part of the Brownsville

relocation project is completed. In the event UP/SP determines to cease operations in the SP East Yard at San Antonio, TX, UP/SP will give first consideration to BNSF for taking over operation of the East Yard pursuant to a mutually-agreeable arrangement.

(c) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and

auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(d) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 4(c) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(e) Except as otherwise provided herein, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(f) In lieu of BNSF's conducting actual trackage rights operations between Houston, Corpus Christi, Harlingen and Brownsville, TX (including TFM interchange), UP/SP agrees, upon request by BNSF, to handle BNSF's business on a haulage basis for the fee called for by Section 8(m) of this Agreement. UP/SP shall accept, handle, switch and deliver traffic moving under haulage without any discrimination in promptness, quality of service, or efficiency in favor of comparable traffic moving in UP/SP's account.

(g) UP/SP shall sell to BNSF UP's line between Dallas and Waxahachie, TX with UP retaining trackage rights to exclusively serve local industries on the Dallas-Waxahachie line.

(h) Upon the effectiveness of the trackage rights to Eagle Pass under this section, BNSF's right to obtain haulage services from UP/SP to and from Eagle Pass pursuant to the agreement between BNSF and SP dated April 13, 1995 and subsequent haulage agreement between those parties shall no longer apply, provided BNSF shall continue to have the right to use trackage at or near Eagle Pass as specified in that agreement for use in connection with trackage rights under this Agreement.

5. **Eastern Texas - Louisiana Trackage Rights and Purchase**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- SP's line between Houston and Iowa Junction in Louisiana, which trackage rights have been amended by the Term Sheet Agreement and the TX-LA Line Sale Agreement implementing UP's and BNSF's joint ownership of SP's line between Dawes, TX and Avondale, LA;

- SP's line between Beaumont and Port Arthur, TX;
- SP's line between Dayton and Baytown and East Baytown, TX;
- SP's Channelview Spur which connects to the SP's line between Houston and Iowa Junction near Sheldon, TX for the purpose, inter alia, of reaching a point of build-in/build-out to/from the facilities of Lyondell Petrochemical Company and Arco Chemical Company at Channelview, TX. UP/SP shall permit BN/Santa Fe or one or both shippers to construct and connect to SP's Channelview Spur, at their expense, a build-in/build-out line. BN/Santa Fe or the shippers shall have the right to purchase for net liquidation value all or any part of the Channelview Spur that UP/SP may abandon;
- SP's line between Mallard Junction and Harbor, LA;
- SP's line near Avondale (SP MP 14.94 and West Bridge Junction (SP MP 9.97);
- UP's Main Line No. 1 from UP MP 14.29 to MP 14.11 including crossover to SP's main line and UP's MP 10.38 to MP 10.2; and
- UP's line between West Bridge Junction (UP MP 10.2) and UP's Westwego, LA intermodal facility (approximately UP MP 9.2).

(b) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement,

and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. BNSF shall also have the right to handle traffic of shippers open to all of UP, SP and KCS at Lake Charles, Rose Bluff and West Lake, LA, and traffic of shippers open to SP and KCS at West Lake Charles. BNSF shall also have the right to interchange with: the Acadiana Railway Company at Crowley, LA; and the Louisiana & Delta Railroad, Inc. at Lafayette, Raceland and Schreiver, LA. BNSF shall also have the right to interchange with and have access over the New Orleans Public Belt Railroad at West Bridge Junction, LA.

(c) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be

UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(d) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 5(c) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish

for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(e) UP/SP shall grant BNSF the right to use SP's Bridge 5A at Houston, Texas.

(f) Except as otherwise provided herein, trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(g) UP/SP shall sell to BNSF UP's Main Line No. 1 between MP 14.11 and 10.38, UP's Westwego intermodal terminal, SP's old Avondale Yard (together with the fueling and mechanical facilities located thereon) as shown on Exhibit C; and SP's Lafayette Yard.

6. **Houston, TX-Valley Junction, IL Trackage Rights**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- SP's line between Houston, TX and Fair Oaks, AR via Cleveland and Pine Bluff, AR;
- UP's line between Fair Oaks and Bridge Junction, AR;
- SP's line between Brinkley and Briark, AR;
- UP's line between Pine Bluff and North Little Rock, AR
- UP's line between Houston and Valley Junction, IL via Palestine, TX;
- SP's line between Fair Oaks and Illmo, MO via Jonesboro, AR and Dexter Junction, MO; and

- UP's line between Fair Oaks and Bald Knob, AR.

(b) In lieu of conducting actual operations between Pine Bluff and North Little Rock, AR, UP/SP agrees, upon request of BNSF, to handle BNSF's business on a haulage basis for the fee called for by Section 8(m) of this Agreement.

(c) BNSF shall have the right to transport unit coal trains (i) over the Trackage Rights Lines to and from a point of build-in/build-out to and from Entergy Services, Inc.'s plant at White Bluff, AR if and when such a build-in/build-out line is constructed by an entity other than UP/SP to connect such plant with an SP line, and (ii) to and from Entergy Services, Inc.'s plant at White Bluff (1) by entering and exiting the Trackage Rights Lines at Jonesboro and Hoxie, AR, respectively, and/or (2) by utilization of BNSF's line via Memphis, TN.

(d) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. In addition to the other restrictions and limitations set forth herein, as to UP's and SP's lines between Memphis and Valley Junction, IL: (1) BNSF shall not have the right to enter or exit at intermediate points north of Bald Knob and Fair Oaks, AR; and (2) BNSF traffic is limited to traffic that moves through, originates in, or terminates in Texas or Louisiana. These two restrictions do not apply to traffic moving to or

from Shipper Facilities in the Houston-Memphis-St. Louis Corridor to which BNSF has access pursuant to this Section 6(d) or Section 8(i) below. The two restrictions also do not apply to the traffic that BNSF is permitted to handle pursuant to the remaining provisions of this Section 6(d), which remains subject to all other conditions and restrictions. BNSF shall also have the right to handle traffic of shippers open to all of UP, SP and KCS at Texarkana, TX/AR, and Shreveport, LA, to and from the Memphis BEA (BEA 73), but not including proportional, combination or Rule 11 rates via Memphis or other points in the Memphis BEA. In the Houston-Memphis-St. Louis corridor, BNSF shall have the right to move some or all of its traffic via trackage rights over either the UP line or the SP line, at its discretion, for operating convenience. BNSF shall also have the right to interchange: with the Little Rock and Western Railway at Little Rock, AR; the Little Rock Port Authority at Little Rock, AR; KCS at Shreveport, LA and Texarkana, TX/AR, for movements of traffic originated by KCS at or delivered by KCS to shippers or receivers at Lake Charles, West Lake, or West Lake Charles, LA; with KCS (y) at Shreveport, LA for movements of loaded and empty coal trains moving to and from Texas Utilities Electric Company's Martin Lake generating station, and (z) at Texarkana, TX/AR for movements of empty coal trains returning from Texas Utilities Electric Company's Martin Lake generating station; and with the Texas Northeastern Railroad at Texarkana, TX for the sole purpose of moving BNSF traffic to and from Shipper Facilities at Defense, TX.

(e) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after

initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(f) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii)

any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 6(e) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(g) Except as otherwise provided herein, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(h) BNSF shall grant to UP/SP overhead trackage rights on BN's line between West Memphis and Presley Junction, AK. UP/SP shall be responsible for upgrading this line as necessary for its use. If BNSF uses this line for overhead purposes to connect its line to the trackage rights lines, BNSF shall share in one-half of the upgrading cost.

7. **St. Louis Area Coordinations**

(a) UP/SP agree to cooperate with BNSF to facilitate efficient access by BNSF to other carriers at and through St. Louis via The Alton & Southern Railway Company ("A&S"). If

BNSF requests, UP/SP agree to construct or cause to be constructed for the use of both BNSF and UP/SP a faster connection between the BN and UP lines at Grand Avenue in St. Louis, MO and a third track from Grand Avenue to near Gratiot Street Tower at the sole cost and expense of BNSF. Upon completion of such construction, UP/SP shall grant to BNSF overhead trackage rights on UP's line between Grand Avenue and Gratiot Street.

(b) UP wishes to secure dispatching authority for the MacArthur Bridge across the Mississippi River at St. Louis. Dispatching is currently controlled by the Terminal Railroad Association of St. Louis ("TRRA"). BNSF agrees that it will cause its interest on the TRRA Board or any shares it owns in the TRRA to be voted in favor of transferring dispatching control of the MacArthur Bridge to UP if such matter is presented to the TRRA Board or its shareholders for action. Such dispatching shall be performed in a manner to ensure that all users are treated equally.

(c) If BNSF desires to use the A&S Gateway Yard, upon transfer of MacArthur Bridge dispatching to UP, UP/SP shall assure that charges assessed by the A&S to BNSF for use of Gateway Yard are equivalent to those assessed other non-owners of A&S.

(d) UP/SP and BNSF agree to provide each other reciprocal detour rights between Bridge Junction-West Memphis and St. Louis in the event of flooding, subject to the availability of sufficient capacity to accommodate the detour.

(e) UP/SP shall provide BNSF Overhead Trackage Rights over UP/SP's Jefferson City Subdivision between MP 34.8 near Pacific, MO and MP 43.8 near Labadie, MO for the purpose of accessing Ameren UE's facility at Labadie. BNSF shall have the right to serve all "2-to-1" Shipper Facilities, New Shipper Facilities and Existing Transload Facilities at Labadie.

8. **Additional Rights**

(a) UP/SP shall grant BNSF overhead trackage rights on SP's line between Richmond and Oakland, CA for rail traffic of all kinds, carload and intermodal, for all commodities to enable BNSF to connect via SP's line with the Oakland Terminal Railroad ("OTR") and to access the Oakland Joint Intermodal Terminal ("JIT"), or similar public intermodal facility, at such time as the JIT is built. BNSF shall pay 50% of the cost (up to \$2,000,000 maximum) for upgrading to mainline standards and reverse signaling of SP's No. 1 track between Emeryville (MP 8) and Stege, CA (MP 13.1). Compensation for these trackage rights shall be at the rate of 3.48 mills per ton mile for business moving in the "I-5 Corridor," 3.1 mills per ton mile on all other carload and intermodal business, and 3.0 mills per ton mile for bulk business (as defined in Section 9(a) of this Agreement) escalated in accordance with the provisions of Section 12 of this Agreement. UP/SP shall assess no additional charges against BNSF for access to the JIT and the OTR.

(b) BNSF shall waive any payment by UP/SP of the Seattle Terminal 5 access charge.

(c) BNSF shall grant to UP overhead trackage rights on BN's line between Saunders, WI and access to the MERC dock in Superior, WI.

(d) BNSF shall grant UP the right to use the Pokegama connection at Saunders, WI (i.e., the southwest quadrant connection at Saunders including the track between BN MP 10.43 and MP 11.14).

(e) BNSF shall waive SP's requirement to pay any portion of the Tehachapi tunnels clearance improvements pursuant to the 1993 Agreement between Santa Fe and SP.

(f) BNSF shall allow UP to exercise its rights to use the Hyundai lead at Portland Terminal 6 without any contribution to the cost of constructing such lead.

(g) BNSF shall allow UP/SP to enter or exit SP's Chicago-Kansas City-Hutchinson trackage rights at Buda, Earlville, and west of Edelstein, IL. UP/SP shall be responsible for the cost of any connections required.

(h) BNSF will amend the agreement dated April 13, 1995, between BNSF and SP to allow UP/SP to enter and exit Santa Fe's line solely for the purposes of permitting UP/SP or its agent to pick up and set out interchange business, including reciprocal switch business at Newton, KS, and switching UP industries at that point.

(i) It is the intent of the parties that this Agreement result in the preservation of competition by two rail carriers for (a) all "2-to-1" Shipper Facilities at points listed on Exhibit A to this Agreement and (b) all other shippers who had direct competition or competition by means of siting, transload or build-in/build-out from only UP and SP pre-merger.

The parties recognize that some "2-to-1" Shipper Facilities, Existing Transload Facilities, and New Shipper Facilities at "2-to-1" Points will not be able to avail themselves of BNSF service by virtue of the trackage rights and line sales contemplated by this Agreement. For example, "2-to-1" Shipper Facilities, Existing Transload Facilities, and New Shipper Facilities located at points between Niles Junction and the end of the joint track near Midway (including Livermore, CA, Pleasanton, CA, Radum, CA, and Trevarno, CA), Lyoth, CA, Lathrop, CA, Turlock, CA, South Gate, CA, Tyler, TX, Defense, TX, College Station, TX, Great Southwest, TX, Victoria, TX, Sugar Land, TX, points on the former Galveston, Houston & Henderson Railroad served only by UP and SP, Opelousas, LA and Herington, KS are not accessible under the trackage rights and line sales covered by this Agreement. Accordingly, UP/SP and BNSF agree to enter into arrangements under which, through trackage rights, haulage, ratemaking authority or other mutually acceptable means, BNSF will be able to provide competitive service

to "2-to-1" Shipper Facilities, Existing Transload Facilities, and New Shipper Facilities at the foregoing points and at other "2-to-1" Points not along a Trackage Rights Line.

(j) BNSF shall have the right to interchange with any short-line railroad which, prior to the Effective Date of this Agreement, could interchange with both UP and SP and no other railroad.

(k) BNSF shall also have the right to interchange with any short-line railroad that constructs a new line to and establishes an interchange on a Trackage Rights Line subsequent to UP's acquisition of control of SP; PROVIDED, HOWEVER, that the short-line railroad must be a Class II or Class III railroad neither owned nor operated by BNSF or any BNSF affiliate. In addition, the new rail line must be either (i) an extension of an existing Class II or Class III carrier that does not connect with UP or (ii) a new Class II or Class III carrier. BNSF shall not be entitled to interchange traffic with a Class II or Class III carrier at such a new interchange on a Trackage Rights Line if the traffic originates or terminates at a Shipper Facility that is now served solely by UP unless the Shipper Facility qualifies as a New Shipper Facility or unless the new line qualifies as a build-in or build-out under this Agreement.

(l) In addition to the right to serve build-in/build-out lines specified in Sections 4(a), 5(a) and 6(c) of this Agreement, BNSF shall have the right to serve a new build-in/build-out line constructed to reach a facility that was, prior to September 11, 1996, solely served by either UP or SP and would be open to two railroad service upon construction of the build-in/build-out line (i) to a point on lines owned by SP on September 11, 1996, in the case of facilities solely served by UP, or (ii) to a point on lines owned by UP on September 11, 1996, in the case of facilities solely served by SP. UP shall grant BNSF Overhead Trackage Rights necessary for BNSF to reach the build-in/build-out line. The routing of such trackage rights shall seek to minimize the

operating inconvenience to UP, consistent with ensuring that BNSF can provide competitive service.

(m) Where this Agreement authorizes BNSF to utilize haulage to provide service, the fee for such haulage shall be \$.50 per car mile plus a handling charge to cover handling at the haulage junction with BNSF and to or from a connecting railroad or third party contract switcher. The handling charge shall be \$50 per loaded or empty car for intermodal and carload and \$25 per loaded or empty car for unit trains with unit train defined as 67 cars or more of one commodity in one car type moving to a single destination and consignee. UP/SP shall bill BNSF the \$50 per car handling charge for all cars and, upon receipt of appropriate documentation from BNSF demonstrating that business assessed the \$50 per car handling fee was a unit train, adjust prior billings by \$25 per car for each car BNSF demonstrates to have been eligible for the \$25 per car handling charge for unit trains. Where UP/SP is providing reciprocal switching services to BNSF at "2-to-1" Shipper Facilities as provided for in Section 9(i) of this Agreement, the per car handling charge shall not be assessed at the point where such reciprocal switch charge is assessed. The haulage fee and handling charge set forth above as of September 25, 1995, shall be adjusted upwards or downwards in accordance with Section 12 of this Agreement.

(n) In the event, for any reason, any of the trackage rights granted under this Agreement cannot be implemented because of the lack of sufficient legal authority to carry out such grant, then UP/SP shall be obligated to provide an alternative route or routes, or means of access of commercially equivalent utility at the same level of cost to BNSF as would have been provided by the originally contemplated rights.

(o) In the event UP determines to terminate or not renew a lease to an Existing Transload Facility to which BNSF gained access as a result of this Agreement or the conditions

imposed on the UP/SP merger and BNSF has previously entered into a contract to provide transportation services to the Existing Transload Facility, UP shall extend the lease for the remaining period of such transportation contract or for a period not to exceed 24 months, whichever period is shorter.

9. **Trackage Rights - General Provisions**

(a) The compensation for operations under this Agreement shall be set at the levels shown in the following table as subsequently indexed under the 1995 Agreement:

**Table I**  
**Trackage Rights Compensation**  
**(mills per ton-mile)**

|                                                               | Keddie-Stockton/Richmond | All Other Lines |
|---------------------------------------------------------------|--------------------------|-----------------|
| Intermodal and Carload                                        | 3.48                     | 3.1             |
| Bulk (67 cars or more of<br>one commodity in one<br>car type) | 3.0                      | 3.0             |

These rates shall apply to all equipment moving in a train consist including locomotives. The rates shall be escalated in accordance with the procedures described in Section 12 of this Agreement. The owning line shall be responsible for maintenance of its line in the ordinary course including rail relay and tie replacement. The compensation for such maintenance shall be included in the mills per ton mile rates received by such owning line under this Agreement.

(b) BNSF and UP/SP will conduct a joint inspection to determine necessary connections and sidings or siding extensions associated with connections, necessary to implement the trackage rights granted under this Agreement. The cost of such facilities shall be borne by the party receiving the trackage rights which such facilities are required to implement. Either party shall have the right to cause the other party to construct such facilities. If the owning carrier decides to utilize such facilities constructed by it for the other party, it shall have

the right to do so upon payment to the other party of one-half (½) the original cost of constructing such facilities.

(c) Capital expenditures on the Trackage Rights Lines and on lines over which BNSF is granted Overhead Trackage Rights will be handled as follows:

- (i) UP/SP shall bear the cost of all capacity improvements that are necessary to achieve the benefits of its merger as outlined in the application filed with the ICC for authority for UP to control SP. The operating plan filed by UP/SP in support of the application shall be given presumptive weight in determining what capacity improvements are necessary to achieve these benefits.
- (ii) Any capacity improvements other than those covered by subparagraph (i) above shall be shared by the parties based upon their respective usage of the line in question, except as otherwise provided in subparagraph (iii) below. That respective usage shall be determined by the 12 month period prior to the making of the improvement on a gross ton mile basis.
- (iii) For 18 months following UP's acquisition of control of SP, BNSF shall not be required to share in the cost of any capital improvements under the provision of subparagraph (ii) above.
- (iv) BNSF and UP/SP agree that a capital reserve fund of \$25 million, funded out of the purchase price listed in Section 10 of this Agreement, shall be established. This capital reserve fund shall, with BNSF's prior consent which will not unreasonably be withheld, be drawn down to pay for capital projects on the Trackage Rights Lines that are required to

accommodate the operations of both UP/SP and BNSF on those lines, but in any event shall not be used for expenditures covered by subparagraph (i) above. Any disputes over whether a project is required to accommodate the operation of both parties shall be referred to binding arbitration under Section 15 of this Agreement.

- (v) If both UP/SP and BNSF intend to serve New Shipper Facilities located subsequent to UP's acquisition of control of SP as authorized by Sections 1(b), 3(c), 4(b), 5(b), 6(d), and 8(i) of this Agreement, they shall share equally in any capital investment in such connections and sidings and siding extensions or other support facilities required by both UP and BNSF to provide rail service to such New Shipper Facility. If only one railroad initially provides such service, the other railroad may elect to provide service at a later date, but only after paying to the railroad initially providing such service 50% of any capital investment (including per annum interest thereon) made by the railroad initially providing rail service to the New Shipper Facility. Per annum interest shall be at a rate equal to the average paid on 90-day Treasury Bills of the United States Government as of the date of completion until the date of use by the other railroad commences. Per annum interest shall be adjusted annually on the first day of the twelfth (12th) month following the date of completion and every year thereafter on such date, based on the percentage increase or decrease, in the average yield of 30-year U.S. Treasury Notes for the prior year compared to their average yield in first year of completion of the

access to such industry or industries. Each annual adjustment shall be subject, however, to a "cap" (up or down) of two percentage points more or less than the prior year's interest rate.

(d) Subject to the terms of the Dispatching Protocols attached hereto as Exhibit D and incorporated herein, the management and operation of the lines over which the parties have granted trackage rights to each other pursuant to this Agreement ("Joint Trackage") shall be under the exclusive direction and control of the owning carrier, and the owning carrier shall have the otherwise unrestricted power to change the management and operations on and over Joint Trackage as in its judgment may be necessary, expedient or proper for the operations thereof intended. Trains of the parties utilizing Joint Trackage shall be given equal dispatch without any discrimination in promptness, quality of service, or efficiency in favor of comparable traffic of the owning carrier. Trains operating in the Houston terminal shall be routed over the most efficient routes as necessary to avoid delays and congestion, even routes over trackage over which the operating carrier has no operating rights.

The owning carrier shall keep and maintain the Joint Trackage at no less than the track standard designated in the current timetable for the applicable lines subject to the separate trackage rights agreement. The parties agree to establish a joint service committee to regularly review operations over the Joint Trackage lines.

In the event the owning carrier determines to sell or remove from service a Joint Trackage line and/or any associated facilities, the owning carrier shall provide the other carrier with reasonable written notice of such determination. Any such sale to a third party shall be expressly made subject to the terms and conditions of this Agreement, and the owning carrier

shall remain responsible as to the obligations imposed on it herein in the event the third party purchaser does not fulfill those obligations.

(e) Each party shall be responsible for any and all costs relating to providing employee protection benefits, if any, to its employees prescribed by law, governmental authority or employee protective agreements where such costs and expenses are attributable to or arise by reason of that party's operation of trains over Joint Trackage. To the extent that it does not violate existing agreements, for a period of three years following acquisition of control of SP by UP, BNSF and UP/SP shall give preference to each other's employees when hiring employees needed to carry out trackage rights operations or operate lines being purchased. The parties shall provide each other with lists of available employees by craft or class to whom such preference shall be granted. Nothing in this Section 9(e) is intended to create an obligation to hire any specific employee.

(f) The trackage rights grants described in this Agreement and the purchase and sale of line segments shall be included in separate trackage rights and line sale agreement documents respectively of the kind and containing such provisions as are normally and customarily utilized by the parties, including exhibits depicting specific rail line segments, and other provisions dealing with maintenance, improvements, and liability, subject to more specific provisions described for each grant and sale contained in this Agreement and the general provisions described in this section. BNSF and UP/SP shall elect which of their constituent railroads shall be a party to each such trackage rights agreement and line sale and shall have the right to assign the agreement among their constituent railroads. The parties shall use their best efforts to complete such agreements by June 1, 1996. If agreement is not reached by June 1, 1996 either party may request that any outstanding matters be resolved by binding arbitration with the

arbitration proceeding to be completed within sixty (60) days of its institution. In the event such agreements are not completed by the date the grants of such trackage rights are to be effective, it is intended that operations under such grants shall be commenced and governed by this Agreement.

(g) All locations referenced herein shall be deemed to include all areas within the switching limits of the location designated by tariff, clarified to the extent necessary by publicly-available information, in effect as of September 25, 1995, and access to such locations shall include the right to locate and serve new auto and intermodal facilities at such locations.

(h) The tenant carrier on the Joint Trackage shall have the right to construct, or have constructed for it, for its sole use exclusively owned or leased facilities, including, without limitation, automobile and intermodal facilities, storage in transit facilities, team tracks and yards along the Joint Trackage pursuant to the following terms and conditions:

- (i) The party wishing to construct such exclusively owned facilities for its sole use shall submit its plans to the other party for its review and approval, which approval shall not be unreasonably withheld or delayed;
- (ii) In the case of the construction of team tracks and ancillary facilities, including loading facilities and necessary track connections, the parties shall work cooperatively with each other to enable such construction;
- (iii) Such exclusively owned or leased and used facilities shall not (i) impair the other party's use of the Joint Trackage, (ii) prevent or unduly hinder the other party's access to existing or future customers or facilities served from the Joint Trackage, or (iii) impair access to other exclusively owned facilities then in existence; and

(iv) If jointly owned or leased and used property is to be used for the construction of such exclusively owned or leased and used facilities, the party so constructing such exclusively owned or leased and used facilities shall reimburse the other party for its ownership of the jointly owned property so utilized at 50% of its then current fair market value. If the tenant carrier uses property of the owning carrier for the construction of exclusively owned or leased and used facilities, the tenant carrier shall reimburse the owning carrier for its ownership of the property at 100% of its then current fair market value.

(i) Where UP/SP provides reciprocal switching services to BNSF under this Agreement, UP/SP will do so at a rate of no more than \$130 per car as of September 25, 1995, adjusted pursuant to Section 12 of this Agreement, and all such reciprocal switching services shall be provided on an impartial basis. In the event BNSF's access to a Shipper Facility pursuant to this Agreement is effected by means of a third party contractor, (i) any associated third party switch fee shall be paid by UP/SP, (ii) BNSF shall pay to UP/SP the applicable reciprocal switch fee established between the parties to this Agreement, and (iii) BNSF shall neither be entitled to become an assignee of UP/SP nor become eligible to enter into a separate agreement with the shipper so served.

(j) It is the intent of the parties that BNSF shall, where sufficient volume exists, be able to utilize its own terminal facilities for traffic handled by BNSF under the terms of this Agreement. These locations include Salt Lake City, Ogden, Brownsville and San Antonio, and other locations where such volume develops. Facilities or portions thereof presently utilized by UP or SP at such locations shall be acquired from UP/SP by lease or purchase at normal and

customary charges. Upon request of BNSF and subject to availability and capacity, UP/SP shall provide BNSF with terminal support services including fueling, running repairs and switching. UP/SP shall also provide intermodal terminal services at Salt Lake City, Reno, and San Antonio. UP/SP shall be reimbursed for such services at UP's normal and customary charges. Where terminal support services are not required, BNSF shall not be assessed additional charges for train movements through a terminal. BNSF shall also have equal access, along with UP/SP, to all SP Gulf Coast storage in transit facilities ("SIT") (i.e., those SP facilities at Dayton, East Baytown, and Beaumont, TX), on economic terms no less favorable than the terms of UP/SP's access, for storage in transit of traffic handled by BNSF under the terms of this Agreement, including, but not limited to, traffic to or from Shipper Facilities to which BNSF gained access under the terms of this Agreement. UP/SP agree to work with BNSF to locate additional SIT facilities on the Trackage Rights Lines and on lines over which BNSF is granted Overhead Trackage Rights to serve a build-in/build-out line as necessary.

(k) BNSF may, subject to UP/SP's consent, use agents for limited feeder service on the Trackage Rights Lines and on lines over which BNSF is granted Overhead Trackage Rights to serve a build-in/build-out line.

(l) BNSF shall have the right to inspect the UP and SP lines over which it obtains trackage rights under this Agreement and require UP/SP to make such improvements under this section as BNSF deems necessary to facilitate its operations at BNSF's sole expense. Any such inspection must be completed and improvements identified to UP/SP within one year of the effectiveness of the trackage rights.

(m) BNSF shall have the right to connect, for movement in all directions, with its present lines (including existing trackage rights) at points where its present lines (including

existing trackage rights) intersect with Trackage Rights Lines or lines it will purchase pursuant to this Agreement. UP/SP shall have the right to connect, for movement in all directions, with its present lines (including existing trackage rights) at points where its present lines (including existing trackage rights) intersect with lines over which it will receive trackage rights pursuant to this Agreement. BNSF shall also have the right, at the option of the City Public Service Board of San Antonio, TX, to connect for movement to and from Elmendorf, TX, where BNSF's trackage rights granted pursuant to this Agreement intersect at SP Junction (Tower 112) with the existing trackage rights SP has granted to City Public Service Board of San Antonio, TX.

(n) In the event UP/SP institute directional operations over any Trackage Rights Line or on lines over which BNSF is granted Overhead Trackage Rights, (i) UP/SP shall provide BNSF with reasonable notice of the planned institution of such operations and shall adjust, as appropriate, the trackage rights granted to BNSF pursuant to this Agreement so as to avoid impairing BNSF's ability to provide competitive service on a Trackage Rights Line, and (ii) BNSF shall operate in accordance with the flow of traffic established by such directional operation; PROVIDED, HOWEVER, that any rights granted to BNSF as a result of UP/SP's institution of directional operations shall be Overhead Trackage Rights only, and PROVIDED FURTHER that BNSF shall have the right, on any Trackage Rights Line over which directional operations have been instituted (including lines on which BNSF received Overhead Trackage Rights to serve a point listed or described in Section 8(i) of this Agreement or a build-in/build-out line), to operate against the flow of traffic if it is reasonably necessary to do so for BNSF to provide competitive service to shippers on the line which are accessible to BNSF (including service to New Shipper Facilities and build-in/build-out lines) over such line including but not

limited to circumstances where UP operates against the flow of traffic with trains of the same or similar type for the same shipper(s) or for shipper(s) in the same general area.

10. **Compensation for Sale of Line Segments**

(a) BNSF shall pay UP/SP the following amounts for the lines it is purchasing pursuant to this Agreement:

| <u>Line Segment</u>                                                                                                              | <u>Purchase Price</u> |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| Keddie-Bieber                                                                                                                    | \$ 30 million         |
| Dallas-Waxahachie                                                                                                                | 20 million            |
| Iowa Jct.-Avondale MP 16.9<br>(includes UP's Westwego<br>intermodal yard; SP's<br>old Avondale yard;<br>and SP's Lafayette yard) | 100 million           |

(b) The purchase shall be subject to the following terms:

- (i) the condition of the lines at closing shall be at least as good as their current conditions as reflected in the current timetable and slow orders (slow orders to be measured by total mileage at each level of speed restrictions).
- (ii) includes track and associated structures together with right-of-way and facilities needed for operations.
- (iii) indemnity for environmental liabilities attributable to UP/SP's prior operations.
- (iv) standard provisions for sales of this nature involving title, liens, encumbrances other than those specifically reserved or provided for by this Agreement.

- (v) assignment of associated operating agreements (road crossings, crossings for wire and pipelines, etc.). Non-operating agreements shall not be assigned.
- (vi) removal by UP/SP, from a conveyance, within 60 days of the closing of any sale, of any non-operating real property without any reduction in the agreed upon purchase price.
- (vii) the purchase will be subject to easements or other agreements involving telecommunications, fiber optics or pipeline rights or operations in effect at the time of sale.

BNSF shall have the right to inspect the line segments and associated property to be sold and records associated therewith for a period of ninety days from the Effective Date of this Agreement to determine the condition and title of such property. At the end of such period, BNSF shall have the right to decline to purchase any specific line segment or segments. In such event, UP/SP shall grant BNSF overhead trackage rights on any such segment with compensation to be paid, in the case of Avondale-Iowa Junction on the basis of the charges set forth in Section 9(a) of this Agreement, and in the case of Keddie-Bieber on a typical joint facility basis with maintenance and operating costs to be shared on a usage basis (gross ton miles used to allocate usage) and annual interest rental equal to the depreciated book value times the then current cost of capital as determined by the ICC times a usage basis (gross ton miles). In the case of Dallas-Waxahachie, operations would continue under the existing trackage rights agreement.

(c) Prior to closing the sale of SP's Iowa Jct.-Avondale line (the "IJA Line"), representatives of UP/SP and BNSF shall conduct a joint inspection of the IJA Line to consider

whether its condition at closing meets the standard established in Section 10(b)(i) of this Agreement. If the representatives of the parties are unable to agree that the condition of the IJA Line meets this standard, then BNSF shall place \$10.5 million of the purchase price in escrow with a mutually agreed upon escrow agent, and closing shall take place. After closing the parties shall mutually select an independent third party experienced in railroad engineering matters (the "Arbitrator") who shall arbitrate the dispute between the parties as to whether the condition of the IJA Line is in compliance with Section 10(b)(i) of this Agreement. Arbitration shall be conducted pursuant to Section 15 subject to the foregoing qualification that the Arbitrator be experienced in railroad engineering matters. If the Arbitrator finds the IJA Line is below the standard, the Arbitrator shall determine the amount (which shall not exceed \$10.5 million) required to bring it in compliance with the standard and authorize the payment of such amount out of the escrow fund to BNSF with the balance, if any, paid to UP/SP. Any amount so paid to BNSF out of the escrow fund to bring the IJA Line into compliance with the standard shall be used by BNSF exclusively to that end (or to reimburse BNSF for funds previously expended to that end) and UP/SP shall not, as a tenant on the IJA Line be billed for any work undertaken by BNSF pursuant to the provisions of this Section 10(c).

11. **Term**

This Agreement shall be effective upon execution (which occurred on September 25, 1995) (the "Effective Date") for a term of ninety-nine years, PROVIDED, HOWEVER, that the grants of rights under Section 1 through 8 shall be effective only upon UP's acquisition of control of SP, and provided further that BNSF may terminate this Agreement by notice to UP/SP given before the close of business on September 26, 1995, in which case this Agreement shall have no further force or effect. This Agreement and all agreements entered into pursuant or in relation hereto shall terminate, and all rights conferred pursuant thereto shall be canceled and

deemed void ab initio, if, in a Final Order, the application for authority for UP to control SP has been denied or has been approved on terms unacceptable to the applicants, PROVIDED, HOWEVER, that if this Agreement becomes effective and is later terminated, any liabilities arising from the exercise of rights under Sections 1 through 8 during the period of its effectiveness shall survive such termination. For purposes of this Section 11, "Final Order" shall mean an order of the STB, any successor agency, or a court with lawful jurisdiction over the matter which is no longer subject to any further direct judicial review (including a petition for writ of certiorari) and has not been stayed or enjoined.

12. **Adjustment of Charges**

All trackage rights charges under this Agreement shall be subject to adjustment upward or downward July 1 of each year by the difference in the two preceding years in UP/SP's system average URCS costs for the categories of maintenance and operating costs covered by the trackage rights fee. "URCS costs" shall mean costs developed using the Uniform Rail Costing System.

The rates for reciprocal switching services established in Section 9(i) and for haulage service established in Section 8(m) shall be adjusted upward or downward each July 1 of each year to reflect fifty percent (50%) of increases or decreases in Rail Cost Adjustment Factor, not adjusted for changes in productivity ("RCAF-U") published by the Surface Transportation Board or successor agency or other organizations. In the event the RCAF-U is no longer maintained, the parties shall select a substantially similar index and, failing to agree on such an index, the matter shall be referred to binding arbitration under Section 15 of this Agreement.

The parties will agree on appropriate adjustment factors if not covered herein for switching, haulage and other charges.

Upon every fifth anniversary of the effective date of this Agreement, either party may request on ninety (90) days notice that the parties jointly review the operation of the adjustment mechanism and renegotiate its application. If the parties do not agree on the need for or extent of adjustment to be made upon such renegotiation, either party may request binding arbitration under Section 15 of this Agreement. It is the intention of the parties that rates and charges for trackage rights and services under this Agreement reflect the same basic relationship to operating costs as upon execution of this Agreement (September 25, 1995).

13. **Assignability**

This Agreement and any rights granted hereunder may not be assigned in whole or in part without the prior consent of the other parties except as provided in this section. No party may permit or admit any third party to the use of all or any of the trackage to which it has obtained rights under this Agreement, nor under the guise of doing its own business, contract or make any arrangement to handle as its own trains, locomotives, cabooses or cars of any such third party which in the normal course of business would not be considered the trains, locomotives, cabooses or cars of that party. In the event of an authorized assignment, this Agreement and the operating rights hereunder shall be binding upon the successors and assigns of the parties. This Agreement may be assigned by either party without the consent of the other only as a result of a merger, corporate reorganization, consolidation, change of control or sale of substantially all of its assets.

14. **Government Approvals**

The parties agree to cooperate with each other and make whatever filings or applications, if any, are necessary to implement the provisions of this Agreement or of any separate agreements made pursuant to Section 9(f) and whatever filings or applications may be necessary to obtain any approval that may be required by applicable law for the provisions of such

agreements. BNSF agrees not to oppose the primary application or any related applications in Finance Docket No. 32760 (collectively the "control case"), and not to seek any conditions in the control case, not to support any requests for conditions filed by others, and not to assist others in pursuing their requests. BNSF shall remain a party in the control case, but shall not participate further in the control case other than to support this Agreement, to protect the commercial value of the rights granted to BNSF by this Agreement, and to oppose requests for conditions by other parties which adversely affect BNSF; PROVIDED, HOWEVER, that BNSF agrees to reasonably cooperate with UP/SP in providing testimony to the ICC necessary to demonstrate that this Agreement and the operations to be conducted thereunder shall provide effective competition at the locations covered by the Agreement. UP/SP agree to support this Agreement and its implementation and warrant that it has not entered into agreements with other parties granting rights to other parties granted to BNSF under this Agreement. UP/SP agree to ask the ICC to impose this Agreement as a condition to approval of the control case. During the pendency of the control case, UP and SP shall not, without BNSF's written consent, enter into agreements with other parties which would grant rights to other parties granted to BNSF or inconsistent with those granted to BNSF under this Agreement which would substantially impair the overall economic value of rights to BNSF under this Agreement.

15. **Arbitration**

Except as otherwise provided by any decision of the STB or by separate agreement, unresolved disputes and controversies concerning any of the terms and provisions of this Agreement or the application of charges hereunder shall be submitted for binding arbitration under Commercial Arbitration Rules of the American Arbitration Association which shall be the exclusive remedy of the parties.

16. **Further Assurances**

The parties agree to execute such other and further documents and to undertake such acts as shall be reasonable and necessary to carry out the intent and purposes of this Agreement.

17. **No Third Party Beneficiaries**

This Agreement is intended for the sole benefit of the signatories to this Agreement. Nothing in this Agreement is intended or may be construed to give any person, firm, corporation or other entity, other than the signatories hereto, their permitted successors and permitted assigns, and their affiliates any legal or equitable right, remedy or claim under this Agreement.

## **EXHIBIT B**

### **TERM SHEET FOR UP/SP-BNSF PROPORTIONAL RATE AGREEMENT COVERING I-5 CORRIDOR**

#### **Concept**

BNSF trackage rights in the "I-5" corridor will allow BNSF to handle traffic on a single line basis that currently moves via joint BN-SP routes. This Agreement will enable UPSP to compete with BNSF for that traffic and to make rates, using the proportional rates, to and from all points UP/SP serves in the covered territory described below.

#### **Covered Territory**

Traffic moving between the following areas north of Portland, Oregon and west of Billings and Havre, Montana:

- Canadian interchanges in Vancouver area
- Points north of Seattle and west of Cascades
- Points south of and including Seattle and west of Cascades
- Washington points east of Cascades and west of and including Spokane
- Points east of Spokane and west of Billings and Havre

and points in

- Arizona,
- California,
- Colorado,
- New Mexico,
- Nevada,
- Oregon,
- Utah,
- Texas west of Monahans and Sanderson, and
- connections to Mexico at El Paso and to the west.

#### **Traffic Covered**

Traffic covered will be all commodities (carload, intermodal and bulk) moving both southbound and northbound. All cars loaded or made empty on BNSF lines in the Covered Territory (including reloads) and cars received in interchange.

### **Proportional Rates**

A third party, such as a major accounting firm or other established transportation consultant (the "consultant"), will be employed to compute the proportional rates. The mileage prorate shall be the ratio of (a) BNSF miles between areas north of Portland or interchange north of Portland and SP interchange at Portland to (b) BNSF single-line miles from BNSF origin or interchange to BNSF destination or interchange.

The consultant will develop a table of net ton mile rates (net of refunds, allowances, and rebates). This table will be in matrix form based on commodity, car type, and area north of Portland, Oregon. The rates shown in the matrix will be by commodity at the 3-digit STCC level and by car type for movement between each of the areas north of Portland, Oregon, and the Portland interchange. The net ton mile rates will be based on movements between each of the areas north of Portland and the group of states (including connections to Mexico) listed above. The initial rates will be derived based on the BN-SP portion of BN-SP interline rates (net of refunds, allowances, and rebates) in effect in the quarter preceding acquisition of SP by UP.

The net ton mile rate for each commodity/car type shall be a weighted average of the rates applicable to movements of each such commodity/car type between the points listed above. An example of this computation is attached.

New rates will be derived each subsequent quarter. In subsequent quarters, the rates will include a prorate of both SP-BNSF interline rates (net of refunds, allowances, and rebates) and BNSF single-line rates (net of refunds, allowances, and rebates). At such time as a rate can be developed for a particular commodity/car type on the basis of a BNSF single-line rate then future rate adjustments for such commodity/car type shall be based solely on BNSF single-line rates. All computations of net ton mile rates will be based on rates that actually moved traffic.

UP/SP agree that any rate it publishes will reflect the proportional rate from the latest quarterly study and BNSF's division shall be that amount. Movements using proportional rates shall be interline BNSF-UP/SP movements and will be billed accordingly. Proportional rates used by UP/SP in contracts will be escalated on the same basis as UP/SP's rates are escalated. BNSF and UP/SP will establish procedures to ensure that in settling interline accounts UP/SP's and BNSF's revenue south of Portland is not disclosed to the other.

### **Application**

The net ton mile rates in each cell of the matrix will be applied to the BN mileage and the associated net tons from areas north of Portland to Portland interchange to develop the proportional rate to the Portland interchange.

**Service**

BNSF shall accept, handle, switch and deliver traffic moving under this Agreement without any discrimination in promptness, quality of service, or efficiency in favor of comparable traffic moving in BNSF's account. UP/SP has the right to provide equipment. BNSF will work with UP/SP to establish and provide trackage for strategically located car distribution points in BN territory. To the extent justified by business volumes, BNSF will continue operating Vancouver, BC-Portland (SP interchange) trains comparable to BN Nos. 111 and 112. BNSF will cooperate with UP/SP to establish necessary blocks to provide efficient and competitive service on traffic moving under the proportional rate.

**Third Party Consultant**

The third party consultant shall be jointly employed by UP/SP and BNSF. The parties will share equally in the expense of employing such third party consultant. Both UP/SP and BNSF shall have the right to audit the work of the third party consultant and agree to share in any irregularities found in this work and cooperate to work with the third party consultant to establish procedures to promptly correct those deficiencies. The third party consultant shall be required to remain impartial between UP/SP and BNSF. Any breach of the impartiality requirement shall result in the termination of such third party consultant and the selection of a new consultant by the parties.

**Example of Revenue Per Ton Mile**  
**Calculation by Origin-Destination Cell**  
**Cell Includes Car Type and Commodity**

| <b>Assumption:</b>                                                                | <u><b>Move 1</b></u> | <u><b>Move 2</b></u> |
|-----------------------------------------------------------------------------------|----------------------|----------------------|
| 1. BNSF Revenue Per Car From O/D Areas North of Portland to Destination States    | \$5000               | \$2000               |
| 2. BNSF Miles From O/D Areas North of Portland to Destination States              | 1000                 | 500                  |
| 3. BNSF Net Tons From O/D Areas North of Portland to Destination States           | 100                  | 50                   |
| 4. BNSF Number of Carloads From O/D Areas North of Portland to Destination States | 10                   | 5                    |
| 5. BNSF Miles Between Actual Point of Origin to Interchange and Portland          | 300                  | 200                  |

A. Revenue/NTM Factor (Computed by Consultant for Each Call in Matrix)

$$\frac{\sum (1) \times (4)}{\frac{(2) \times (3)}{\sum (4)}} \text{ (for all moves)}$$

$$\frac{\frac{5000 \times 10}{1000 \times 100} + \frac{2000 \times 5}{500 \times 50}}{10 + 5} = \$0.06/\text{NTM}$$

B. Compute BNSF Division on a Specific Move

$$\begin{aligned} & (A) \times (5) \times (3) \\ & \$0.06 \times 300 \times 100 = \$1800 \\ & \$0.06 \times 200 \times 50 = \$ 600 \end{aligned}$$

## BNSF - UP/SP DISPATCHING PROTOCOLS

As agreed: Dave Clifton - BNSF  
Hank Jay - SP  
Steve Barkley - UP

1. **Scope:** These protocols apply on all rail line segments where Burlington Northern Railroad Company or The Atchison, Topcka & Santa Fe Railway Company (which will be referred to jointly or individually as "BNSF") has trackage rights over tracks of the entity or entities resulting from the merger of the rail affiliates of Union Pacific Corporation and Southern Pacific Rail Corporation (which will be referred to jointly or individually as "UP/SP") and on all rail line segments where UP/SP has trackage rights over tracks of BNSF. All such rail lines will be referred to as "joint trackage and will include all current joint line trackage rights."
2. **Purpose:** To ensure that BNSF and UP/SP trains operating on joint trackage are given equal dispatch without any discrimination in promptness, quality of service or efficiency and that the competitiveness of tenant operations on joint trackage is not adversely affected by the fact that the other railroad owns the track.
3. **General Instructions:** BNSF and UP/SP will issue written instructions to all personnel (including supervisors) responsible for train dispatching on joint trackage that trains of the tenant are to be dispatched exactly as if they were trains of the same class of the owner and given equal treatment with trains of the owner. These instructions will be issued at agreed intervals or at the request of either party.
4. **Monitoring Systems:** At the request and expense of the tenant, the owner will make available computer terminals, facilities or capabilities comparable to those available to its own dispatchers showing joint trackage it dispatches so that the tenant can monitor the handling of its trains by the owner.
5. **Train Information:** The tenant will provide to the owner, and regularly update, information about its expected train operations and schedules (including priorities, time commitments, horsepower per trailing ton, etc.) over joint trackage, preferably using electronic data interchange. Parties will establish run time standards by train category based on expected train volumes for each line segment. If train volumes are different than expected then adjustments to run time standards will be made by mutual agreement. The tenant will provide reliable and current information about trains approaching joint trackage, including train arrival time and train characteristics, preferably by providing at its expense computer terminals, facilities or capabilities showing trains approaching joint trackage, sufficiently in advance to allow dispatchers to plan for them. The owner will provide to the tenant advance notice of planned maintenance-of-way projects, line closures and train or equipment restrictions. BNSF and UP/SP will cooperate to develop a process for discussing maintenance windows in advance and agree upon so as not to adversely affect schedules of one carrier more than the other.

6. **Specific Instructions:** The owner will permit the tenant to transmit instructions regarding the requirements of specific trains and shipments to designated dispatching center employees responsible for handling those trains.
7. **Train Priorities/Run Time Standards:** BNSF and UP/SP will at all times provide to each other current procedures for assigning dispatching priorities or rankings to their trains and information sufficient to show how those procedures are applied to their own trains. The tenant will assign priorities or rankings to its trains operating on joint trackage using the owner's procedures, and the owner will dispatch tenant trains in accordance with those priorities or rankings. It is understood that technological advances in computer aided dispatching might result in changes to priority assignment methodologies. The parties agree to discuss technological changes which might affect priority assignment methodologies prior to implementation. The Joint Service Committee will be responsible for reviewing these assignments to ensure that they are applied equitably by both railroads. It is agreed that a three member panel from each carrier will make up the Joint Service Committee. Suggestions for three member panel are representatives from Joint Facilities, VP Transportation, and Joint Trackage Rights Operations.
8. **Entry to Joint Trackage:** At points where tenant trains enter joint trackage, entry will be provided by the owner on a first-come, first-served basis, taking into consideration the relative priorities of affected trains and the specific needs and operating characteristics of individual trains of both railroads. [If operating circumstances make strict application of this principle difficult or uncertain, BNSF and UP/SP may jointly establish standards for determining sequence of entry to joint trackage.] Parties will communicate daily on any conflicts concerning entry to joint trackage to gain resolution.
9. **Communications:** BNSF and UP/SP will provide to each other, and keep current, lists of dispatching personnel responsible for dispatching each segment of joint trackage and contact numbers. For each segment, BNSF and UP/SP will designate supervisory employees to serve as the day-to-day contacts for communications about operating changes, service requests and concerns. Where feasible and economical, dedicated phone lines or computer links will be established for these communications.
10. **Access to Dispatching Centers:** Appropriate officials of either railroad will be admitted at any time to dispatching facilities and personnel responsible for dispatching joint trackage to review the handling of trains on joint trackage and will be provided an office in the other railroad's dispatching center (although both railroads will take reasonable steps to prevent disclosure of proprietary information not relevant to that review). In order to support BNSF operations over UP/SP trackage rights granted in connection with the UP/SP merger, UP/SP will pay BNSF an amount equal to the reasonable and conventional salary of one supervisory employee to be placed by BNSF at UP/SP's Harriman dispatching center. It is understood that management and supervision of dispatching operations is the responsibility of the owning carrier.

- 3 -

11. **Performance Measurement:** BNSF and UP/SP will cooperate to develop train performance evaluation methods under which train performance of tenant trains on joint trackage segments can be compared to train performance of the owner's trains on the same segments for the same train category and priority.
12. **Personnel Incentives and Evaluation:** In evaluating the performance of employees and supervisors responsible for dispatching joint trackage, both BNSF and UP/SP will consider train performance of tenant trains and effectiveness in cooperating with tenant personnel and meeting tenant service requirements in the same manner as such factors are considered with respect to the owner's trains, personnel and requirements. If bonuses, raises or salaries of those persons are affected by performance of the owner's trains, performance of the tenant's trains shall be considered on the same basis to the extent feasible.
13. **Disagreements:** The designated contact supervisors are expected to raise questions, disagreements, concerns or disputes about compliance with these protocols promptly as and when any such matters arise and to use their best efforts to resolve them. If a matter is not resolved to the satisfaction of both parties, it will be presented to the Joint Service Committee. If a satisfactory resolution cannot be achieved by the Joint Service Committee, the matter will be submitted to binding summary arbitration before a neutral experienced railroad operating official within fourteen days. The parties will agree in advance on the sanctions available to the arbitrator to address failures to comply with these protocols.
14. **Modifications:** As the ultimate objective of these protocols is the equal, flexible and efficient handling of all trains of both railroads on joint trackage, these protocols may be modified at any time by mutual agreement, consistent with that objective.

**EXHIBIT E**

## 2-To-1 Point Identification Protocol

As a condition of the Surface Transportation Board's (STB) approval of the consolidation of Union Pacific Railroad Company (UP) and Southern Pacific Transportation Company (SP), The Burlington Northern and Santa Fe Railway Company (BNSF) was granted the right to serve all shipper facilities, that as of September 25, 1995, were open to both UP and SP, and no other railroad, whether via direct service, reciprocal switching, joint facility or other arrangements. Since the consolidation was consummated, BNSF and UP have been working to identify a complete list of 2-to-1 shipper facilities to which BNSF is entitled to access. The purpose of this protocol is to establish procedures and mechanisms for further identifying 2-to-1 shipper facilities open to BNSF as a result of the conditions imposed in the UP/SP merger. Those procedures and mechanisms are as follows:

1. BNSF shall submit to UP, by written or electronic communication, the name and address of any facility to which access is sought. In addition to the name and address of the facility, BNSF shall furnish any additional information relating to the facility's identity and location that is in BNSF's possession when the request for access is made. BNSF shall also provide any information in its possession at such time pertaining to the rail service options that were available to the facility on or before September 25, 1995. UP will handle for BNSF any traffic en route to the facility pending UP's determination of BNSF's right to access the facility in question. If UP determines that BNSF is not entitled to access a particular facility, BNSF will terminate any BNSF direct routing of traffic to that facility. UP shall be compensated for any traffic en route in accordance with the method of compensation set forth in Paragraph 7, below.

2. UP shall have five (5) business days from the date of such communication to respond by written or electronic communication to any request for access, provided that, if BNSF shall request a determination on more than five shipper facilities on a single day or, if a single request pertains to more than five (5) shipper facilities, BNSF shall identify the five (5) shipper facilities that need immediate attention, and the five (5) business day requirement shall apply to those shipper facilities, with the remaining shipper facilities request or requests to be responded to within ten (10) business days after the date of the request(s).

3. If UP fails to respond to an access request by the close of business of the fifth business day or, in the case of requests for which UP has ten business days to respond, by the close of the tenth business day, BNSF shall be deemed to have access to such facility or facilities as set forth in Paragraph 4 below, and UP shall be deemed to have waived any claims that BNSF is not entitled to serve the facility or facilities.

4. If UP approves BNSF's request for access, BNSF shall immediately be authorized to serve the facility either directly, through reciprocal switching, or, with UP's prior approval, a third party contractor, as provided for in the UP/BNSF Settlement Agreement dated September 25, 1995, as amended. No less than five (5) business days prior to the date that BNSF proposes to begin service to a facility, BNSF shall elect the mode of service that it intends to utilize and shall notify UP in writing or electronically of its election. BNSF shall have the right, upon 180 days prior written notice to UP, to change its election; provided, however, that BNSF shall (i) not change its election more often than once every five years, and (ii) shall reimburse UP for any costs incurred by UP in connection with such changed election. UP may not reverse a prior decision approving

BNSF's request for access to a facility without either BNSF's consent or approval by the STB.

5. If UP declines to approve a BNSF request for access to any facility, and BNSF believes that UP has an insufficient or inappropriate reason to decline access, BNSF may so notify UP, either in writing or by electronic communication, of the reasons why BNSF believes it is entitled to such access, and upon such notice, may seek an order from the STB finding that BNSF was entitled to access to that facility.

6. UP shall approve all such requests where, on the basis of all available information, UP concludes that a particular facility was open to service by both UP and SP, either directly or through reciprocal switching, joint facility or other arrangements and by no other rail carrier, as of September 25, 1995. If UP declines to approve a BNSF request for access to any facility, UP shall provide as part of its notification to BNSF a statement in writing or by electronic communication of its reasons and of the specific evidence supporting its determination that BNSF should not have access to the facility. A statement that UP lacks sufficient information to make a determination as to whether a facility is a 2-to-1 facility is not an adequate reason to deny a BNSF request for access to a facility. At any time after UP's notification, BNSF may request UP to reconsider its decision declining to approve BNSF's request for access.

7. If BNSF transports traffic to or from a shipper facility pursuant to paragraph 1 above and it is later determined that BNSF is not entitled to access to that facility, BNSF shall compensate UP for the movement of such traffic as follows: If a joint through rate is available, then UP is entitled to \$3 per car mile for the loaded move from the applicable junction in the price document. If multiple junctions are available, BNSF

receives its longest haul and UP receives \$3 per car mile beyond that junction. If no joint through rate exists, BNSF receives its longest haul via junctions in existence between UP and BNSF, prior to the date of UP control over SP, September 11, 1996, and UP receives \$3 per car mile beyond. UP must file a claim with BNSF to recover revenues under this section making reference on the claim to this section of the joint 2-to-1 Point Identification Protocol.

8. BNSF and UP shall identify an individual or individuals within their respective organizations as the person or persons to whom all communications pursuant to this protocol shall be directed.

9. The parties agree to submit any disputes under this protocol to the STB for resolution or, with the consent of both parties, to arbitration, as described in the UP/BNSF Settlement Agreement dated September 25, 1995, as amended.

AGREED TO AND ACCEPTED BY:

UNION PACIFIC RAILROAD COMPANY

Date: June 24, 1998

THE BURLINGTON NORTHERN AND  
SANTA FE RAILWAY COMPANY

Date: June 26, 1998

**EXHIBIT F**

## EXHIBIT F

### LIST OF OVERHEAD TRACKAGE RIGHTS

1. Western Trackage Rights
  - A. UP/SP shall grant BNSF Overhead Trackage Rights on SP's Valley Subdivision between MP 141.9 near Binney Junction, CA and Roseville, CA in the vicinity of SP's Valley Subdivision MP 106.6.
2. South Texas Trackage Rights
  - A. UP/SP shall grant BNSF Overhead Trackage Rights on the following lines:
    - a) SP's Port Lavaca Branch, between Placedo, TX in the vicinity of MP 14.2, and a point of build-in along said branch in the vicinity of MP 6.93 at Kamey, TX; and
    - b) UP's line between Round Rock, TX, in the vicinity of UP's Austin Subdivision Milepost 161.79, and McNeil, TX, in the vicinity of UP's Austin Subdivision Milepost 166.1.
3. Eastern Texas – Louisiana Trackage Rights
  - A. UP/SP shall grant BNSF Overhead Trackage Rights on UP's Beaumont Subdivision between MP 458.69 in the vicinity of Beaumont, TX and MP 377.98 (Gulf Coast Junction) in the vicinity of Houston, TX.
4. Additional Rights
  - A. UP/SP shall grant BNSF Overhead Trackage Rights on SP's Martinez Subdivision between approximately MP 2 in the vicinity of Oakland, CA and approximately MP 13 in the vicinity of Richmond, CA.
5. Rights to Omnibus Points
  - A. UP/SP shall grant BNSF Overhead Trackage Rights over UP/SP's Jefferson City Subdivision between MP 34.8 near Pacific, MO and MP 43.8 near Labadie, MO.

**NATURE OF CLAIM**

On November 21, 2023, Union Pacific Railroad Company ("Union Pacific") filed a proceeding before the Surface Transportation Board ("STB"), seeking to reinstitute common carrier service over approximately 1.04 miles of an abandoned rail line in Tooele County, Utah known as the Warner Branch, between Milepost 0.0 and Milepost 1.04.<sup>1</sup> Union Pacific sought to reinstitute service on this line to establish a connection between its Shafter Subdivision and a new railroad line to be constructed by Savage Tooele Railroad Company ("STR"). In a separate proceeding before the STB, STR proposed to construct and operate approximately 11 miles of railroad line that would connect to Union Pacific's Warner Branch at Milepost 1.04. to provide rail service to tenants of the Lakeview Business Park in Grantsville, Utah.<sup>2</sup> To facilitate STR's proposal, Union Pacific agreed to sell STR its right-of-way and track assets between Milepost 1.04 and Milepost 6.94 of the Warner Branch. Union Pacific was unwilling to sell its right-of-way and track assets between Milepost 0.0 and Milepost 1.04 because it utilizes the Warner Branch as ancillary track to support its operations and will continue such use after establishment of the connection with STR.

---

<sup>1</sup> *Union Pacific R.R. Co.—Operation Exemption—in Tooele Cnty., Utah*, No. FD 36741 (the "Union Pacific Proceeding"). A map showing the line segment involved in the Union Pacific Proceeding is attached as **Exhibit 1**.

<sup>2</sup> *Savage Tooele R.R. Co.—Construction & Operation Exemption—Line of R.R. in Tooele Cnty., Utah*, No. FD 36616 (the "STR Proceeding").

On December 11, 2023, BNSF filed a Motion in the Union Pacific Proceeding (the “BNSF Motion”), seeking to institute a proceeding and set a procedural schedule, in part, because it “believes” that it “should have the right to interchange with STR once the new short [] line begins operating.” BNSF suggested in its Motion that this right derives from Section 8(k) of the Restated and Amended Settlement Agreement (“RASA”), an agreement imposed as a condition to the Board’s approval of a merger between Union Pacific and Southern Pacific in 1996.<sup>3</sup>

Section 8(k) of the RASA grants BNSF the right to interchange with “any short-line railroad that constructs a new line to and establishes an interchange on a Trackage Rights Line.” BNSF is not entitled to interchange with STR pursuant to Section 8(k) of the RASA because STR is not constructing a new line to or establishing an interchange on a Trackage Rights Line, as that term is defined in the RASA. While BNSF operates over the Shafter Subdivision, which is a Trackage Rights Line, the new line STR intends to construct will extend to Milepost 1.04 on Union Pacific’s Warner Branch, which is not a Trackage Rights Line. BNSF has no right to interchange with STR using Union Pacific’s Warner Branch under the RASA.

On February 13, 2024, the STB issued a decision in the Union Pacific Proceeding granting Union Pacific authority to reinstitute common carrier service over 1.04 miles of the Warner Branch and denying the BNSF Motion. The STB further concluded that “UP’s effort to seek common carrier operating authority over the Line is separate and distinct from BNSF’s claimed right to access its future shippers via the [Warner Branch] under the terms of the RASA” and denied the BNSF Motion, suggesting that a determination concerning whether BNSF is entitled to access STR via the [Warner Branch] could be made in a “future proceeding . . . through either arbitration or a new, separate Board proceeding.” (*Union Pacific RR Co.—Operation Exemption—in Tooele County, Utah*, FD 36741 (Feb. 13, 2024)). Given this ruling, the dispute between BNSF and Union Pacific concerning BNSF’s right to access STR via the Warner Branch remains unresolved and is ripe for resolution in arbitration.

On April 1, 2024, the STB issued a decision in the STR Proceeding, authorizing STR’s construction and operation of the approximately 11-mile line of railroad connecting to the Warner Branch at milepost 1.04, subject to certain environmental mitigation measures. *Savage Tooele R.R. Co.—Construction & Operation Exemption—Line of R.R. in Tooele Cnty., Utah*, No. FD 36616 (Apr. 1, 2024).

The RASA contains a mandatory arbitration clause, which states that “unresolved disputes and controversies concerning any of the terms and provisions of this Agreement . . . shall be submitted for binding arbitration under the Commercial Arbitration Rules of the American Arbitration Association which shall be the exclusive remedy of the parties. Exhibit 2, RASA §15. In the years following the Union Pacific/Southern Pacific merger, the Board has repeatedly told the parties they should arbitrate disputes involving access to specific facilities. *See Union Pacific/Southern Pacific Merger*, 3 S.T.B. 737, 742 (1998) (“[A]ny further disputes between

---

<sup>3</sup> More specifically, the RASA is a revised version of the Settlement Agreement with BNSF, which the Board imposed as a condition to its approval of the Union Pacific/Southern Pacific merger. The RASA incorporates conditions the Board imposed in approving the merger, as interpreted, clarified, and supplemented in subsequent Board decisions and through agreements between the parties. The RASA is attached hereto as **Exhibit 2**.

Demand for Arbitration

BNSF and UP arising under their settlement agreement should be arbitrated under the provisions of that agreement before bringing the matter to us to resolve.”); *Union Pacific/Southern Pacific Merger*, 4 S.T.B. 303, 306 (1999) (“To the extent that BNSF seeks a ruling as to whether [the] particular facility [at issue] qualifies, however, it must seek arbitration pursuant to its agreement.”). The present dispute concerning BNSF’s right to access STR on the Warner Branch pursuant to Section 8(k) of the RASA constitutes an “unresolved dispute [or] controversy concerning [] the terms and provisions of [the RASA]” and is thus arbitrable pursuant to Section 15 of the RASA.

The question to be submitted for arbitration is as follows:

1. Does BNSF have a right under the RASA to interchange with STR utilizing Union Pacific’s Warner Branch upon STR’s completion of the 11-mile line of railroad connecting to Union Pacific’s Warner Branch at milepost 1.04.

### **RELIEF SOUGHT AND REQUESTED LOCALE**

Union Pacific seeks through this arbitration an order: (i) declaring that BNSF does not have a right under the RASA to interchange with STR utilizing Union Pacific’s Warner Branch; (ii) awarding Union Pacific its attorneys’ fees associated with bringing this arbitration; and (iii) awarding such other further relief as the arbitrator or panel deems equitable and just. Union Pacific requests that arbitration of this dispute occur in Omaha, Nebraska.

Dated: April 15, 2024

Respectfully submitted,

# **RESTATED AND AMENDED AGREEMENT**

This Restated and Amended Agreement ("Agreement") is entered into this \_\_\_\_ day of March, 2002, between UNION PACIFIC RAILROAD COMPANY ("UP"), a Delaware corporation, and THE BURLINGTON NORTHERN AND SANTA FE RAILWAY COMPANY ("BNSF"), a Delaware corporation.

## WITNESSETH:

WHEREAS, UP and BNSF entered into an agreement dated September 25, 1995, as amended by supplemental agreements dated November 18, 1995, and June 27, 1996 (collectively, the "1995 Agreement"), in connection with UP's acquisition of Southern Pacific Rail Corporation and its affiliates ("SP") in Finance Docket No. 32760, Union Pacific Corporation, Union Pacific Railroad Company, and Missouri Pacific Railroad Company -- Control and Merger -- Southern Pacific Rail Corporation, Southern Pacific Transportation Company, St. Louis Southwestern Railway Company, SPCSL Corp., and The Denver and Rio Grande Western Railroad Company;

WHEREAS, the Surface Transportation Board ("STB") approved the common control and merger of UP and SP in Decision No. 44 in Finance Docket No. 32760 (served August 12, 1996) and in so doing imposed certain conditions on UP and SP, including, as modified by the STB, the April 18, 1996 settlement agreement among UP, BNSF and the Chemical Manufacturers Association (the "CMA Agreement");

WHEREAS, as a part of its oversight of the UP/SP merger in Finance Docket Nos. 32760, 32760 (Sub-No. 21), and 32760 (Sub-No. 26), the STB has modified and clarified certain of the conditions it imposed in Decision No. 44;

WHEREAS, UP and BNSF entered into a Term Sheet Agreement dated February 12, 1998 (the "Term Sheet Agreement"), pursuant to which UP and BNSF agreed to the joint ownership of the line of railroad between Dawes, TX and Avondale, LA, which joint ownership was effected by separate agreement dated September 1, 2000 (the "TX-LA Line Sale Agreement");

WHEREAS, UP and BNSF have reached agreement with respect to the implementation of the conditions imposed by the STB on the UP/SP merger, as modified and clarified, and certain other matters relating to their rights and obligations under the 1995 Agreement, the CMA Agreement, the Term Sheet Agreement and the TX-LA Line Sale Agreement; and

WHEREAS, UP and BNSF now wish to amend and restate the 1995 Agreement to incorporate the conditions imposed by the STB on the UP/SP merger (including the CMA Agreement, as modified by the STB) and the agreements they have reached relating to those conditions and other related matters.

NOW, THEREFORE, the parties agree to amend and restate the 1995 Agreement as follows:

#### DEFINITIONS

For purposes of this Agreement, the following definitions and terms shall apply:

Shipper Facilities shall mean all existing or new shipper or receiver facilities, including transload facilities as well as rail car storage and car service and repair facilities not owned, leased or operated by UP.

"2-to-1" Points shall mean all geographic locations at which at least one "2-to-1" Shipper Facility is located. Such points include, without limitation, the points listed in Section 8(i) of and on Exhibit A to this Agreement. The boundaries for such "2-to-1" Points shall be deemed to

include all areas within the switching limits of the locations as described in Section 9(g) of this Agreement.

“2-to-1” Shipper Facilities shall mean all Shipper Facilities that were open to both UP and SP, whether via direct service or via reciprocal switching, joint facility or other arrangements, and no other railroad when the 1995 Agreement was executed, regardless of how long ago the shipper or receiver at that facility may have shipped or received, or whether the shipper or receiver at that facility ever shipped or received, any traffic via either UP or SP. The “2-to-1 Point Identification Protocol” between the parties attached hereto as Exhibit E shall govern the process for identifying “2-to-1” Shipper Facilities open to BNSF as a result of the conditions imposed on the UP/SP merger.

New Shipper Facilities shall mean: (i) existing Shipper Facilities constructing trackage for accessing rail service for the first time; and (ii) newly constructed rail-served Shipper Facilities. New Shipper Facilities shall also mean previously-served Shipper Facilities that begin to ship by rail again where (i) there has been a change of owner or lessee, and (ii) the use of the facility is actually different in nature and purpose from the facility's prior use (e.g., there has been a change in the type of products shipped from or received at the facility). New Shipper Facilities shall not include expansion of or additions to an existing rail-served Shipper Facility, but do include (1) Shipper Facilities which, on September 25, 1995, were being developed or for which land had been acquired for that purpose in contemplation of receiving rail service by both UP and SP, and (2) Transload Facilities located after September 11, 1996, including those owned or operated by BNSF.

Trackage Rights Lines shall mean the lines over which BNSF has been granted trackage rights pursuant to this Agreement, but shall not include any other lines over which UP/SP grants

BNSF trackage rights ("Overhead Trackage Rights") solely (i) to facilitate the parties' operation over Trackage Rights Lines, (ii) to permit BNSF's operation between a mutually-agreed upon BNSF junction point and points listed or described in Section 8(i) of this Agreement, or (iii) to permit BNSF's operation between a mutually-agreed upon BNSF junction point and a build-in/build-out line pursuant to Sections 4(a), 6(c) and 8(l) of this Agreement. The mutually-agreed upon junction point will be selected with the objective of minimizing the operating inconvenience to UP, consistent with ensuring that BNSF can provide competitive service. BNSF acknowledges that it shall not have the right to serve any existing or New Shipper Facility on a line over which BNSF has been granted Overhead Trackage Rights unless such right is specified in this Agreement or in any agreement implementing the Overhead Trackage Rights or unless BNSF has the right to serve a build-in/build-out line on such Overhead Trackage Rights line pursuant to the CMA Agreement or the conditions imposed on the UP/SP merger. All Overhead Trackage Rights Lines, as of the date of the execution hereof, are listed in Exhibit F to this Agreement, which exhibit may be amended and replaced from time to time by a new exhibit signed and dated by the parties. New Shipper Facilities shall be deemed to be "on" a Trackage Rights Line if the facility is either (1) adjacent to a Trackage Rights Line or (2) adjacent to a spur, an industrial track, or a yard that is itself served by such Trackage Rights Line. New Shipper Facilities are not "on" a Trackage Rights Line if they can be accessed only via a 49 U.S.C. 10901 "line of railroad" which is not a Trackage Rights Line.

Transload Facilities shall mean Shipper Facilities other than automotive or intermodal facilities or team tracks where freight is transferred from one railcar to another or from one mode to another (short term incidental storage may also occur) as defined by the STB in its decisions

in Finance Docket No. 32760. An “Existing Transload Facility” is a Transload Facility which was in existence on September 25, 1995.

1. **Western Trackage Rights**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- SP’s line between Denver, CO and Salt Lake City, UT;
- UP’s line between Salt Lake City and Ogden, UT;
- SP’s line between Ogden and Little Mountain, UT;
- UP’s line between Salt Lake City and Alazon, NV;
- UP’s and SP’s lines between Alazon and Weso, NV;
- SP’s line between Weso, and Oakland, CA via SP’s line between Sacramento, CA and Oakland referred to as the “Cal-P” (subject to traffic restrictions as set forth in Section 1(g));
- Overhead Trackage Rights on SP's line between Binney Junction, CA and Roseville, CA in the vicinity of SP MP 106.6;
- SP’s line between Elvas (Elvas Interlocking) and Stockton, CA (subject to traffic restrictions as set forth in Section 1(g) and also excluding any trains moving over the line between Bieber and Keddie, CA purchased by BNSF pursuant to Section 2(a) of this Agreement);
- UP’s line between Weso and Stockton, CA; and
- SP’s line between Oakland and San Jose, CA.

(b) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) “2-to-1” Shipper Facilities and Existing Transload

Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facilities located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facilities located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. BNSF shall also receive the right to interchange with: the BHP Nevada Railroad Company at Shafter, NV; the Utah Railway Company at Utah Railway Junction, UT; Grand Junction, CO; and Provo, UT; the Utah Central Railway Company at Ogden; the Salt Lake, Garfield and Western at Salt Lake City; and the Salt Lake City Southern Railroad Company at Salt Lake City. BNSF shall also receive the right to utilize in common with UP/SP, for normal and customary charges, SP's soda ash Transload Facilities in Ogden and Salt Lake City. BNSF shall also have the right to access any shipper-owned soda ash Transload Facilities in Ogden and Salt Lake City and to establish its own soda ash Transload Facilities along the Trackage Rights Lines. BNSF shall have the same access as UP to all "2-to-1" Shipper Facilities and "2-to-1" Points between Salt Lake City, UT, and SP MP 755.1 north of Woods Cross, UT.

(c) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections,

sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(d) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 1(c) above, of the manner by which it proposes such service be provided and

the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(e) For Reno area intermodal traffic, BNSF may use SP's intermodal ramp at Sparks, NV with UP/SP providing intermodal terminal services to BNSF for normal and customary charges. If expansion of SP's Sparks intermodal facility is required to accommodate the combined needs of UP/SP and BNSF, then the parties shall share in the cost of such expansion on a pro rata basis allocated on the basis of the relative number of lifts for each party in the 12-month period preceding the date construction begins. If for any reason UP/SP vacates its Sparks intermodal facility, BNSF (i) may vacate the facility and independently establish one of its own, or (ii) shall be permitted by UP/SP to continue to occupy the Sparks facility upon entry into an agreement with UP/SP containing normal and customary terms and conditions (including, without limitation, rental) for the use of similar facilities. If UP elects to offer the Sparks intermodal ramp property for sale to a third party and/or receives an offer UP is willing to accept,

UP will offer to sell the property to BNSF on the same terms and conditions as are applicable to the third party. BNSF shall have thirty (30) days in which to advise UP whether or not it will buy the property on those terms. In the event BNSF declines to buy the property on those terms or fails to advise UP of its intentions within thirty (30) days, BNSF's right of first refusal will be extinguished, and UP may sell the property to the third party. BNSF will then be required to vacate the property within six (6) months, and UP's obligation to furnish BNSF with intermodal terminal services and access to a UP intermodal facility in the Sparks/Reno area will be extinguished.

(f) Except as otherwise herein provided, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(g) BNSF may operate only the following trains on SP's "Cal-P" line between Sacramento and Oakland: (i) intermodal and automotive trains composed of over ninety percent (90%) multi-level automobile equipment and/or flat cars carrying trailers and containers in single or double stack configuration and (ii) one overhead through manifest train of carload business per day in each direction. These BNSF manifest trains may be either I-5 Corridor or Central Corridor trains. On the Donner Pass line between Sacramento and Weso, BNSF may operate only intermodal and automotive trains as described in clause (i) and one overhead through manifest train of carload business per day in each direction. The manifest trains must be equipped with adequate motive power to achieve the same horsepower per trailing ton as comparable UP/SP manifest trains. BNSF may use helpers on these trains only if comparable UP/SP manifest trains use helpers; BNSF must provide the helper service. The restrictions set forth in this section do not apply to local trains serving Shipper Facilities to which BNSF has

access on the identified lines, and such trains shall not be considered in determining whether BNSF is in compliance with such restrictions. If UP grants its prior concurrence, BNSF's overhead through manifest trains shall be allowed to set out and pick up traffic to or from intermediate points on the identified lines.

(h) At BNSF's request, UP/SP shall provide train and engine crews and required support personnel and services in accordance with UP/SP's operating practices necessary to handle BNSF trains moving between Salt Lake City and Oakland. UP/SP shall be reimbursed for providing such employees on a cost plus reasonable additives basis and for any incremental cost associated with providing employees such as lodging or crew transportation expense. BNSF must also give UP/SP reasonable advance notice of its need for employees in order to allow UP/SP time to have adequate trained crews available. All UP/SP employees engaged in or connected with the operation of BNSF's trains shall, solely for purposes of standard joint facility liability, be deemed to be "sole employees" of BNSF. If UP/SP adds to its labor force to comply with a request or requests from BNSF to provide employees, then BNSF shall be responsible for any labor protection, guarantees or reserve board payments for such incremental employees resulting from any change in BNSF operations or traffic levels.

(i) UP/SP agree that their affiliate Central California Traction Company shall be managed and operated so as to provide BNSF non-discriminatory access to industries on its line on the same and no less favorable basis as provided UP and SP.

(j) If BNSF desires to operate domestic high cube double stacks over Donner Pass, then BNSF shall be responsible to pay for the cost of achieving required clearances. UP/SP shall pay BNSF one-half of the original cost of any such work funded by BNSF (including per annum interest thereon calculated in accordance with section 9(c)(v) of this Agreement) if UP/SP

subsequently decides to begin moving domestic high cube double stacks over this route. If UP/SP initiates and funds the clearance program, then BNSF shall pay one half of the original cost (including per annum interest thereon calculated in accordance with section 9(c)(v) of this Agreement) at such time as BNSF begins to use the line for domestic high cube double stacks.

(k) BNSF agrees to waive its right under Section 9 of the Agreement dated April 13, 1995, and agreements implementing that agreement to renegotiate certain compensation terms of such agreement in the event of a merger, consolidation or common control of SP by UP. BNSF also agrees to waive any restrictions on assignment in the 1990 BN-SP agreement covering trackage rights between Kansas City and Chicago.

2. **I-5 Corridor**

(a) UP/SP shall sell to BNSF UP's line between Bieber and Keddie, CA. UP/SP shall retain the right to use the portion of this line between MP 0 and MP 2 for the purpose of turning equipment. UP/SP shall pay BNSF a normal and customary trackage rights charge for this right.

(b) BNSF shall grant UP/SP overhead trackage rights on BN's line between Chemult and Bend, OR for rail traffic of all kinds, carload and intermodal, for all commodities.

(c) The parties will, under the procedures established in Section 9(f) of this Agreement, establish a proportional rate agreement incorporating the terms of the "Term Sheet for UP/SP-BNSF Proportional Rate Agreement Covering I-5 Corridor" attached hereto as Exhibit B.

3. **Southern California Access**

(a) UP/SP shall grant access to BNSF to serve all "2-to-1" Shipper Facilities in Southern California at the points listed on Exhibit A to this Agreement.

(b) UP/SP shall grant to BNSF trackage rights on the following lines:

- UP's line between Riverside and Ontario, CA; and

- UP's line between Basta, CA and Fullerton and La Habra, CA.

(c) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement.

(d) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement the use of a third party contractor; PROVIDED, HOWEVER, that it shall be

UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(e) BNSF shall grant UP/SP overhead trackage rights on Santa Fe's line between Barstow (including both legs of the wye) and Mojave, CA.

(f) Except as otherwise provided herein, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(g) UP/SP shall work with BNSF to facilitate access by BNSF to the Ports of Los Angeles and Long Beach, CA. Other than as legally precluded, UP/SP shall (a) extend the term of the present agreement dated November 21, 1981, to continue until completion of Alameda Corridor, (b) amend that agreement to apply to all carload and intermodal traffic, and (c) grant BNSF the right to invoke such agreement to provide loop service utilizing UP's and Santa Fe's

lines to the Ports at BNSF's option to allow for additional operating capacity. UP/SP's commitment is subject to available capacity. Any incremental capacity related projects necessary to accommodate BNSF traffic shall be the sole responsibility of BNSF.

(h) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 3(d) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

4. **South Texas Trackage Rights and Purchase**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- UP's line between Ajax and San Antonio, TX;

- UP's line between Houston (Algoa) and Brownsville, TX (with parity and equal access to the Mexican border crossing at Brownsville);
- UP's line between Odem and Corpus Christi, TX;
- UP's line between Ajax and Sealy, TX;
- SP's line between San Antonio and Eagle Pass, TX (with parity and equal access to the Mexican border crossing at Eagle Pass);
- UP's line between Craig Junction and SP Junction, TX (Tower 112) via Track No. 2 through Fratt, TX;
- SP's line between SP Junction (Tower 112) and Elmendorf, TX;
- SP's line in San Antonio between SP Tower 105 and SP Junction (Tower 112);
- Overhead Trackage Rights on SP's Port Lavaca Branch, between Placedo and Port Lavaca, TX, for the purpose of reaching a point of build-in/build-out to/from Union Carbide Corporation's ("UCC") facility at North Seadrift, TX. UP/SP shall permit BN/Santa Fe or UCC to construct and connect to the Port Lavaca Branch, at their expense, a build-in/build-out line. BN/Santa Fe or UCC shall have the right to purchase for net liquidation value all or any part of the Port Lavaca Branch that UP/SP may abandon;
- UP's line between Kerr (connection to Georgetown RR) and Taylor, TX;
- Overhead Trackage Rights on UP's line between Round Rock and McNeil, TX for the purpose of interchanging with the Capital Metro Transit Authority, its successors or agent;

- UP's line between Temple and Waco, TX;
- UP's line between Temple and Taylor, TX;
- UP's line between Taylor and Smithville, TX; and
- SP's line between El Paso and Sierra Blanca, TX.

(b) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement and City Public Service Board of San Antonio, Texas Elmendorf facilities listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. BNSF shall also have the right to interchange with: the Texas Mexican Railway Company at Corpus Christi and Robstown, TX; the Georgetown Railroad at Kerr; Transportacion Ferroviaria Mexicana ("TFM") at Brownsville (Matamoros, Mexico); Ferrocarril Mexicano ("FXE") at Eagle Pass; and the operator of SP's former line between Giddings and Llano at McNeil, TX. BNSF's access and interchange rights at Corpus Christi and Brownsville shall be at least as favorable as SP had on September 25, 1995. BNSF shall have direct access to the Port of Brownsville, the Brownsville and Rio Grande International Railroad, and the TFM. UP will designate a yard in Brownsville for sale to BNSF at such time as BNSF establishes its own trackage rights operations into Brownsville and at such time as the connection between UP and SP as a part of the Brownsville

relocation project is completed. In the event UP/SP determines to cease operations in the SP East Yard at San Antonio, TX, UP/SP will give first consideration to BNSF for taking over operation of the East Yard pursuant to a mutually-agreeable arrangement.

(c) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and

auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(d) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 4(c) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(e) Except as otherwise provided herein, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(f) In lieu of BNSF's conducting actual trackage rights operations between Houston, Corpus Christi, Harlingen and Brownsville, TX (including TFM interchange), UP/SP agrees, upon request by BNSF, to handle BNSF's business on a haulage basis for the fee called for by Section 8(m) of this Agreement. UP/SP shall accept, handle, switch and deliver traffic moving under haulage without any discrimination in promptness, quality of service, or efficiency in favor of comparable traffic moving in UP/SP's account.

(g) UP/SP shall sell to BNSF UP's line between Dallas and Waxahachie, TX with UP retaining trackage rights to exclusively serve local industries on the Dallas-Waxahachie line.

(h) Upon the effectiveness of the trackage rights to Eagle Pass under this section, BNSF's right to obtain haulage services from UP/SP to and from Eagle Pass pursuant to the agreement between BNSF and SP dated April 13, 1995 and subsequent haulage agreement between those parties shall no longer apply, provided BNSF shall continue to have the right to use trackage at or near Eagle Pass as specified in that agreement for use in connection with trackage rights under this Agreement.

5. **Eastern Texas - Louisiana Trackage Rights and Purchase**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- SP's line between Houston and Iowa Junction in Louisiana, which trackage rights have been amended by the Term Sheet Agreement and the TX-LA Line Sale Agreement implementing UP's and BNSF's joint ownership of SP's line between Dawes, TX and Avondale, LA;

- SP's line between Beaumont and Port Arthur, TX;
- SP's line between Dayton and Baytown and East Baytown, TX;
- SP's Channelview Spur which connects to the SP's line between Houston and Iowa Junction near Sheldon, TX for the purpose, inter alia, of reaching a point of build-in/build-out to/from the facilities of Lyondell Petrochemical Company and Arco Chemical Company at Channelview, TX. UP/SP shall permit BN/Santa Fe or one or both shippers to construct and connect to SP's Channelview Spur, at their expense, a build-in/build-out line. BN/Santa Fe or the shippers shall have the right to purchase for net liquidation value all or any part of the Channelview Spur that UP/SP may abandon;
- SP's line between Mallard Junction and Harbor, LA;
- SP's line near Avondale (SP MP 14.94 and West Bridge Junction (SP MP 9.97);
- UP's Main Line No. 1 from UP MP 14.29 to MP 14.11 including crossover to SP's main line and UP's MP 10.38 to MP 10.2; and
- UP's line between West Bridge Junction (UP MP 10.2) and UP's Westwego, LA intermodal facility (approximately UP MP 9.2).

(b) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement,

and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. BNSF shall also have the right to handle traffic of shippers open to all of UP, SP and KCS at Lake Charles, Rose Bluff and West Lake, LA, and traffic of shippers open to SP and KCS at West Lake Charles. BNSF shall also have the right to interchange with: the Acadiana Railway Company at Crowley, LA; and the Louisiana & Delta Railroad, Inc. at Lafayette, Raceland and Schreiver, LA. BNSF shall also have the right to interchange with and have access over the New Orleans Public Belt Railroad at West Bridge Junction, LA.

(c) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be

UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(d) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii) any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 5(c) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish

for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(e) UP/SP shall grant BNSF the right to use SP's Bridge 5A at Houston, Texas.

(f) Except as otherwise provided herein, trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(g) UP/SP shall sell to BNSF UP's Main Line No. 1 between MP 14.11 and 10.38, UP's Westwego intermodal terminal, SP's old Avondale Yard (together with the fueling and mechanical facilities located thereon) as shown on Exhibit C; and SP's Lafayette Yard.

6. **Houston, TX-Valley Junction, IL Trackage Rights**

(a) UP/SP shall grant to BNSF trackage rights on the following lines:

- SP's line between Houston, TX and Fair Oaks, AR via Cleveland and Pine Bluff, AR;
- UP's line between Fair Oaks and Bridge Junction, AR;
- SP's line between Brinkley and Briark, AR;
- UP's line between Pine Bluff and North Little Rock, AR
- UP's line between Houston and Valley Junction, IL via Palestine, TX;
- SP's line between Fair Oaks and Illmo, MO via Jonesboro, AR and Dexter Junction, MO; and

- UP's line between Fair Oaks and Bald Knob, AR.

(b) In lieu of conducting actual operations between Pine Bluff and North Little Rock, AR, UP/SP agrees, upon request of BNSF, to handle BNSF's business on a haulage basis for the fee called for by Section 8(m) of this Agreement.

(c) BNSF shall have the right to transport unit coal trains (i) over the Trackage Rights Lines to and from a point of build-in/build-out to and from Entergy Services, Inc.'s plant at White Bluff, AR if and when such a build-in/build-out line is constructed by an entity other than UP/SP to connect such plant with an SP line, and (ii) to and from Entergy Services, Inc.'s plant at White Bluff (1) by entering and exiting the Trackage Rights Lines at Jonesboro and Hoxie, AR, respectively, and/or (2) by utilization of BNSF's line via Memphis, TN.

(d) The trackage rights granted under this section shall be bridge rights for the movement of overhead traffic only, except for the local access specified herein. BNSF shall receive access on such lines only to (i) "2-to-1" Shipper Facilities and Existing Transload Facilities at points listed on Exhibit A to this Agreement, (ii) any New Shipper Facility located subsequent to UP's acquisition of control of SP at points listed on Exhibit A to this Agreement, and (iii) any New Shipper Facility located subsequent to UP's acquisition of control of SP on the Trackage Rights Lines. BNSF shall also have the right to establish and exclusively serve intermodal and auto facilities at points listed on Exhibit A to this Agreement and at points identified or described in Section 8(i) of this Agreement. In addition to the other restrictions and limitations set forth herein, as to UP's and SP's lines between Memphis and Valley Junction, IL: (1) BNSF shall not have the right to enter or exit at intermediate points north of Bald Knob and Fair Oaks, AR; and (2) BNSF traffic is limited to traffic that moves through, originates in, or terminates in Texas or Louisiana. These two restrictions do not apply to traffic moving to or

from Shipper Facilities in the Houston-Memphis-St. Louis Corridor to which BNSF has access pursuant to this Section 6(d) or Section 8(i) below. The two restrictions also do not apply to the traffic that BNSF is permitted to handle pursuant to the remaining provisions of this Section 6(d), which remains subject to all other conditions and restrictions. BNSF shall also have the right to handle traffic of shippers open to all of UP, SP and KCS at Texarkana, TX/AR, and Shreveport, LA, to and from the Memphis BEA (BEA 73), but not including proportional, combination or Rule 11 rates via Memphis or other points in the Memphis BEA. In the Houston-Memphis-St. Louis corridor, BNSF shall have the right to move some or all of its traffic via trackage rights over either the UP line or the SP line, at its discretion, for operating convenience. BNSF shall also have the right to interchange: with the Little Rock and Western Railway at Little Rock, AR; the Little Rock Port Authority at Little Rock, AR; KCS at Shreveport, LA and Texarkana, TX/AR, for movements of traffic originated by KCS at or delivered by KCS to shippers or receivers at Lake Charles, West Lake, or West Lake Charles, LA; with KCS (y) at Shreveport, LA for movements of loaded and empty coal trains moving to and from Texas Utilities Electric Company's Martin Lake generating station, and (z) at Texarkana, TX/AR for movements of empty coal trains returning from Texas Utilities Electric Company's Martin Lake generating station; and with the Texas Northeastern Railroad at Texarkana, TX for the sole purpose of moving BNSF traffic to and from Shipper Facilities at Defense, TX.

(e) Access to Shipper Facilities at points listed on Exhibit A to this Agreement open to BNSF shall be direct or through reciprocal switch, or, with UP/SP's prior agreement, through a third party contractor. Access to New Shipper Facilities open to BNSF on the Trackage Rights Lines shall be (i) direct; (ii) with UP/SP's prior agreement, through haulage for the shortest period of time necessary to allow BNSF to establish its own direct operating access after

initiating service to a New Shipper Facility, but not to exceed the later to occur of 90 days or the date upon which UP completes the construction of and accepts for service any connections, sidings or other support facilities to be paid for by BNSF that UP is then obligated to construct pursuant to this Agreement or the trackage rights agreements executed pursuant to Section 9(f) of this Agreement; (iii) with UP/SP's prior agreement, reciprocal switching where, at the time BNSF service is to commence, UP/SP already provides reciprocal switching on the portion of the Trackage Rights Line upon which the turnout to the facility is to be located; or (iv) with UP/SP's prior agreement, the use of a third party contractor; PROVIDED, HOWEVER, that it shall be UP/SP's sole decision whether BNSF's service will be provided by either haulage or reciprocal switching; and PROVIDED, FURTHER, that in no case shall UP/SP be required to initiate any new local service or increase its level of service to accommodate the level of service proposed by BNSF. New Shipper Facilities open to BNSF under this Agreement shall be open to both UP/SP and BNSF, subject to the terms of Section 9(c)(v) of this Agreement. The geographic limits within which (x) New Shipper Facilities shall be open to BNSF service at points listed on Exhibit A to this Agreement and (y) BNSF shall have the right to establish and exclusively serve intermodal and auto facilities at points listed in Section 8(i) of and on Exhibit A to this Agreement shall generally correspond to the territory within which, prior to the merger of UP and SP, a new shipper or receiver could have constructed a facility that would have been open to service by both UP and SP either directly or through reciprocal switch. Where switching districts have been established, such districts (as described in Section 9(g)) shall be presumed to establish these geographic limitations.

(f) At least forty-five (45) days before initiating service to (i) a Shipper Facility open to BNSF at a point listed or described on Exhibit A to or in Section 8(i) of this Agreement, or (ii)

any New Shipper Facility on a Trackage Rights Line, BNSF shall notify UP of its election, subject to Section 6(e) above, of the manner by which it proposes such service be provided and the specifics of its operating plan over UP/SP trackage. Within thirty (30) days of its receipt of BNSF's proposed operating plan, UP shall notify BNSF of its approval or disapproval of BNSF's plan. UP's approval of such plan shall not be unreasonably withheld. In the event UP disapproves of BNSF's proposed plan, UP shall provide an explanation in writing to BNSF of its reasons for disapproval, and UP shall propose an alternative operating plan that would be acceptable to UP and also be no more onerous than the operating plan that UP would establish for service provided by UP. If UP approves BNSF's plan but establishes conditions on that approval, those conditions shall be set forth in writing and shall be no more onerous than UP would establish for service provided by UP. BNSF shall have the right, upon one hundred eighty (180) days' prior written notice to UP/SP, to change its election; PROVIDED, HOWEVER, that BNSF shall not change any such election more often than once every five (5) years. BNSF shall reimburse UP/SP for any costs incurred by UP/SP in connection with any changed election.

(g) Except as otherwise provided herein, the trackage rights and access rights granted pursuant to this section shall be for rail traffic of all kinds, carload and intermodal, for all commodities.

(h) BNSF shall grant to UP/SP overhead trackage rights on BN's line between West Memphis and Presley Junction, AK. UP/SP shall be responsible for upgrading this line as necessary for its use. If BNSF uses this line for overhead purposes to connect its line to the trackage rights lines, BNSF shall share in one-half of the upgrading cost.

**7. St. Louis Area Coordinations**

(a) UP/SP agree to cooperate with BNSF to facilitate efficient access by BNSF to other carriers at and through St. Louis via The Alton & Southern Railway Company ("A&S"). If

BNSF requests, UP/SP agree to construct or cause to be constructed for the use of both BNSF and UP/SP a faster connection between the BN and UP lines at Grand Avenue in St. Louis, MO and a third track from Grand Avenue to near Gratiot Street Tower at the sole cost and expense of BNSF. Upon completion of such construction, UP/SP shall grant to BNSF overhead trackage rights on UP's line between Grand Avenue and Gratiot Street.

(b) UP wishes to secure dispatching authority for the MacArthur Bridge across the Mississippi River at St. Louis. Dispatching is currently controlled by the Terminal Railroad Association of St. Louis ("TRRA"). BNSF agrees that it will cause its interest on the TRRA Board or any shares it owns in the TRRA to be voted in favor of transferring dispatching control of the MacArthur Bridge to UP if such matter is presented to the TRRA Board or its shareholders for action. Such dispatching shall be performed in a manner to ensure that all users are treated equally.

(c) If BNSF desires to use the A&S Gateway Yard, upon transfer of MacArthur Bridge dispatching to UP, UP/SP shall assure that charges assessed by the A&S to BNSF for use of Gateway Yard are equivalent to those assessed other non-owners of A&S.

(d) UP/SP and BNSF agree to provide each other reciprocal detour rights between Bridge Junction-West Memphis and St. Louis in the event of flooding, subject to the availability of sufficient capacity to accommodate the detour.

(e) UP/SP shall provide BNSF Overhead Trackage Rights over UP/SP's Jefferson City Subdivision between MP 34.8 near Pacific, MO and MP 43.8 near Labadie, MO for the purpose of accessing Ameren UE's facility at Labadie. BNSF shall have the right to serve all "2-to-1" Shipper Facilities, New Shipper Facilities and Existing Transload Facilities at Labadie.

**8. Additional Rights**

(a) UP/SP shall grant BNSF overhead trackage rights on SP's line between Richmond and Oakland, CA for rail traffic of all kinds, carload and intermodal, for all commodities to enable BNSF to connect via SP's line with the Oakland Terminal Railroad ("OTR") and to access the Oakland Joint Intermodal Terminal ("JIT"), or similar public intermodal facility, at such time as the JIT is built. BNSF shall pay 50% of the cost (up to \$2,000,000 maximum) for upgrading to mainline standards and reverse signaling of SP's No. 1 track between Emeryville (MP 8) and Stege, CA (MP 13.1). Compensation for these trackage rights shall be at the rate of 3.48 mills per ton mile for business moving in the "I-5 Corridor," 3.1 mills per ton mile on all other carload and intermodal business, and 3.0 mills per ton mile for bulk business (as defined in Section 9(a) of this Agreement) escalated in accordance with the provisions of Section 12 of this Agreement. UP/SP shall assess no additional charges against BNSF for access to the JIT and the OTR.

(b) BNSF shall waive any payment by UP/SP of the Seattle Terminal 5 access charge.

(c) BNSF shall grant to UP overhead trackage rights on BN's line between Saunders, WI and access to the MERC dock in Superior, WI.

(d) BNSF shall grant UP the right to use the Pokegama connection at Saunders, WI (i.e., the southwest quadrant connection at Saunders including the track between BN MP 10.43 and MP 11.14).

(e) BNSF shall waive SP's requirement to pay any portion of the Tehachapi tunnels clearance improvements pursuant to the 1993 Agreement between Santa Fe and SP.

(f) BNSF shall allow UP to exercise its rights to use the Hyundai lead at Portland Terminal 6 without any contribution to the cost of constructing such lead.

(g) BNSF shall allow UP/SP to enter or exit SP's Chicago-Kansas City-Hutchinson trackage rights at Buda, Earlville, and west of Edelstein, IL. UP/SP shall be responsible for the cost of any connections required.

(h) BNSF will amend the agreement dated April 13, 1995, between BNSF and SP to allow UP/SP to enter and exit Santa Fe's line solely for the purposes of permitting UP/SP or its agent to pick up and set out interchange business, including reciprocal switch business at Newton, KS, and switching UP industries at that point.

(i) It is the intent of the parties that this Agreement result in the preservation of competition by two rail carriers for (a) all "2-to-1" Shipper Facilities at points listed on Exhibit A to this Agreement and (b) all other shippers who had direct competition or competition by means of siting, transload or build-in/build-out from only UP and SP pre-merger.

The parties recognize that some "2-to-1" Shipper Facilities, Existing Transload Facilities, and New Shipper Facilities at "2-to-1" Points will not be able to avail themselves of BNSF service by virtue of the trackage rights and line sales contemplated by this Agreement. For example, "2-to-1" Shipper Facilities, Existing Transload Facilities, and New Shipper Facilities located at points between Niles Junction and the end of the joint track near Midway (including Livermore, CA, Pleasanton, CA, Radum, CA, and Trevarno, CA), Lyoth, CA, Lathrop, CA, Turlock, CA, South Gate, CA, Tyler, TX, Defense, TX, College Station, TX, Great Southwest, TX, Victoria, TX, Sugar Land, TX, points on the former Galveston, Houston & Henderson Railroad served only by UP and SP, Opelousas, LA and Herington, KS are not accessible under the trackage rights and line sales covered by this Agreement. Accordingly, UP/SP and BNSF agree to enter into arrangements under which, through trackage rights, haulage, ratemaking authority or other mutually acceptable means, BNSF will be able to provide competitive service

to “2-to-1” Shipper Facilities, Existing Transload Facilities, and New Shipper Facilities at the foregoing points and at other “2-to-1” Points not along a Trackage Rights Line.

(j) BNSF shall have the right to interchange with any short-line railroad which, prior to the Effective Date of this Agreement, could interchange with both UP and SP and no other railroad.

(k) BNSF shall also have the right to interchange with any short-line railroad that constructs a new line to and establishes an interchange on a Trackage Rights Line subsequent to UP's acquisition of control of SP; PROVIDED, HOWEVER, that the short-line railroad must be a Class II or Class III railroad neither owned nor operated by BNSF or any BNSF affiliate. In addition, the new rail line must be either (i) an extension of an existing Class II or Class III carrier that does not connect with UP or (ii) a new Class II or Class III carrier. BNSF shall not be entitled to interchange traffic with a Class II or Class III carrier at such a new interchange on a Trackage Rights Line if the traffic originates or terminates at a Shipper Facility that is now served solely by UP unless the Shipper Facility qualifies as a New Shipper Facility or unless the new line qualifies as a build-in or build-out under this Agreement.

(l) In addition to the right to serve build-in/build-out lines specified in Sections 4(a), 5(a) and 6(c) of this Agreement, BNSF shall have the right to serve a new build-in/build-out line constructed to reach a facility that was, prior to September 11, 1996, solely served by either UP or SP and would be open to two railroad service upon construction of the build-in/build-out line (i) to a point on lines owned by SP on September 11, 1996, in the case of facilities solely served by UP, or (ii) to a point on lines owned by UP on September 11, 1996, in the case of facilities solely served by SP. UP shall grant BNSF Overhead Trackage Rights necessary for BNSF to reach the build-in/build-out line. The routing of such trackage rights shall seek to minimize the

operating inconvenience to UP, consistent with ensuring that BNSF can provide competitive service.

(m) Where this Agreement authorizes BNSF to utilize haulage to provide service, the fee for such haulage shall be \$.50 per car mile plus a handling charge to cover handling at the haulage junction with BNSF and to or from a connecting railroad or third party contract switcher. The handling charge shall be \$50 per loaded or empty car for intermodal and carload and \$25 per loaded or empty car for unit trains with unit train defined as 67 cars or more of one commodity in one car type moving to a single destination and consignee. UP/SP shall bill BNSF the \$50 per car handling charge for all cars and, upon receipt of appropriate documentation from BNSF demonstrating that business assessed the \$50 per car handling fee was a unit train, adjust prior billings by \$25 per car for each car BNSF demonstrates to have been eligible for the \$25 per car handling charge for unit trains. Where UP/SP is providing reciprocal switching services to BNSF at “2-to-1” Shipper Facilities as provided for in Section 9(i) of this Agreement, the per car handling charge shall not be assessed at the point where such reciprocal switch charge is assessed. The haulage fee and handling charge set forth above as of September 25, 1995, shall be adjusted upwards or downwards in accordance with Section 12 of this Agreement.

(n) In the event, for any reason, any of the trackage rights granted under this Agreement cannot be implemented because of the lack of sufficient legal authority to carry out such grant, then UP/SP shall be obligated to provide an alternative route or routes, or means of access of commercially equivalent utility at the same level of cost to BNSF as would have been provided by the originally contemplated rights.

(o) In the event UP determines to terminate or not renew a lease to an Existing Transload Facility to which BNSF gained access as a result of this Agreement or the conditions

imposed on the UP/SP merger and BNSF has previously entered into a contract to provide transportation services to the Existing Transload Facility, UP shall extend the lease for the remaining period of such transportation contract or for a period not to exceed 24 months, whichever period is shorter.

9. **Trackage Rights - General Provisions**

(a) The compensation for operations under this Agreement shall be set at the levels shown in the following table as subsequently indexed under the 1995 Agreement:

| <b>Table I</b><br><b>Trackage Rights Compensation</b><br><b>(mills per ton-mile)</b> |                          |                 |
|--------------------------------------------------------------------------------------|--------------------------|-----------------|
|                                                                                      | Keddie-Stockton/Richmond | All Other Lines |
| Intermodal and Carload                                                               | 3.48                     | 3.1             |
| Bulk (67 cars or more of<br>one commodity in one<br>car type)                        | 3.0                      | 3.0             |

These rates shall apply to all equipment moving in a train consist including locomotives. The rates shall be escalated in accordance with the procedures described in Section 12 of this Agreement. The owning line shall be responsible for maintenance of its line in the ordinary course including rail relay and tie replacement. The compensation for such maintenance shall be included in the mills per ton mile rates received by such owning line under this Agreement.

(b) BNSF and UP/SP will conduct a joint inspection to determine necessary connections and sidings or siding extensions associated with connections, necessary to implement the trackage rights granted under this Agreement. The cost of such facilities shall be borne by the party receiving the trackage rights which such facilities are required to implement. Either party shall have the right to cause the other party to construct such facilities. If the owning carrier decides to utilize such facilities constructed by it for the other party, it shall have

the right to do so upon payment to the other party of one-half (½) the original cost of constructing such facilities.

(c) Capital expenditures on the Trackage Rights Lines and on lines over which BNSF is granted Overhead Trackage Rights will be handled as follows:

- (i) UP/SP shall bear the cost of all capacity improvements that are necessary to achieve the benefits of its merger as outlined in the application filed with the ICC for authority for UP to control SP. The operating plan filed by UP/SP in support of the application shall be given presumptive weight in determining what capacity improvements are necessary to achieve these benefits.
- (ii) Any capacity improvements other than those covered by subparagraph (i) above shall be shared by the parties based upon their respective usage of the line in question, except as otherwise provided in subparagraph (iii) below. That respective usage shall be determined by the 12 month period prior to the making of the improvement on a gross ton mile basis.
- (iii) For 18 months following UP's acquisition of control of SP, BNSF shall not be required to share in the cost of any capital improvements under the provision of subparagraph (ii) above.
- (iv) BNSF and UP/SP agree that a capital reserve fund of \$25 million, funded out of the purchase price listed in Section 10 of this Agreement, shall be established. This capital reserve fund shall, with BNSF's prior consent which will not unreasonably be withheld, be drawn down to pay for capital projects on the Trackage Rights Lines that are required to

accommodate the operations of both UP/SP and BNSF on those lines, but in any event shall not be used for expenditures covered by subparagraph (i) above. Any disputes over whether a project is required to accommodate the operation of both parties shall be referred to binding arbitration under Section 15 of this Agreement.

- (v) If both UP/SP and BNSF intend to serve New Shipper Facilities located subsequent to UP's acquisition of control of SP as authorized by Sections 1(b), 3(c), 4(b), 5(b), 6(d), and 8(i) of this Agreement, they shall share equally in any capital investment in such connections and sidings and siding extensions or other support facilities required by both UP and BNSF to provide rail service to such New Shipper Facility. If only one railroad initially provides such service, the other railroad may elect to provide service at a later date, but only after paying to the railroad initially providing such service 50% of any capital investment (including per annum interest thereon) made by the railroad initially providing rail service to the New Shipper Facility. Per annum interest shall be at a rate equal to the average paid on 90-day Treasury Bills of the United States Government as of the date of completion until the date of use by the other railroad commences. Per annum interest shall be adjusted annually on the first day of the twelfth (12th) month following the date of completion and every year thereafter on such date, based on the percentage increase or decrease, in the average yield of 30-year U.S. Treasury Notes for the prior year compared to their average yield in first year of completion of the

access to such industry or industries. Each annual adjustment shall be subject, however, to a “cap” (up or down) of two percentage points more or less than the prior year’s interest rate.

(d) Subject to the terms of the Dispatching Protocols attached hereto as Exhibit D and incorporated herein, the management and operation of the lines over which the parties have granted trackage rights to each other pursuant to this Agreement (“Joint Trackage”) shall be under the exclusive direction and control of the owning carrier, and the owning carrier shall have the otherwise unrestricted power to change the management and operations on and over Joint Trackage as in its judgment may be necessary, expedient or proper for the operations thereof intended. Trains of the parties utilizing Joint Trackage shall be given equal dispatch without any discrimination in promptness, quality of service, or efficiency in favor of comparable traffic of the owning carrier. Trains operating in the Houston terminal shall be routed over the most efficient routes as necessary to avoid delays and congestion, even routes over trackage over which the operating carrier has no operating rights.

The owning carrier shall keep and maintain the Joint Trackage at no less than the track standard designated in the current timetable for the applicable lines subject to the separate trackage rights agreement. The parties agree to establish a joint service committee to regularly review operations over the Joint Trackage lines.

In the event the owning carrier determines to sell or remove from service a Joint Trackage line and/or any associated facilities, the owning carrier shall provide the other carrier with reasonable written notice of such determination. Any such sale to a third party shall be expressly made subject to the terms and conditions of this Agreement, and the owning carrier

shall remain responsible as to the obligations imposed on it herein in the event the third party purchaser does not fulfill those obligations.

(e) Each party shall be responsible for any and all costs relating to providing employee protection benefits, if any, to its employees prescribed by law, governmental authority or employee protective agreements where such costs and expenses are attributable to or arise by reason of that party's operation of trains over Joint Trackage. To the extent that it does not violate existing agreements, for a period of three years following acquisition of control of SP by UP, BNSF and UP/SP shall give preference to each other's employees when hiring employees needed to carry out trackage rights operations or operate lines being purchased. The parties shall provide each other with lists of available employees by craft or class to whom such preference shall be granted. Nothing in this Section 9(e) is intended to create an obligation to hire any specific employee.

(f) The trackage rights grants described in this Agreement and the purchase and sale of line segments shall be included in separate trackage rights and line sale agreement documents respectively of the kind and containing such provisions as are normally and customarily utilized by the parties, including exhibits depicting specific rail line segments, and other provisions dealing with maintenance, improvements, and liability, subject to more specific provisions described for each grant and sale contained in this Agreement and the general provisions described in this section. BNSF and UP/SP shall elect which of their constituent railroads shall be a party to each such trackage rights agreement and line sale and shall have the right to assign the agreement among their constituent railroads. The parties shall use their best efforts to complete such agreements by June 1, 1996. If agreement is not reached by June 1, 1996 either party may request that any outstanding matters be resolved by binding arbitration with the

arbitration proceeding to be completed within sixty (60) days of its institution. In the event such agreements are not completed by the date the grants of such trackage rights are to be effective, it is intended that operations under such grants shall be commenced and governed by this Agreement.

(g) All locations referenced herein shall be deemed to include all areas within the switching limits of the location designated by tariff, clarified to the extent necessary by publicly-available information, in effect as of September 25, 1995, and access to such locations shall include the right to locate and serve new auto and intermodal facilities at such locations.

(h) The tenant carrier on the Joint Trackage shall have the right to construct, or have constructed for it, for its sole use exclusively owned or leased facilities, including, without limitation, automobile and intermodal facilities, storage in transit facilities, team tracks and yards along the Joint Trackage pursuant to the following terms and conditions:

- (i) The party wishing to construct such exclusively owned facilities for its sole use shall submit its plans to the other party for its review and approval, which approval shall not be unreasonably withheld or delayed;
- (ii) In the case of the construction of team tracks and ancillary facilities, including loading facilities and necessary track connections, the parties shall work cooperatively with each other to enable such construction;
- (iii) Such exclusively owned or leased and used facilities shall not (i) impair the other party's use of the Joint Trackage, (ii) prevent or unduly hinder the other party's access to existing or future customers or facilities served from the Joint Trackage, or (iii) impair access to other exclusively owned facilities then in existence; and

(iv) If jointly owned or leased and used property is to be used for the construction of such exclusively owned or leased and used facilities, the party so constructing such exclusively owned or leased and used facilities shall reimburse the other party for its ownership of the jointly owned property so utilized at 50% of its then current fair market value. If the tenant carrier uses property of the owning carrier for the construction of exclusively owned or leased and used facilities, the tenant carrier shall reimburse the owning carrier for its ownership of the property at 100% of its then current fair market value.

(i) Where UP/SP provides reciprocal switching services to BNSF under this Agreement, UP/SP will do so at a rate of no more than \$130 per car as of September 25, 1995, adjusted pursuant to Section 12 of this Agreement, and all such reciprocal switching services shall be provided on an impartial basis. In the event BNSF's access to a Shipper Facility pursuant to this Agreement is effected by means of a third party contractor, (i) any associated third party switch fee shall be paid by UP/SP, (ii) BNSF shall pay to UP/SP the applicable reciprocal switch fee established between the parties to this Agreement, and (iii) BNSF shall neither be entitled to become an assignee of UP/SP nor become eligible to enter into a separate agreement with the shipper so served.

(j) It is the intent of the parties that BNSF shall, where sufficient volume exists, be able to utilize its own terminal facilities for traffic handled by BNSF under the terms of this Agreement. These locations include Salt Lake City, Ogden, Brownsville and San Antonio, and other locations where such volume develops. Facilities or portions thereof presently utilized by UP or SP at such locations shall be acquired from UP/SP by lease or purchase at normal and

customary charges. Upon request of BNSF and subject to availability and capacity, UP/SP shall provide BNSF with terminal support services including fueling, running repairs and switching. UP/SP shall also provide intermodal terminal services at Salt Lake City, Reno, and San Antonio. UP/SP shall be reimbursed for such services at UP's normal and customary charges. Where terminal support services are not required, BNSF shall not be assessed additional charges for train movements through a terminal. BNSF shall also have equal access, along with UP/SP, to all SP Gulf Coast storage in transit facilities ("SIT") (i.e., those SP facilities at Dayton, East Baytown, and Beaumont, TX), on economic terms no less favorable than the terms of UP/SP's access, for storage in transit of traffic handled by BNSF under the terms of this Agreement, including, but not limited to, traffic to or from Shipper Facilities to which BNSF gained access under the terms of this Agreement. UP/SP agree to work with BNSF to locate additional SIT facilities on the Trackage Rights Lines and on lines over which BNSF is granted Overhead Trackage Rights to serve a build-in/build-out line as necessary.

(k) BNSF may, subject to UP/SP's consent, use agents for limited feeder service on the Trackage Rights Lines and on lines over which BNSF is granted Overhead Trackage Rights to serve a build-in/build-out line.

(l) BNSF shall have the right to inspect the UP and SP lines over which it obtains trackage rights under this Agreement and require UP/SP to make such improvements under this section as BNSF deems necessary to facilitate its operations at BNSF's sole expense. Any such inspection must be completed and improvements identified to UP/SP within one year of the effectiveness of the trackage rights.

(m) BNSF shall have the right to connect, for movement in all directions, with its present lines (including existing trackage rights) at points where its present lines (including

existing trackage rights) intersect with Trackage Rights Lines or lines it will purchase pursuant to this Agreement. UP/SP shall have the right to connect, for movement in all directions, with its present lines (including existing trackage rights) at points where its present lines (including existing trackage rights) intersect with lines over which it will receive trackage rights pursuant to this Agreement. BNSF shall also have the right, at the option of the City Public Service Board of San Antonio, TX, to connect for movement to and from Elmendorf, TX, where BNSF's trackage rights granted pursuant to this Agreement intersect at SP Junction (Tower 112) with the existing trackage rights SP has granted to City Public Service Board of San Antonio, TX.

(n) In the event UP/SP institute directional operations over any Trackage Rights Line or on lines over which BNSF is granted Overhead Trackage Rights, (i) UP/SP shall provide BNSF with reasonable notice of the planned institution of such operations and shall adjust, as appropriate, the trackage rights granted to BNSF pursuant to this Agreement so as to avoid impairing BNSF's ability to provide competitive service on a Trackage Rights Line, and (ii) BNSF shall operate in accordance with the flow of traffic established by such directional operation; PROVIDED, HOWEVER, that any rights granted to BNSF as a result of UP/SP's institution of directional operations shall be Overhead Trackage Rights only, and PROVIDED FURTHER that BNSF shall have the right, on any Trackage Rights Line over which directional operations have been instituted (including lines on which BNSF received Overhead Trackage Rights to serve a point listed or described in Section 8(i) of this Agreement or a build-in/build-out line), to operate against the flow of traffic if it is reasonably necessary to do so for BNSF to provide competitive service to shippers on the line which are accessible to BNSF (including service to New Shipper Facilities and build-in/build-out lines) over such line including but not

limited to circumstances where UP operates against the flow of traffic with trains of the same or similar type for the same shipper(s) or for shipper(s) in the same general area.

10. **Compensation for Sale of Line Segments**

(a) BNSF shall pay UP/SP the following amounts for the lines it is purchasing pursuant to this Agreement:

| <u>Line Segment</u>                                                                                                              | <u>Purchase Price</u> |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| Keddie-Bieber                                                                                                                    | \$ 30 million         |
| Dallas-Waxahachie                                                                                                                | 20 million            |
| Iowa Jct.-Avondale MP 16.9<br>(includes UP's Westwego<br>intermodal yard; SP's<br>old Avondale yard;<br>and SP's Lafayette yard) | 100 million           |

(b) The purchase shall be subject to the following terms:

- (i) the condition of the lines at closing shall be at least as good as their current conditions as reflected in the current timetable and slow orders (slow orders to be measured by total mileage at each level of speed restrictions).
- (ii) includes track and associated structures together with right-of-way and facilities needed for operations.
- (iii) indemnity for environmental liabilities attributable to UP/SP's prior operations.
- (iv) standard provisions for sales of this nature involving title, liens, encumbrances other than those specifically reserved or provided for by this Agreement.

- (v) assignment of associated operating agreements (road crossings, crossings for wire and pipelines, etc.). Non-operating agreements shall not be assigned.
- (vi) removal by UP/SP, from a conveyance, within 60 days of the closing of any sale, of any non-operating real property without any reduction in the agreed upon purchase price.
- (vii) the purchase will be subject to easements or other agreements involving telecommunications, fiber optics or pipeline rights or operations in effect at the time of sale.

BNSF shall have the right to inspect the line segments and associated property to be sold and records associated therewith for a period of ninety days from the Effective Date of this Agreement to determine the condition and title of such property. At the end of such period, BNSF shall have the right to decline to purchase any specific line segment or segments. In such event, UP/SP shall grant BNSF overhead trackage rights on any such segment with compensation to be paid, in the case of Avondale-Iowa Junction on the basis of the charges set forth in Section 9(a) of this Agreement, and in the case of Keddie-Bieber on a typical joint facility basis with maintenance and operating costs to be shared on a usage basis (gross ton miles used to allocate usage) and annual interest rental equal to the depreciated book value times the then current cost of capital as determined by the ICC times a usage basis (gross ton miles). In the case of Dallas-Waxahachie, operations would continue under the existing trackage rights agreement.

(c) Prior to closing the sale of SP's Iowa Jct.-Avondale line (the "IJA Line"), representatives of UP/SP and BNSF shall conduct a joint inspection of the IJA Line to consider

whether its condition at closing meets the standard established in Section 10(b)(i) of this Agreement. If the representatives of the parties are unable to agree that the condition of the IJA Line meets this standard, then BNSF shall place \$10.5 million of the purchase price in escrow with a mutually agreed upon escrow agent, and closing shall take place. After closing the parties shall mutually select an independent third party experienced in railroad engineering matters (the "Arbitrator") who shall arbitrate the dispute between the parties as to whether the condition of the IJA Line is in compliance with Section 10(b)(i) of this Agreement. Arbitration shall be conducted pursuant to Section 15 subject to the foregoing qualification that the Arbitrator be experienced in railroad engineering matters. If the Arbitrator finds the IJA Line is below the standard, the Arbitrator shall determine the amount (which shall not exceed \$10.5 million) required to bring it in compliance with the standard and authorize the payment of such amount out of the escrow fund to BNSF with the balance, if any, paid to UP/SP. Any amount so paid to BNSF out of the escrow fund to bring the IJA Line into compliance with the standard shall be used by BNSF exclusively to that end (or to reimburse BNSF for funds previously expended to that end) and UP/SP shall not, as a tenant on the IJA Line be billed for any work undertaken by BNSF pursuant to the provisions of this Section 10(c).

**11. Term**

This Agreement shall be effective upon execution (which occurred on September 25, 1995) (the "Effective Date") for a term of ninety-nine years, PROVIDED, HOWEVER, that the grants of rights under Section 1 through 8 shall be effective only upon UP's acquisition of control of SP, and provided further that BNSF may terminate this Agreement by notice to UP/SP given before the close of business on September 26, 1995, in which case this Agreement shall have no further force or effect. This Agreement and all agreements entered into pursuant or in relation hereto shall terminate, and all rights conferred pursuant thereto shall be canceled and

deemed void ab initio, if, in a Final Order, the application for authority for UP to control SP has been denied or has been approved on terms unacceptable to the applicants, PROVIDED, HOWEVER, that if this Agreement becomes effective and is later terminated, any liabilities arising from the exercise of rights under Sections 1 through 8 during the period of its effectiveness shall survive such termination. For purposes of this Section 11, “Final Order” shall mean an order of the STB, any successor agency, or a court with lawful jurisdiction over the matter which is no longer subject to any further direct judicial review (including a petition for writ of certiorari) and has not been stayed or enjoined.

**12. Adjustment of Charges**

All trackage rights charges under this Agreement shall be subject to adjustment upward or downward July 1 of each year by the difference in the two preceding years in UP/SP’s system average URCS costs for the categories of maintenance and operating costs covered by the trackage rights fee. “URCS costs” shall mean costs developed using the Uniform Rail Costing System.

The rates for reciprocal switching services established in Section 9(i) and for haulage service established in Section 8(m) shall be adjusted upward or downward each July 1 of each year to reflect fifty percent (50%) of increases or decreases in Rail Cost Adjustment Factor, not adjusted for changes in productivity (“RCAF-U”) published by the Surface Transportation Board or successor agency or other organizations. In the event the RCAF-U is no longer maintained, the parties shall select a substantially similar index and, failing to agree on such an index, the matter shall be referred to binding arbitration under Section 15 of this Agreement.

The parties will agree on appropriate adjustment factors if not covered herein for switching, haulage and other charges.

Upon every fifth anniversary of the effective date of this Agreement, either party may request on ninety (90) days notice that the parties jointly review the operation of the adjustment mechanism and renegotiate its application. If the parties do not agree on the need for or extent of adjustment to be made upon such renegotiation, either party may request binding arbitration under Section 15 of this Agreement. It is the intention of the parties that rates and charges for trackage rights and services under this Agreement reflect the same basic relationship to operating costs as upon execution of this Agreement (September 25, 1995).

**13. Assignability**

This Agreement and any rights granted hereunder may not be assigned in whole or in part without the prior consent of the other parties except as provided in this section. No party may permit or admit any third party to the use of all or any of the trackage to which it has obtained rights under this Agreement, nor under the guise of doing its own business, contract or make any arrangement to handle as its own trains, locomotives, cabooses or cars of any such third party which in the normal course of business would not be considered the trains, locomotives, cabooses or cars of that party. In the event of an authorized assignment, this Agreement and the operating rights hereunder shall be binding upon the successors and assigns of the parties. This Agreement may be assigned by either party without the consent of the other only as a result of a merger, corporate reorganization, consolidation, change of control or sale of substantially all of its assets.

**14. Government Approvals**

The parties agree to cooperate with each other and make whatever filings or applications, if any, are necessary to implement the provisions of this Agreement or of any separate agreements made pursuant to Section 9(f) and whatever filings or applications may be necessary to obtain any approval that may be required by applicable law for the provisions of such

agreements. BNSF agrees not to oppose the primary application or any related applications in Finance Docket No. 32760 (collectively the “control case”), and not to seek any conditions in the control case, not to support any requests for conditions filed by others, and not to assist others in pursuing their requests. BNSF shall remain a party in the control case, but shall not participate further in the control case other than to support this Agreement, to protect the commercial value of the rights granted to BNSF by this Agreement, and to oppose requests for conditions by other parties which adversely affect BNSF; PROVIDED, HOWEVER, that BNSF agrees to reasonably cooperate with UP/SP in providing testimony to the ICC necessary to demonstrate that this Agreement and the operations to be conducted thereunder shall provide effective competition at the locations covered by the Agreement. UP/SP agree to support this Agreement and its implementation and warrant that it has not entered into agreements with other parties granting rights to other parties granted to BNSF under this Agreement. UP/SP agree to ask the ICC to impose this Agreement as a condition to approval of the control case. During the pendency of the control case, UP and SP shall not, without BNSF’s written consent, enter into agreements with other parties which would grant rights to other parties granted to BNSF or inconsistent with those granted to BNSF under this Agreement which would substantially impair the overall economic value of rights to BNSF under this Agreement.

15. **Arbitration**

Except as otherwise provided by any decision of the STB or by separate agreement, unresolved disputes and controversies concerning any of the terms and provisions of this Agreement or the application of charges hereunder shall be submitted for binding arbitration under Commercial Arbitration Rules of the American Arbitration Association which shall be the exclusive remedy of the parties.

16. **Further Assurances**

The parties agree to execute such other and further documents and to undertake such acts as shall be reasonable and necessary to carry out the intent and purposes of this Agreement.

17. **No Third Party Beneficiaries**

This Agreement is intended for the sole benefit of the signatories to this Agreement. Nothing in this Agreement is intended or may be construed to give any person, firm, corporation or other entity, other than the signatories hereto, their permitted successors and permitted assigns, and their affiliates any legal or equitable right, remedy or claim under this Agreement.

**EXHIBIT B**

**TERM SHEET FOR  
UP/SP-BNSF PROPORTIONAL RATE  
AGREEMENT COVERING  
I-5 CORRIDOR**

**Concept**

BNSF trackage rights in the "I-5" corridor will allow BNSF to handle traffic on a single line basis that currently moves via joint BN-SP routes. This Agreement will enable UPSP to compete with BNSF for that traffic and to make rates, using the proportional rates, to and from all points UP/SP serves in the covered territory described below.

**Covered Territory**

Traffic moving between the following areas north of Portland, Oregon and west of Billings and Havre, Montana:

- Canadian interchanges in Vancouver area
- Points north of Seattle and west of Cascades
- Points south of and including Seattle and west of Cascades
- Washington points east of Cascades and west of and including Spokane
- Points east of Spokane and west of Billings and Havre

and points in

- Arizona,
- California,
- Colorado,
- New Mexico,
- Nevada,
- Oregon,
- Utah,
- Texas west of Monahans and Sanderson, and
- connections to Mexico at El Paso and to the west.

**Traffic Covered**

Traffic covered will be all commodities (carload, intermodal and bulk) moving both southbound and northbound. All cars loaded or made empty on BNSF lines in the Covered Territory (including reloads) and cars received in interchange.

**Proportional Rates**

A third party, such as a major accounting firm or other established transportation consultant (the "consultant"), will be employed to compute the proportional rates. The mileage prorate shall be the ratio of (a) BNSF miles between areas north of Portland or interchange north of Portland and SP interchange at Portland to (b) BNSF single-line miles from BNSF origin or interchange to BNSF destination or interchange.

The consultant will develop a table of net ton mile rates (net of refunds, allowances, and rebates). This table will be in matrix form based on commodity, car type, and area north of Portland, Oregon. The rates shown in the matrix will be by commodity at the 3-digit STCC level and by car type for movement between each of the areas north of Portland, Oregon, and the Portland interchange. The net ton mile rates will be based on movements between each of the areas north of Portland and the group of states (including connections to Mexico) listed above. The initial rates will be derived based on the BN-SP portion of BN-SP interline rates (net of refunds, allowances, and rebates) in effect in the quarter preceding acquisition of SP by UP.

The net ton mile rate for each commodity/car type shall be a weighted average of the rates applicable to movements of each such commodity/car type between the points listed above. An example of this computation is attached.

New rates will be derived each subsequent quarter. In subsequent quarters, the rates will include a prorate of both SP-BNSF interline rates (net of refunds, allowances, and rebates) and BNSF single-line rates (net of refunds, allowances, and rebates). At such time as a rate can be developed for a particular commodity/car type on the basis of a BNSF single-line rate then future rate adjustments for such commodity/car type shall be based solely on BNSF single-line rates. All computations of net ton mile rates will be based on rates that actually moved traffic.

UP/SP agree that any rate it publishes will reflect the proportional rate from the latest quarterly study and BNSF's division shall be that amount. Movements using proportional rates shall be interline BNSF-UP/SP movements and will be billed accordingly. Proportional rates used by UP/SP in contracts will be escalated on the same basis as UP/SP's rates are escalated. BNSF and UP/SP will establish procedures to ensure that in settling interline accounts UP/SP's and BNSF's revenue south of Portland is not disclosed to the other.

**Application**

The net ton mile rates in each cell of the matrix will be applied to the BN mileage and the associated net tons from areas north of Portland to Portland interchange to develop the proportional rate to the Portland interchange.

**Service**

BNSF shall accept, handle, switch and deliver traffic moving under this Agreement without any discrimination in promptness, quality of service, or efficiency in favor of comparable traffic moving in BNSF's account. UP/SP has the right to provide equipment. BNSF will work with UP/SP to establish and provide trackage for strategically located car distribution points in BN territory. To the extent justified by business volumes, BNSF will continue operating Vancouver, BC-Portland (SP interchange) trains comparable to BN Nos. 111 and 112. BNSF will cooperate with UP/SP to establish necessary blocks to provide efficient and competitive service on traffic moving under the proportional rate.

**Third Party Consultant**

The third party consultant shall be jointly employed by UP/SP and BNSF. The parties will share equally in the expense of employing such third party consultant. Both UP/SP and BNSF shall have the right to audit the work of the third party consultant and agree to share in any irregularities found in this work and cooperate to work with the third party consultant to establish procedures to promptly correct those deficiencies. The third party consultant shall be required to remain impartial between UP/SP and BNSF. Any breach of the impartiality requirement shall result in the termination of such third party consultant and the selection of a new consultant by the parties.

Example of Revenue Per Ton Mile  
Calculation by Origin-Destination Cell  
Cell Includes Car Type and Commodity

| Assumption:                                                                       | <u>Move 1</u> | <u>Move 2</u> |
|-----------------------------------------------------------------------------------|---------------|---------------|
| 1. BNSF Revenue Per Car From O/D Areas North of Portland to Destination States    | \$5000        | \$2000        |
| 2. BNSF Miles From O/D Areas North of Portland to Destination States              | 1000          | 500           |
| 3. BNSF Net Tons From O/D Areas North of Portland to Destination States           | 100           | 50            |
| 4. BNSF Number of Carloads From O/D Areas North of Portland to Destination States | 10            | 5             |
| 5. BNSF Miles Between Actual Point of Origin to Interchange and Portland          | 300           | 200           |

A. Revenue/NTM Factor (Computed by Consultant for Each Call in Matrix)

$$\frac{\sum (1) \times (4)}{\sum (2) \times (3)} \text{ (for all moves)}$$

$$\frac{\frac{5000 \times 10}{1000 \times 100} + \frac{2000 \times 5}{500 \times 50}}{10 + 5} = \$0.06/\text{NTM}$$

B. Compute BNSF Division on a Specific Move

$$\begin{aligned} & (A) \times (5) \times (3) \\ & \$0.06 \times 300 \times 100 = \$1800 \\ & \$0.06 \times 200 \times 50 = \$ 600 \end{aligned}$$

**BNSF - UP/SP DISPATCHING PROTOCOLS**

As agreed: Dave Clifton - BNSF  
Hank Jay - SP  
Steve Barkley - UP

1. **Scope:** These protocols apply on all rail line segments where Burlington Northern Railroad Company or The Atchison, Topeka & Santa Fe Railway Company (which will be referred to jointly or individually as "BNSF") has trackage rights over tracks of the entity or entities resulting from the merger of the rail affiliates of Union Pacific Corporation and Southern Pacific Rail Corporation (which will be referred to jointly or individually as "UP/SP") and on all rail line segments where UP/SP has trackage rights over tracks of BNSF. All such rail lines will be referred to as "joint trackage and will include all current joint line trackage rights."
2. **Purpose:** To ensure that BNSF and UP/SP trains operating on joint trackage are given equal dispatch without any discrimination in promptness, quality of service or efficiency and that the competitiveness of tenant operations on joint trackage is not adversely affected by the fact that the other railroad owns the track.
3. **General Instructions:** BNSF and UP/SP will issue written instructions to all personnel (including supervisors) responsible for train dispatching on joint trackage that trains of the tenant are to be dispatched exactly as if they were trains of the same class of the owner and given equal treatment with trains of the owner. These instructions will be issued at agreed intervals or at the request of either party.
4. **Monitoring Systems:** At the request and expense of the tenant, the owner will make available computer terminals, facilities or capabilities comparable to those available to its own dispatchers showing joint trackage it dispatches so that the tenant can monitor the handling of its trains by the owner.
5. **Train Information:** The tenant will provide to the owner, and regularly update, information about its expected train operations and schedules (including priorities, time commitments, horsepower per trailing ton, etc.) over joint trackage, preferably using electronic data interchange. Parties will establish run time standards by train category based on expected train volumes for each line segment. If train volumes are different than expected then adjustments to run time standards will be made by mutual agreement. The tenant will provide reliable and current information about trains approaching joint trackage, including train arrival time and train characteristics, preferably by providing at its expense computer terminals, facilities or capabilities showing trains approaching joint trackage, sufficiently in advance to allow dispatchers to plan for them. The owner will provide to the tenant advance notice of planned maintenance-of-way projects, line closures and train or equipment restrictions. BNSF and UP/SP will cooperate to develop a process for discussing maintenance windows in advance and agree upon so as not to adversely affect schedules of one carrier more than the other.

6. **Specific Instructions:** The owner will permit the tenant to transmit instructions regarding the requirements of specific trains and shipments to designated dispatching center employees responsible for handling those trains.
7. **Train Priorities/Run Time Standards:** BNSF and UP/SP will at all times provide to each other current procedures for assigning dispatching priorities or rankings to their trains and information sufficient to show how those procedures are applied to their own trains. The tenant will assign priorities or rankings to its trains operating on joint trackage using the owner's procedures, and the owner will dispatch tenant trains in accordance with those priorities or rankings. It is understood that technological advances in computer aided dispatching might result in changes to priority assignment methodologies. The parties agree to discuss technological changes which might affect priority assignment methodologies prior to implementation. The Joint Service Committee will be responsible for reviewing these assignments to ensure that they are applied equitably by both railroads. It is agreed that a three member panel from each carrier will make up the Joint Service Committee. Suggestions for three member panel are representatives from Joint Facilities, VP Transportation, and Joint Trackage Rights Operations.
8. **Entry to Joint Trackage:** At points where tenant trains enter joint trackage, entry will be provided by the owner on a first-come, first-served basis, taking into consideration the relative priorities of affected trains and the specific needs and operating characteristics of individual trains of both railroads. [If operating circumstances make strict application of this principle difficult or uncertain, BNSF and UP/SP may jointly establish standards for determining sequence of entry to joint trackage.] Parties will communicate daily on any conflicts concerning entry to joint trackage to gain resolution.
9. **Communications:** BNSF and UP/SP will provide to each other, and keep current, lists of dispatching personnel responsible for dispatching each segment of joint trackage and contact numbers. For each segment, BNSF and UP/SP will designate supervisory employees to serve as the day-to-day contacts for communications about operating changes, service requests and concerns. Where feasible and economical, dedicated phone lines or computer links will be established for these communications.
10. **Access to Dispatching Centers:** Appropriate officials of either railroad will be admitted at any time to dispatching facilities and personnel responsible for dispatching joint trackage to review the handling of trains on joint trackage and will be provided an office in the other railroad's dispatching center (although both railroads will take reasonable steps to prevent disclosure of proprietary information not relevant to that review). In order to support BNSF operations over UP/SP trackage rights granted in connection with the UP/SP merger, UP/SP will pay BNSF an amount equal to the reasonable and conventional salary of one supervisory employee to be placed by BNSF at UP/SP's Harriman dispatching center. It is understood that management and supervision of dispatching operations is the responsibility of the owning carrier.

11. **Performance Measurement:** BNSF and UP/SP will cooperate to develop train performance evaluation methods under which train performance of tenant trains on joint trackage segments can be compared to train performance of the owner's trains on the same segments for the same train category and priority.
12. **Personnel Incentives and Evaluation:** In evaluating the performance of employees and supervisors responsible for dispatching joint trackage, both BNSF and UP/SP will consider train performance of tenant trains and effectiveness in cooperating with tenant personnel and meeting tenant service requirements in the same manner as such factors are considered with respect to the owner's trains, personnel and requirements. If bonuses, raises or salaries of those persons are affected by performance of the owner's trains, performance of the tenant's trains shall be considered on the same basis to the extent feasible.
13. **Disagreements:** The designated contact supervisors are expected to raise questions, disagreements, concerns or disputes about compliance with these protocols promptly as and when any such matters arise and to use their best efforts to resolve them. If a matter is not resolved to the satisfaction of both parties, it will be presented to the Joint Service Committee. If a satisfactory resolution cannot be achieved by the Joint Service Committee, the matter will be submitted to binding summary arbitration before a neutral experienced railroad operating official within fourteen days. The parties will agree in advance on the sanctions available to the arbitrator to address failures to comply with these protocols.
14. **Modifications:** As the ultimate objective of these protocols is the equal, flexible and efficient handling of all trains of both railroads on joint trackage, these protocols may be modified at any time by mutual agreement, consistent with that objective.

## 2-To-1 Point Identification Protocol

As a condition of the Surface Transportation Board's (STB) approval of the consolidation of Union Pacific Railroad Company (UP) and Southern Pacific Transportation Company (SP), The Burlington Northern and Santa Fe Railway Company (BNSF) was granted the right to serve all shipper facilities, that as of September 25, 1995, were open to both UP and SP, and no other railroad, whether via direct service, reciprocal switching, joint facility or other arrangements. Since the consolidation was consummated, BNSF and UP have been working to identify a complete list of 2-to-1 shipper facilities to which BNSF is entitled to access. The purpose of this protocol is to establish procedures and mechanisms for further identifying 2-to-1 shipper facilities open to BNSF as a result of the conditions imposed in the UP/SP merger. Those procedures and mechanisms are as follows:

1. BNSF shall submit to UP, by written or electronic communication, the name and address of any facility to which access is sought. In addition to the name and address of the facility, BNSF shall furnish any additional information relating to the facility's identity and location that is in BNSF's possession when the request for access is made. BNSF shall also provide any information in its possession at such time pertaining to the rail service options that were available to the facility on or before September 25, 1995. UP will handle for BNSF any traffic en route to the facility pending UP's determination of BNSF's right to access the facility in question. If UP determines that BNSF is not entitled to access a particular facility, BNSF will terminate any BNSF direct routing of traffic to that facility. UP shall be compensated for any traffic en route in accordance with the method of compensation set forth in Paragraph 7, below.

# Exhibit B

## Page 65 of 68

2. UP shall have five (5) business days from the date of such communication to respond by written or electronic communication to any request for access, provided that, if BNSF shall request a determination on more than five shipper facilities on a single day or, if a single request pertains to more than five (5) shipper facilities, BNSF shall identify the five (5) shipper facilities that need immediate attention, and the five (5) business day requirement shall apply to those shipper facilities, with the remaining shipper facilities request or requests to be responded to within ten (10) business days after the date of the request(s).

3. If UP fails to respond to an access request by the close of business of the fifth business day or, in the case of requests for which UP has ten business days to respond, by the close of the tenth business day, BNSF shall be deemed to have access to such facility or facilities as set forth in Paragraph 4 below, and UP shall be deemed to have waived any claims that BNSF is not entitled to serve the facility or facilities.

4. If UP approves BNSF's request for access, BNSF shall immediately be authorized to serve the facility either directly, through reciprocal switching, or, with UP's prior approval, a third party contractor, as provided for in the UP/BNSF Settlement Agreement dated September 25, 1995, as amended. No less than five (5) business days prior to the date that BNSF proposes to begin service to a facility, BNSF shall elect the mode of service that it intends to utilize and shall notify UP in writing or electronically of its election. BNSF shall have the right, upon 180 days prior written notice to UP, to change its election; provided, however, that BNSF shall (i) not change its election more often than once every five years, and (ii) shall reimburse UP for any costs incurred by UP in connection with such changed election. UP may not reverse a prior decision approving

# Exhibit B

## Page 66 of 68

BNSF's request for access to a facility without either BNSF's consent or approval by the STB.

5. If UP declines to approve a BNSF request for access to any facility, and BNSF believes that UP has an insufficient or inappropriate reason to decline access, BNSF may so notify UP, either in writing or by electronic communication, of the reasons why BNSF believes it is entitled to such access, and upon such notice, may seek an order from the STB finding that BNSF was entitled to access to that facility.

6. UP shall approve all such requests where, on the basis of all available information, UP concludes that a particular facility was open to service by both UP and SP, either directly or through reciprocal switching, joint facility or other arrangements and by no other rail carrier, as of September 25, 1995. If UP declines to approve a BNSF request for access to any facility, UP shall provide as part of its notification to BNSF a statement in writing or by electronic communication of its reasons and of the specific evidence supporting its determination that BNSF should not have access to the facility. A statement that UP lacks sufficient information to make a determination as to whether a facility is a 2-to-1 facility is not an adequate reason to deny a BNSF request for access to a facility. At any time after UP's notification, BNSF may request UP to reconsider its decision declining to approve BNSF's request for access.

7. If BNSF transports traffic to or from a shipper facility pursuant to paragraph 1 above and it is later determined that BNSF is not entitled to access to that facility, BNSF shall compensate UP for the movement of such traffic as follows: If a joint through rate is available, then UP is entitled to \$3 per car mile for the loaded move from the applicable junction in the price document. If multiple junctions are available, BNSF

**Exhibit B**  
**Page 67 of 68**

receives its longest haul and UP receives \$3 per car mile beyond that junction. If no joint through rate exists, BNSF receives its longest haul via junctions in existence between UP and BNSF, prior to the date of UP control over SP, September 11, 1996, and UP receives \$3 per car mile beyond. UP must file a claim with BNSF to recover revenues under this section making reference on the claim to this section of the joint 2-to-1 Point Identification Protocol.

8. BNSF and UP shall identify an individual or individuals within their respective organizations as the person or persons to whom all communications pursuant to this protocol shall be directed.

9. The parties agree to submit any disputes under this protocol to the STB for resolution or, with the consent of both parties, to arbitration, as described in the UP/BNSF Settlement Agreement dated September 25, 1995, as amended.

AGREED TO AND ACCEPTED BY:

UNION PACIFIC RAILROAD COMPANY

Date: June 24, 1998

THE BURLINGTON NORTHERN AND  
SANTA FE RAILWAY COMPANY

Date: June 25, 1998

**EXHIBIT F**

**LIST OF OVERHEAD TRACKAGE RIGHTS**

1. Western Trackage Rights

- A. UP/SP shall grant BNSF Overhead Trackage Rights on SP's Valley Subdivision between MP 141.9 near Binney Junction, CA and Roseville, CA in the vicinity of SP's Valley Subdivision MP 106.6.

2. South Texas Trackage Rights

- A. UP/SP shall grant BNSF Overhead Trackage Rights on the following lines:

- a) SP's Port Lavaca Branch, between Placedo, TX in the vicinity of MP 14.2, and a point of build-in along said branch in the vicinity of MP 6.93 at Kamey, TX; and
- b) UP's line between Round Rock, TX, in the vicinity of UP's Austin Subdivision Milepost 161.79, and McNeil, TX, in the vicinity of UP's Austin Subdivision Milepost 166.1.

3. Eastern Texas - Louisiana Trackage Rights

- A. UP/SP shall grant BNSF Overhead Trackage Rights on UP's Beaumont Subdivision between MP 458.69 in the vicinity of Beaumont, TX and MP 377.98 (Gulf Coast Junction) in the vicinity of Houston, TX.

4. Additional Rights

- A. UP/SP shall grant BNSF Overhead Trackage Rights on SP's Martinez Subdivision between approximately MP 2 in the vicinity of Oakland, CA and approximately MP 13 in the vicinity of Richmond, CA.

5. Rights to Omnibus Points

- A. UP/SP shall grant BNSF Overhead Trackage Rights over UP/SP's Jefferson City Subdivision between MP 34.8 near Pacific, MO and MP 43.8 near Labadie, MO.

Case Number: 01-24-0004-4497

Union Pacific Railroad Company  
-vs-  
BNSF Railway Company

Dear Parties:

Thank you for choosing the American Arbitration Association (the AAA) to assist in resolving your dispute. The AAA is committed to providing you with the highest level of service.

This correspondence—along with the enclosed Arbitration Information Sheet, Billing Information Sheet, AAA-ICDR® *Best Practices Guide for Maintaining Cybersecurity and Privacy*, and AAA-ICDR *Cybersecurity Checklist*—provides basic information about the AAA's arbitration process.

I will be your primary contact for this matter and will serve as a resource to you throughout the administration of your case. At times, a member of my staff may contact you on my behalf, but please do not hesitate to contact me directly with any questions, issues, or concerns.

The [AAA WebFile® Electronic Case Filing Guidelines](#) apply to this dispute. The AAA requires the parties to use AAA WebFile® to file online their pleadings, including claims, counterclaims, answers, motion briefing, pre- and post-hearing briefs, and other substantive filings. If you have any questions, please refer to the [AAA WebFile® Electronic Case Filing \(“ECF”\) Guidelines FAQ](#) or contact your case manager.

On April 15, 2024, the AAA received a Demand for Arbitration dated April 15, 2024 regarding a dispute between the parties arising out of a contract providing for arbitration administered by the AAA or governed by the AAA's arbitration rules. All other parties should have received a copy of the Demand for Arbitration from Claimant. You can review the Commercial Arbitration Rules at [www.adr.org](http://www.adr.org).

Claimant has asked that the hearing be held in Omaha, NE. Please review the Commercial Arbitration Rules and the Arbitration Information Sheet regarding the locale of hearings Respondent may file with the AAA an Answering Statement, including any objection to the requested locale, within 14 days from the date of this correspondence.

If Respondent does not file an Answering Statement, Respondent will be deemed to have denied the claim and the case will proceed.

Respondent may file any counterclaims—along with the appropriate administrative fee—with me, copying Claimant. Counterclaims that do not meet all filing requirements will not be presented to the arbitrator(s), and the AAA will specify a date by which all deficiencies must be addressed.

As the claim exceeds \$100,000, the Rules require that the parties mediate their dispute. Mediation is an informal negotiation assisted by an impartial third party and can help the parties resolve their disputes more quickly and economically. Unless the parties agree otherwise, the mediation will proceed concurrently with the arbitration. Any party may opt out of mediation by notifying the AAA and all other parties.

If you are interested in mediation at this time, please contact me at your earliest opportunity.

Each party must complete a Checklist for Conflicts to help avoid last-minute disclosures that could lead to disqualification of the arbitrator(s). The Checklists are due by **May 15, 2024**, and the parties may complete them online through AAA WebFile ([www.adr.org](http://www.adr.org)). Please list the full names of all persons, companies, or other entities involved in this matter, including, but not limited to, subsidiaries, related entities, witnesses, consultants, and attorneys. The arbitrator(s) will review your Checklists and disclose any potential conflicts in accordance with the Rules. This form is not a preliminary or final witness list, and the AAA will not share your Checklist with the opposing party or require the parties to exchange them. You may update your Checklist at any time.

If you have an AAA WebFile account, you should see this case listed when you log in. If you do not see the case number when you login, please contact me. If you do not have an AAA WebFile account, please navigate to [www.adr.org](http://www.adr.org) and click on “Create Account” at the top to enter your email address and begin the registration process.

Payments can be paid online using our Quick Pay option. A unique Pay PIN can be found on your invoice. To pay an invoice or statement, please visit [www.adr.org](http://www.adr.org), select “File or Access Your Case” and then choose “Quick Pay an Invoice.”

Please contact me with any questions. I look forward to assisting you in this matter.

Sincerely,

*/s/ Carissa Langston*

### Arbitration Information Sheet

This document provides information about your upcoming arbitration and the expectations concerning each party's conduct throughout the process. Please save this information sheet so that you may refer to it throughout the arbitration.

**Exchange of Correspondence and Documents** – It is also important to note that the parties must exchange copies of all correspondence during the course of the arbitration. The two exceptions are the Checklist for Conflicts mentioned above and the party's arbitrator ranking list, which you will receive further information on during the course of the arbitrator appointment process. The parties only need to send copies of documents, such as discovery, to the AAA if the document is to be transmitted to the arbitrator for a determination.

**Communications with Arbitrator** – It is very important that parties do not engage in any ex-parte communications with the arbitrator. So as to minimize the potential of such communications, this case will be administered by facilitating the exchange of appropriate written documents through the AAA. To ensure the proper handling of all case-related documents, the parties are asked not to submit correspondence directly to the arbitrator. Correspondence should be submitted to your primary contact for transmittal to the arbitrator, copying the other party.

**Timeliness of Filings** – Please pay particular attention to response dates included on any correspondence sent to you by the AAA. Untimely filings or responses will not be considered by the AAA. Therefore, if you need an extension to any deadline, please contact the other party to reach an agreement. In the event you are unable to agree, the AAA or the arbitrator will determine if an extension will be granted.

**Locale of the Arbitration** – The parties may agree to a locale for the arbitration. This agreement can be made in the parties' agreement or contract, or when the arbitration is submitted to the AAA. The AAA will place the arbitration within the agreed upon locale.

When the parties' arbitration agreement is silent or ambiguous with respect to locale, and the parties disagree as to locale, the AAA may determine the place of arbitration, subject to the power of the arbitrator after appointment, to make a final determination on the locale.

In these circumstances, the Claimant will generally request that the hearing be held in a specific locale. If the Respondent fails to file an objection to the locale requested by the Claimant within 14 calendar days after the notice of the request has been sent to the Respondent by the AAA, the AAA will confirm the locale requested by the Claimant is agreeable.

When a locale objection is filed, each party is requested to submit written statements regarding its reasons for preferring a specific locale. In preparing their written statements, the parties are asked by the administrator to address the following issues:

- Location of parties & attorneys;
- Location of witness and documents;
- Location of records;
- If construction, location of site, place or materials and the necessity of an on-site inspection;
- Consideration of relative difficulty in traveling and cost to the parties;
- Place of performance of contract;
- Place of previous court actions;
- Location of most appropriate panel;
- Any other reasonable arguments that might affect the locale determination.

**AAA WebFile** – We encourage the parties to visit our website to learn more about how to file and manage your cases online. As part of our administrative service, AAA's WebFile allows parties to perform a variety of case related activities, including:

- File additional claims;
- Complete and update the Checklist for Conflicts form;
- View invoices and submit payment;
- Merge forms that auto-populate with case and party information;
- Share and manage documents;
- Strike and rank listed neutrals;
- Review case status or hearing dates and times;
- Upload hearing exhibits in a dedicated space activated by the arbitrator.

AAA WebFile provides flexibility because it allows you to work online as your schedule permits - day or night. Cases originally filed in the traditional offline manner can also be viewed and managed online. If the case does not show up when you log in, please contact your AAA case manager to request access.

**Refund Schedule** – The AAA has a refund schedule in the administrative fee section of the Rules. After 60 days of the AAA's receipt of the Demand or the appointment of the arbitrator the filing fees are non-refundable. The AAA will only refund filing fees as outlined in the Rules and does not refund neutral costs incurred when parties settle their dispute or withdraw their claims. Case service Final fees are fully refundable if the parties provide at least 24 hours' notice prior to the hearing.

*Revised December 2020*

AMERICAN  
ARBITRATION  
ASSOCIATION®

INTERNATIONAL CENTRE  
FOR DISPUTE RESOLUTION®

### Billing Information Sheet

**Deposits**—After the preliminary management hearing, the arbitrator will notify the case manager how much time is anticipated for the arbitration process. The Manager of ADR Services will then notify the parties of this amount. Once billing is entered into our system an invoice is automatically generated and transmitted within two weeks. Should you need an immediate copy to expedite payment please contact your case manager. Checks are to be made payable to the American Arbitration Association and submitted to the case manager in the time stated in our letter. These deposits are typically due thirty days prior to the evidentiary hearings, but this may vary depending on the schedule specific to this case.

At the conclusion of the preliminary management hearing, the parties' representatives and the Manager of ADR Services may discuss the AAA's billing and deposit practices with regard to covering the arbitrator's anticipated fees and expenses for the entire proceeding. We ask that the representatives discuss this with their clients prior to the conference so that any questions they may have can be addressed.

Deposits are typically due thirty days prior to the first evidentiary hearing and failure to make deposits by the established due date may result in the arbitrator suspending the proceeding. Therefore, please comply with all established due dates for payment in order to avoid interruption in the progress of the case. All unused deposits shall be promptly refunded.

Parties are also reminded that you may view case financial information, as well as make payments with a credit card online via AAA's WebFile.

Compensation to the arbitrator represents an independent obligation of the parties, and it is understood that the AAA has no liability, direct or indirect, for such payment. Each party shall promptly deposit in advance with the AAA such sums of money as required by the administrator to defray the costs of the arbitrator(s) fees. Compensation incurred will be deducted from deposits on hand, if any.

**Abeysance Fee**—Should parties agree, it is the policy of the Association to hold cases in abeyance for up to one year. The parties may continue to hold the matter in abeyance beyond that period providing they remit a payment of \$500.00 to the AAA to cover the administrative expense of continued tracking of such cases.

**Final Fee**—The Final Fee covers all AAA services from the time a hearing is scheduled to when the case is awarded, settled or withdrawn. The Final Fee is billed after an arbitrator has been appointed and a hearing has been scheduled and is payable in advance of the first scheduled hearing. The Final Fee will be incurred for all cases that proceed to their first evidentiary regardless of whether that hearing is held in person, via video conference, or via telephone and is payable by each party filing a claim or counterclaim, pursuant to the applicable fee schedule. If a hearing does not take place, the Final Fee will be fully refunded if the parties provide at least 24 hours' notice prior to the hearing.

**Refund Schedule**—The AAA has a refund schedule in the administrative fee section of the Rules. After 60 days of the AAA's receipt of the Demand or the appointment of the arbitrator the filing fees are non-refundable. The AAA will only refund filing fees as outlined in the Rules and does not refund arbitrator costs incurred when parties settle their dispute or withdraw their claims. The date of receipt by the AAA of the demand for arbitration will be used to calculate refunds of both claims and counterclaims.

**Re: AAA Case No. Case Number 01-24-0004-4497 – Union Pacific Railroad Company’s  
Demand for Arbitration to BNSF Railway Company**

Dear Ms. Langston:

I am writing on behalf of BNSF Railway Company (“BNSF”) to acknowledge receipt of AAA’s correspondence dated May 1, 2024, regarding the Union Pacific Railroad Company (“UP”) demand for arbitration dated April 15, 2024 (“UP Demand”).

This dispute is subject to the Surface Transportation Board’s continuing jurisdiction over the *Union Pacific Corporation—Control & Merger—Southern Pacific Rail Corporation* merger and related conditions. The STB—and not an arbitrator—should resolve the dispute that is the subject of the UP Demand.

BNSF denies the claims made in the UP Demand.

BNSF objects to the UP’s request that the arbitration hearing be held in Omaha, NE. BNSF requests that the arbitration hearing be held in Fort Worth, TX.

BNSF further states that it does not waive and specifically reserves all rights related to the UP Demand.

Sincerely,  
  
Molly Bruder Fox

**\* PROCEED WITH CAUTION - This email was sent from outside the Company \***

Counsel:

After careful consideration of the Parties' contentions, the AAA has made the initial determination that the hearings will be held in Omaha, NE. This determination is subject to the power of the arbitrators to make a final determination after their appointment.

We will proceed in sending out the arbitrator list here shortly.

Sincerely,  
Carissa Langston

**BEFORE THE  
SURFACE TRANSPORTATION BOARD**

---

**DOCKET NO. FD 36741**

**UNION PACIFIC RAILROAD LLC—OPERATION  
EXEMPTION—IN TOOELE COUNTY, UTAH**

---

**REPLY TO BNSF RAILWAY COMPANY’S MOTION TO INSTITUTE A  
PROCEEDING AND SET A PROCEDURAL SCHEDULE**

Pursuant to the Decision served in this Docket on December 22, 2023, the Savage Tooele Railroad Company (“STR”) hereby replies to the Motion to Institute a Proceeding and Set a Procedural Schedule (“Motion”) filed by BNSF Railway Company (“BNSF”) in response to the Notice of Exemption filed by Union Pacific Railroad Company (“UP”) seeking exemption authority to reinstate common carrier service over approximately one mile of abandoned right-of-way owned by UP in Tooele County, Utah. For the reasons set forth in this Reply, the Surface Transportation Board (“Board” or “STB”) should allow the exemption authority sought by UP to go into effect.

**I. Identity and Interest of Savage Tooele Railroad Company**

STR is the petitioner in Docket No. FD 36616, *Savage Tooele Railroad Company – Construction and Operation Exemption – Line of Railroad in Tooele County, Utah*, where STR seeks an exemption from the full requirements of 49 U.S.C. § 10901 and the Board’s regulations at 49 C.F.R. Part 1150 subparts A and B for authority to construct and operate approximately 11 miles of new railroad line in Tooele County, Utah to provide service to rail shippers locating in a 1700-

acre business park being developed near Grantsville, Utah called the Lakeview Business Park (the “Park”). Upon Board approval of its Petition for Exemption, STR will become a Class III short line and assume the responsibilities of providing common carrier service over the new line. The specific project for which STR has sought approval entails (a) the reinstitution of common carrier freight service over an approximately six-mile segment of a former 15.8-mile branch line owned by UP that was fully abandoned by UP’s predecessor Western Pacific Railroad Company in 1983 but remains largely intact, and (b) the construction of approximately five miles of new railroad line to extend the reinstated former UP railroad line segment into the Park.

STR began its quest for STB approval of the project in September 2021 by filing a Notice of Exemption in Docket No. FD 36524, *Savage Tooele Railroad Company – Acquisition and Operation Exemption in Tooele County, Utah – Union Pacific Railroad Company*. This notice was later withdrawn for reasons discussed in the Petition for Exemption.<sup>1</sup> Since re-starting the approval process with its Petition for Exemption on June 8, 2022, STR has diligently pursued track construction design efforts and interacted with the developers of the Park in anticipation of Board approval of the project. STR has also actively engaged with the Board’s Office of Environmental Analysis (“OEA”) during its review of the environmental impacts of the project pursuant to the National Environmental Policy Act. OEA issued a draft Environmental Assessment for the project on September 29, 2023 with a 30-day comment period that ended on October 30, 2023. OEA recently advised STR that the final Environmental Assessment should be issued this month, which would place the project on a path for final STB approval and the start of construction relatively early in 2024.

<sup>1</sup> Petition for Exemption at 2, footnote 1.

## **II. The BNSF Access Issue**

In its Petition for Exemption, STR stated it anticipated that in addition to interchanging with UP to provide common carrier service to the Park’s tenants, STR would also interchange railcars with BNSF, provided, however, that UP either (1) conveyed to STR all of UP’s abandoned track and right-of-way from milepost (“MP”) 0.0 near Burmeister, Utah (where the former line connected to UP’s Shafter Subdivision) to MP 6.94 or (2) UP retained ownership of the abandoned track between MP 0.0 and MP 1.04, “in which event STR contemplate[d] this track would become part of the non-jurisdictional ancillary tracks used by UP and BNSF to interchange cars with STR.”<sup>2</sup> STR understood such access from BNSF could potentially be available under either of these scenarios given the terms of section 8(k) of the Restated and Amended Agreement (“RASA”) described in the Petition for Exemption and in BNSF’s Motion.<sup>3</sup> However, STR informed the Board in its Petition for Exemption that the terms upon which STR would acquire and/or utilize the abandoned rail line segment from MP 0.0 to MP 6.94 were still being negotiated by STR and UP in June of 2022.

STR subsequently informed the Board on September 20, 2022 in response to a request for information from the Director of the Office of Proceedings that neither of the scenarios described in its Petition for Exemption for MP 0.0 to MP 1.04 had come to pass during the parties’ negotiations, and that instead UP had “decided to retain ownership of its abandoned right-of-way between milepost 0.0 and milepost 1.04, and to petition the Board to reinstate common carrier operating authority over this segment.”<sup>4</sup> STR understood that under this arrangement BNSF would be precluded from also interchanging traffic with STR. STR and UP subsequently completed their

<sup>3</sup> *Id.* at 3, note 5.

<sup>4</sup> STR Verified Supplement, filed September 20, 2023 at 1.

negotiations on their purchase and sale agreement (“PSA”) for UP’s track and right-of-way and it was executed on September 11, 2023. Accordingly, STR entered into the PSA knowing that UP would have the exclusive right to operate over its track from milepost 0.0 to 1.04 and to connect between that track and the track UP was conveying to STR.

**III. The Board Should Permit the Requested Exemption to Go Into Effect Pending Resolution of the BNSF Access Issue**

STR asserts no opinion on the merits of the substantive issues in BNSF’s Motion in this Reply. However, STR objects to the general relief BNSF has sought, *i.e.*, commencement of a lengthy administrative proceeding in this Docket, because it would necessarily result in significant additional delay of a rail construction project that is clearly in the public interest, meets the requirements of 49 U.S.C. §10502(a), and is on the verge of obtaining final Board authority after a regulatory approval process that began over three years ago. As STR previously informed the Board in Docket No. FD 36616, the absence of final regulatory approval from the Board has directly resulted in at least one major potential tenant of the Park locating elsewhere.<sup>5</sup>

STR therefore respectfully requests that the Board permit UP’s exemption authority to go into effect so UP can continue to work with STR to complete the re-establishment of common carrier service over the rail line and meet the needs of rail shippers locating in the Park. This treatment of BNSF’s Motion by the Board would be entirely consistent with the path the Board took in Docket No. FD 35776, *Union Pacific Railway Company – Operation Exemption – In Bexar and Wilson Counties, Tex* (Served December 24, 2013), which involved a similar procedural issue.

---

<sup>5</sup> STR’s Supplement to Petition for Exemption, filed January 17, 2023 at 4.

**IV. Conclusion**

For the foregoing reasons, STR respectfully requests that the Board decline to commence the proceeding requested by BNSF in this Docket, and that the Board permit the exemption authority sought by UP to go into effect.

Respectfully submitted,

---
