Surface Transportation Board

CC: Parties of Record

RE: Docket No. FD 36818

January 30, 2025

Chairman Patrick Fuchs and Esteemed Members of the Board,

We are writing to urge you to deny the lease of Union Pacific rail to Central Oregon & Pacific Railroad as specified in docket number FD 36818. We have serious concerns regarding the proposed lease of these facilities and track from a Class I to a Class III railroad. We believe this transfer will lead to significantly diminished safety conditions for employees as well as neighbors living adjacent to rail yards and railroad tracks.

Currently, Union Pacific and SMART Transportation Division union members perform at the highest level of safety, with stringent rules and regulations in place to protect employees and maintain safety standards. Union members have decades of experience and training in these yards, which is invaluable and irreplaceable. Should this lease be approved, union members will lose jobs, to be replaced by a smaller, less experienced, minimally trained non-union workforce. **Without such stringent safety measures and no union to advocate for them, the risk of accidents and emergencies will be heightened.**

These railways transport a variety of dangerous explosive, flammable and toxic pollutants on a daily basis. We cannot put our families, our neighbors, and our communities at risk by weakening safety protections in the name of corporate profit. This lease affects 27.58 miles of track through neighborhoods. One mistake, one inspection oversight or one failure of equipment could have catastrophic consequences.

The people of Eugene have deep concerns about the fact that the CORP railroad company is Class III railroad and thus is a limited liability company compared to Union Pacific. The Eugene rail yard handles dangerous chemicals every day, including all chlorine agricultural chemicals and anhydrous ammonia. In the case of a disastrous event – a spill, a chemical release, a runaway rail car, a fire or explosion – a class III railroad company has limited resources and limited liability to address the situation, clean up the problem, and compensate injured community members or pay for loss of property use.

CORP has a poor track record. In Coos Bay, CORP failed to maintain their yards and protect the community when it shut down and abandoned its operations there. We are concerned that it could abandon operations here, too, should something disastrous happen, leaving taxpayers to foot the bill for cleanup.

For the safety of our community and protection of rail employees, please deny the lease of Union Pacific's track and yard to CORP. Thank you.

Sincerely,
Lisa Arkin, Executive Director
Beyond Toxics
On behalf of the undersigned members of our community

First Name	Last Name	Comment
Mary	Addams	This area of Eugene is bombarded with noise and pollution already. They don't deserve any more, plus this sounds like it would be dangerous.
Jim	Maloney	As a retired environmental scientist I find myself in complete agreement with the statements made here. We need more protections for our communities when it comes to transportation of dangerous substances through the hearts of our neighborhoods, not less. Regulations need to be more strict, not more relaxed. Railroads have too much power and influence and do not care as much about the safety and well being of our citizens as they care about their bottom line. Commerce, yes, but safety above all. Get your priorities straight.
Patricia	Hine	
Anita	Hollingsworth	Why should we be subjected to a less trained railroad company in a class 1 highly trained rail yard.
John G	Booker Jr	We already have limited resources to fight fires in Oregon why take a chance on destroying our environment further by creating not only an economic but a long term problem which will never be fixed.
Tomas	Daly	Safety is far more important than corporate greed!
Phyllis	Klein	This is of utmost importance to me as a resident of Eugene.
Debra	Mcgee	Enough is enough! Train song has been plagued with health hazards. Stop now!
Maura	Scanlon	Don't do this. We need a safe environment and we want rail workers to be given a liveable wage and safe working conditions. Save the health and lives of children and adults. Please!!!!
		Given the hugely harmful derailment two years ago in East Palestine, Ohio and the catastrophic effect on that community, it would be extremely unsafe and irresponsible to leave the responsibility of safely transporting hazardous materials to a less qualified, less insured, and less responsible institution. As a longtime resident of Bethel, we have already suffered enough at the hands of irresponsible, dishonest companies who value profit over community and public safety (JH Baxter comes immediately to mind). Further, our community is not exactly ripe with high paying jobs for working class people, and laying off capable and loyal employees in the interest of corporate profits is also unacceptable in my opinion. Ryan
Ryan	Asbra	Asbra
		I live in the River Road area, quite close to these rail yards. Approving this lease to the Central Oregon and Pacific Railroad is asking for a East Palestine, Ohio type accident to happen here. It is unconscionable to even consider it and you will be held accountable if you ever approve it.
David	Tvedt	

Robin	Bloomgarden	I have lived in the neighborhood for years and have endured toxic air pollution from the J H Baxter creosote plant 3 blocks from my home the whole time. This whole area has been neglected by the City of Eugene since the 40's. There is a large percentage of people of color and poverty. Trainsong Neighborhood has been slammed forever by toxic water plumes from the RR yard as well as Dioxin contamination throughout the area. We just stopped a rail to truck private project from setting up camp across the street from the neighbors. There is notice of another toxic project going in up the street from there with oil storage tanks adjacent to the tracks. And now, Union Pacific wants to lease the whole rail yard to a Class III railroad with a bad record of running a short line into the ground and then walking away. I want to see the well trained Union men and women at UP continue to do the professional work they have been doing in that yard! If there was a chemical accident there... Stop it!
Brenda	Wills	Do not allow a reduction in safety measures for our rail system in my neighborhood. I am very opposed to this possible change as Eugene has many homes in close proximity to the railroad tracks. We must protect our environment from toxics for our safety.
Patricia	Kramer	I want this to be clear so much! We do not need to keep practicing low income apartheid.l
JeanneMarie	Moore	Please protect the safety of our neighbors in that community.
Linda	Lelley	
RB	GARDEN	Docket No. FD 36818: Safety comes first. The city of Eugene allowed housing to be developed right to the edge of the railroad yard for the sake of tax income/revenue. Now people's lives are at risk from already slack regulations, think Baxter pollution. Do not do any action that could allow safety to diminish.
Ann	Flaharty	We need to protect our City! please keep our neighborhoods SAFE we need qulified companies and workers not ones that take shortcuts or act like Baxter did this area is already impacted by the trains - lets keep Eugene Clean of toxins - CORP does not have a good safety record - if and that's a big IF - you decide to chose money over People - make sure and get a Bond to keep us safe if CORP has an issue not the taxpayers to clean it up - thank you - vote like You and Your Family lived in the Neighborhood :)
Ellen	Bridges	I support Beyond Toxics' efforts to have you deny this lease. They do their research and know what they're talking about. Please act on behalf of health and safety, not on behalf of cost-cutting and corporate money-saving.
Debbie	Palmer	
Shannon	Trivelpiece	The number of people and animals who would be affected in the case of a catastrophic event, such as the one in East Palestine, is an unacceptable risk. Please consider the odds. It will happen at some point.

Kim	Warner	I am extremely concerned about the heightened risks associated with the proposed lease of Union Pacific's track and yard to CORP. This is a residential neighborhood, and there is no justification for exposing families to potential disastrous events by a company with a very poor track record of providing safety to communities or of responsibly removing their own waste. That and the fact that if a disastrous event does happen, CORP would not have the resources or incentive to compensate injured community members. Any plan to lease Union Pacific track and yard is poorly thought out and irresponsible. Please deny this lease.
Sarah	Adams-Schoen	As someone who has devoted thousands of hours to research related to environmental justice and urban land management, including the disparate allocation of risks to the lowest income neighborhoods with larger populations of people of color, I urge you not to take action that will increase the risk of toxic and environmental pollutants being released in Eugene's most vulnerable neighborhoods. Nearly all toxic air emissions in Eugene are concentrated in these neighborhoods, which has led to the adults and children who live there already having significantly higher incidences of asthma and other diseases that threaten their lives, jobs and schooling. The risk of toxic releases from rail cars is significant. The risks of exposure to even relatively low concentrations of many hazardous materials can be life-altering or fatal--and these risks are significantly greater for people who suffer from pre-existing conditions like asthma. I do not live in the immediate area but I am a former employee of Union Pacific who worked out of the Eugene yard. I have severe concerns for my former coworkers and have first-hand knowledge of the difference in standards to which UP employees vs. CORP employees are held.
Darren	Reed	
Michael	Gibbens	I hope you will consider this request, as it is the safest course. Thank you for your time.
Rene	Kane	While the name of this neighborhood sounds romantic, the reality is anything but. Lying between two railways and with years of impacts from below ground contamination, Trainsong has had more than its fair share of negative impacts. The community deserves a break and partners who want to improve it and safeguard its residents, not treat it as less than or worth risking.
Jaime	Rocha Hills	We need to support local jobs. Not interested in outside resources. Keep the men and women of Eugene working and not in the unemployment line

Judith	Hayes	It is with great concern that the Union Pacific Railroad would even consider leasing the Biofuels Transfer Facility to CORP who doesn't have the knowledge or personnel qualified to handle the cars full of toxic waste. How can they possibly justify putting this highly dangerous cargo into the possession of a company untrained or skilled to even adequately oversee such an operation. Such dangerous cargo needs to be dealt with by expert personnel who know everything there is to know about such cargo to prevent anything catastrophic from happening. The Union Pacific needs to continue being totally responsible to get this taken care of in a safe way.
		Union Pacific has the resources to address liability issues. CORP's limited liability means taxpayers would be left paying for accidents and environmental cleanup -- and we know without a doubt that at some point sooner or later there WILL be some accident or mishandling of something, causing a problem(s) which will endanger our community. Unlike European countries, which sensibly follow the precautionary principle, we always wait until people or communities are harmed before we (sometimes) act, because our society values profit over people. Please reconsider and do the right thing -- deny this lease.
Laura M.	Ohanian	PLEASE! Prevention is invaluable
Jan	Wulling	Please protect our citizens!
Linda	Tucker	We need that Toxics Overlay Zone to keep toxins and the businesses that deal in them far away from residential neighborhoods.
Jere	Rosemeyer	Let's be consistent here in Eugene: Prevent possible accidents of dangerous pollutants to keep Trainsong and the rest of Eugene safe!
Sarah	Douglas	We oppose this lease! For the safety and protection of rail employees and our citizens, it should be denied!!
ELLEN	SINGER	Please do not increase the risks to our neighbors and our environment.
Debbie	Schlenoff	
		There is so very much that is not discussed in the petition to change the operations of the rail yard and rail road in Eugene. Not only is the Surface Transportation Board just the first step, but then what? What about the Federal Railroad Administration? What about Oregon State Fire Marshall? What about the General Duty Clause under OSHA regulations? What about East Palestine, Ohio where the railroad has just settled with the for another \$22 million after \$310 to the EPA, after \$13.5 payment to the City? Could this be Eugene? What about the mountains of wood at Lane Forest Products about one-quarter mile from the intended site? What about the fact that major portions of Los Angeles County just burned by flaming embers transported 2 or 3 miles on the wind? What about it Eugene, are you willing to take these risks?
Kathleen	Sweet	Safety breakdowns can have long term & significant consequences.
Kathe	Shaw-Bassett	

Janeane	Harwell	Do not ignore the investment that people have put into their homes and property. Property value and mental and physical health are dependent on the surrounding environment. Changing the stable, clean, environment that people live in is a breach of trust, invasive, and colonizes their right to peaceful enjoyment of their home.
Leslie	Davis	For the safety of our community and protection of rail employees, please deny the lease of Union Pacific's track and yard to CORP. Thank you.
BL	Green	The proposed 400 rail yard at Port Westward, out of Clatskanie, by NEXT Corp is ludicrous. The tracks to this proposed bastardize use of liquefaction farmland, run through Scappoose, St Helens, and Rainier. Skirting the Columbia River in many areas. This proposed use of our precious land is nothing but preposterous!
Victoria Vera	Mello Moore	We need to keep highly qualified skilled labor in our neighborhoods to deal with dangerous chemicals, at time. Allowing a less qualified compost in a local neighborhood is unsafe and immoral. I appreciate your consideration on this important bill.
Stuart	Grenfell	There is no justifiable reason for this lease, and no excuse for allowing the citizens of Eugene to be potentially exposed to further environmental danger and damage.
Carolyn	Partridge	Train Song neighborhood has more than its fair share of hazardous industrial operations. They should have the railroad company with the highest safety standards. As should every neighborhood exposed to industrial activity. Thank you.
Sarah David	Deumling Chavez	Please! For our life giving earth and our children and grandchildren. Put yourselves, once again, on the right side of history. Thank you, Sarah Deumling Please protect our neighborhood!
Barbara	Butzer	I live very close to the Eugene railroad switching yard. I'm aware of and concerned about the possibility of spills that could be hazardous to my and my neighbors health. Please do everything possible to ensure safe operations of trains through our neighborhood.
Linore	Blackstone	Whew, when does our ignorance or greed stop? There are consequences for the health and life on this earth and we humans blissfully keep-on-keep-in' on. Act with integrity why don't you? (Who are you anyway? Why the lack of ethic?) Deny the lease to Corp.

		Hearing that a major railroad is planning on leasing a property is major concern to me, I feel that with the amount of employees affected it will gradually turn the rail industry into a disaster. Between the safety standard of rolling stock and inspections it will suffer and cause harm to the public in one way or another. They can say what they want but the training standards and abilities of Class 1 Railroads is greatly different than Class 2 & 3. Under different standards and rules from FRA's... Hopefully the fight continues...!
Justin Bee	Francis Vrzak	Based on the history of CORP, they will not provide the community with a safe environment.
Kurt	Reuter	Please prioritize our community's safety when considering approval of this lease request!
Steve	Gab	Just say no to corporate pollution of our children.
		The safety of surrounding residential community members needs to be paramount when a railyard is located in neighborhoods. We need the added protections offered by our Class 1 railroad to feel a modicum of security with all the current cargo being rolled through our streets. There is great truth in the old adage that an ounce of prevention is worth a pound of cure.
kate	perle	
Charles	Areford	Please deny the lease as it will have a negative impact on the neighborhood. Thanks! I support Beyond Toxics and the Residents of pollution-impacted neighborhoods, in asking you to deny the lease of Union Pacific track and yard to CORP. Neighborhoods should be safe for families and children, with clean air and soil a priority. Thank you.
Cheryl	Platt	
		We Bethel citizens are counting on you to help keep us safe. The national news has too many reports about railroad accidents that harm communities. This is no time to cut back on protections so some corporations can make more profits by cutting costs. Cutting back on important protections does not serve the community that borders the tracks. We in the Bethel community do not want to suffer another Baxter event or worse. Weakened regulations, railroad cost cutting, and less competent railroad employees and weakened accountability do lead to disasters. Let's keep sight of an important goal here-- to keep Eugene safe for its people, and a platform for them to thrive in. Obviously, supporting this change is not in the people's best interests. We should not let corporate desire for profits to put our people at risk, especially when there are reasonable alternatives like the status quo. Let's stick together for Eugene, a very special city, with so many important lives to safeguard. Thanks. We can not allow this company to operate in Eugene while we are still cleaning up their last contamination of our land. Railroad cargo consists of many hazardous and volatile products that roll through our community and need the highest level for the safety precautions. Thank you for denying this questionable transfer of leasing the yard and track.
Hank	Snell	
Penelope	Pascal	
Joan	Kleban	

Karen	Lawrence	I support the Trainsong neighborhood in keeping their neighborhood safe and protecting railroad employees from toxic train spills. Please deny the lease of Union Pacific's track and yard to CORP.
Jeff	Reed-Mansperger	We have a president with an abysmal environmental track record, who is busily gutting environmental regulations and enforcement. He is also actively working to bust our unions who provide middle-class wages. Big industry knows this and is acting accordingly, because they know they stand little chance of being held accountable for any of their chosen actions. Because we can no longer rely on our federal government to protect us, we must stand strong and work to defeat Union Pacific's attempt to dumb down their operations by leasing to less reliable rail services. This is about corporate profits & greed over safety, and the rights of our city and residents to preserve self-determination.
Gay	Kramer-Dodd	I live about a mile from the train tracks as they run along Northwest Expressway. Normally this isn't an issue, but a train collision or a toxic spill would be disastrous for our area. I feel it is absolutely wrong to allow this lease to happen and I am fully against it. Not only does it put our community in further peril from pollution and industrial accidents from unskilled workers handling hazardous materials, it unfairly takes away well-paying jobs from long time union workers at the rail yard.
Elizabeth	Van Buren	This is a lose-lose proposition and is driven by financial gain. NO!!!
Caroline	Skinner	Safety first!
Eric	Swenson	, please deny the lease of Union Pacific's track and yard to CORP. Thank you.
Rita	Gillihan	The health and safety of ALL citizens residing in Eugene needs to be paramount.
Su	Libby	I recently passed on the purchase of a house in the Trainsong area after doing research on the amount of toxins in the soil left by Railroad and Creasote processing facilities. The proposed route to carry hazardous materials again through residential areas simply should not be allowed every again.
Ken	Jones	This is such a blatant way to save money and get around safety. We see what happens when railroads do this in other communities (East Palestine here we come) across the country. We do not want Eugene to be among them.
Mike	Eldridge	Living across NW Expressway Deontae tracks ima very concerned about safety. Please keep UP responsible for the trains.
Sara	Hubbe	I lived in Eugene for most of my childhood and raised my son there. I currently rent out my home there, and am concerned and friends, neighbors and community members who would be impacted. Thank you for doing what is needed to keep this stretch of railroad as safe as possible. Sara Hubbe
Carl	Bybee	This is my neighborhood.... there is already a backlog of environmental damage that needs addressing here. We don't need less safety now... we need more.

		I live very close to the tracks and see how many trains roll through with toxic and flammable materials on board. To have less experienced conductors on trains is unconscionable in regards to the safety of those of us in the surrounding vicinity (and beyond, because when a rail accident happens, it won't be a contained event, but one affecting the entire Eugene/Springfield area. I urge you to do the right thing!
Karen	Olch	Please deny the CORP lease of Union Pacific tracks!
Moore	James Robert	Please protect the health of the nearby community; It is a favor to those with less political power; a humanitarian and kind gesture. Thank you, Robert
Teresa	Mueller	Please stop an accident from happening!
		I have lived in this community for 32 years. We have had endured way too much exposure to toxins in the air, land and water. This must stop! I URGE you to deny the lease of Union Pacific's track and yard to CORP!
Suzanne	Geraci	
Gail	Lund	This is harmful to our community.
		I also sent a letter, but want to be a part of this petition too. Please consider the safety of the people in our neighborhoods and tell Union Pacific to continue with their Class I railyard in our area. Thank you, Lin
Lin	Woodrich	Woodrich Active Bethel Community co-chair
		I hear the railroad operating day and night where I live. The trains run through the UO campus where I work in an animal facility that is literally right next to the train tracks. Not only would this disastrous lease put human lives in danger, it would outsource all the problems that will likely occur to the tax payers. Are you willing to put our entire ecosystem (land, waterways, air) that *all* beings depend upon - the very web of life - in grave danger? I am responsible for the highest standards of animal husbandry at UO. Yet with one horrific decision, you are dooming us all to a future of catastrophic failures and the ensuing severe contamination. Our planet is already polluted beyond belief to the point where we have microplastics in our brains and major organ systems. The last thing we need is a major disaster and contamination event in our city. Union Pacific is appropriate for maintaining safe train standards, CORP is not. Reject the
Erin	Quinn	lease. Thank you.
		It is important to do the right thing and protect our community. No matter the pressures from those who are shortsighted. Thank you. To deny to lease to the CORP railroad company will be a win for you and your company also.
Gwen	Jaspers	
Benton	Elliott	Eugene residents deserve clean water, healthy soil, and safe communities, not increased pollution and weaker safety regulations. Thank you for protecting our community's health and safety.
Jean	Denis	This is not good for peoples health and well-being which they deserve
Tim	Anderson	A class 1 railroad should be held responsible for all this what they are doing to our city is wrong.

Rodney	Uberpakker	This project will harm our community and put our neighborhood at risk. With being a resident of the trainsong neighborhood, I strongly oppose this project I want a safe top level experienced company to be responsible and manage the yard. I do NOT want CORP involved at all. The citizens of Eugene and Surrounding Communities want to be safe and have confidence our homes and neighborhoods are protected. NO TO CORP!!!
Anna	Bainbridge	For the safety of our community and protection of rail employees, please deny the lease of Union Pacific's track and yard to CORP
Patricia	Robbins	I am against Union Pacific leasing out the Eugene yard. The jobs they are cutting here will be replaced with lesser pay for the same work and no union protection for workers.
Terry	Arbgast	Please keep the Eugene yard. It will affect so many families with there jobs!
Jeannie	Broadous	The last thing we need is a Class II or III railroad operating this busy rail yard in the center of a highly populated area. Am totally against profit over safety and responsibility! Union Pacific is simply trying to limit their liability at our expense.
William	Bailey	I personally work in the Roseville service unit. And this move will likely even affect my job.
Russell	Collins	Safety First
Ken	Kupperman	Don't compromise the safety of neighborhoods adjacent to the railyard. Keep the rail yards safe for workers. Don't approve the transfer of lease agreements and oversight to a Class 3 entity. There are too many toxic chemicals on board these trains. Don't lower the standards of management and risk an accident.
Jolene	Siemens	please deny the lease of Union Pacific's track and yard to CORP. Thank you.
Leslie	Arbgast	Our community's health and safety must be more important than corporate profits.
Andrea	Berns	
		We can't allow corporate profits to come before the well-being of our neighborhoods. I have 'deep concerns about the fact that the CORP railroad company is Class III railroad and thus is a limited liability company compared to Union Pacific. The Eugene rail yard handles dangerous chemicals every day, including all chlorine agricultural chemicals and anhydrous ammonia. In the case of a disastrous event - a spill, a chemical release, a runaway rail car, a fire or explosion - a class III railroad company has limited resources and limited liability to address the situation, clean up the problem, and compensate, injured community members or pay for loss of property use.' I support Beyond Toxics and trust they are working for a safe, clean and just environment for Oregon. Gwyneth Iredale
Gwyneth	Iredale	This train yard is increasingly busy and it is important that it be run by a corporation that has resources to sufficiently train its employees and mitigate failures and problems it may cause in the train yard neighborhood.
Dodie	Kauffman
