SURFACE TRANSPORTATION BOARD

DECISION

Docket No. AB 768X

MOHAWK, ADIRONDACK & NORTHERN RAILROAD CORPORATION—
ABANDONMENT EXEMPTION—IN LEWIS AND JEFFERSON COUNTIES, N.Y.

Decided: April 21, 2025

Mohawk, Adirondack & Northern Railroad Corporation (MAN) filed a verified notice of exemption under 49 C.F.R. part 1152 subpart F—Exempt Abandonments to abandon (1) an approximately 16-mile rail line that runs between milepost 58.1 and milepost 74.0 located between the Village of Lowville, N.Y., and the Village of Carthage, N.Y.; and (2) 0.5 miles of an unused spur track and 300 feet of terminal end of main line all within the Village of Lyons Falls, N.Y. (the Line). Notice of the exemption was served and published in the Federal Register on January 14, 2025 (90 Fed. Reg. 3272). The exemption became effective on February 13, 2025.

By decision served February 12, 2025, the Board imposed, as recommended by the Board's Office of Environmental Analysis (OEA), an historic preservation condition pursuant to Section 106 of the National Historic Preservation Act (NHPA), 54 U.S.C. § 306108 (Section 106 condition).

In a Supplemental Final Environmental Assessment served on April 7, 2025, OEA states that, on March 26, 2025, the New York State Parks, Recreation, and Historic Preservation Office (SHPO) submitted comments stating that the Line is not eligible for listing in the National Register of Historic Places (National Register) and that the proposed abandonment would have no adverse effect on historic properties. Accordingly, pursuant to the Section 106 regulations of the NHPA at 36 C.F.R. § 800.4(d)(1), and following consultation with the SHPO and the public, OEA has determined that MAN's proposed abandonment would have no effect on historic properties listed in or eligible for inclusion in the National Register. As a result, OEA recommends that the previously imposed Section 106 condition be removed.

Based on OEA's analysis and consistent with its recommendation, this proceeding will be reopened and the previously imposed Section 106 condition will be removed.

This decision will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. Upon reconsideration, the Section 106 condition is removed.
3. This decision is effective on its service date.

By the Board, Scott M. Zimmerman, Acting Director, Office of Proceedings.
