Good afternoon.

UP appreciates the discussion today on our monthly call regarding emergency procedures and call before you dig requirements. Recapping our discussion points below and welcome additional feedback from OEA.

- 1) In the event an emergency occurs and UP is not able to notify OEA prior to any work being done, UP will reach out as soon as possible to notify both OEA and Jacobs of the emergency situation and provide an update on the work being completed.
- 2) In the event a request for utility locating is submitted, UP may permit locating or surveying to be done. If this locating is a sign of upcoming ground disturbance work, then UP must coordinate the upcoming work to ensure that no work begins prior to OEA approval.

In response to the inquiry below and our discussion today, please see the following information regarding the fiber over pull request sscheduled to begin on November 11, 2024. If you have any additional questions or concerns, please do not hesitate to reach out. Thank you.

Good afternoon, Maggie.

Our UP team has a couple of follow up items that we would like to discuss tomorrow with this valued group. I would not anticipate that it will take the full hour, would anticipate we could cover it in 15-30 minutes. In the event we don't have updates on the requested items by tomorrow's call, we can follow up via email. Thank you.

Subject: PIRATE 10.9.24 Meeting

*** PROCEED WITH CAUTION - This email was sent from outside the company. ***

UP team: we have our monthly PIRATE meeting on the calendar tomorrow 10.9 from 12 – 1 pm Central. OEA does not have any items for discussion so we are planning to cancel the meeting unless UP has discussion items to bring up. In lieu of the meeting, we would appreciate any updates (via email) on the following two items:

1. The schedule for mowing along the airport fenceline.
2. The schedule for installation of fiber line (tentatively scheduled for the week of 11.11).

Thank you,
