Re: **Docket No. EP 711(2) – Reciprocal Switching for Inadequate Service**

Dear Chairman Primus, Vice Chairman Hedlund, Board Members Fuchs and Schultz,

Pursuant to the Surface Transportation Board's April 30, 2024 decision, Union Pacific is respectfully enclosing its description of its operating divisions, and its weekly report on the following performance metrics for the weeks ending September 13, 2024, and September 20, 2024:

1. Percentage of Shipments in Manifest Service, Delivered within 24 hrs of OETA
2. Percentage of Successful Local Planned Service Windows for the system and each "operating division"

Union Pacific's performance metrics using the methodology for reporting in EP 770(1) *Urgent Issues in Freight Rail Service* are:

1. Trip Plan Compliance ("TPC"): Original Estimated Time of Arrival ("ETA") +24 hours for the system.¹

Week ending September 13, 2024	81.6%
Week ending September 20, 2024	79.7%

¹ TPC Intermodal is measured at the box level.

2. Industry Spot & Pull percentage for the system:

Week ending September 13, 2024	94.3%
Week ending September 20, 2024	94.9%

Union Pacific continues to explore the use of analytics using the new data collected for the EP711_2 performance metrics, in order to improve the accuracy of the modeling used to produce the OETA under this rule. Weekly data reporting will incorporate these improvements as they are implemented.

Please contact me if you have any questions.

Regards,

Jennifer L. Galer

Enclosure
