Hi Mr. Piccirillo,

Yes, we granted the request for waiver of the six-month prefilng notice by letter dated February 10, 2025. It is posted to the website along with all environmental correspondence.

Here is the link to search for environmental correspondence -

<https://www.stb.gov/proceedings-actions/search-stb-records/>

Once you are on that webpage, enter the docket number (you can also narrow down your search with additional information). After you've entered the docket number, press the blue "Search" button and the correspondence should appear. This webpage is regularly maintained, so it should have all the environmental comments in the docket.

For your convenience, I've attached the February 10, 2025 letter to this email.

Thanks,
Elizabeth Webster

Subject: Docket No. FD 36833 Lamplights LLC

You don't often get email from pjpwriter1@gmail.com. [Learn why this is important](#)

Elizabeth,

In the January 30, 2025 letter from Justin Marks regarding the subject project, Mr. Marks requested a waiver of a "Six-Month Prefiling Notice Requirement." Did the Surface Transportation Board grant that waiver?

Please let me know.

Thank you,

PJ Piccirillo

**Re: FD 36833, Lampwrights LLC– Construction and Operation
Exemption–In Elk and Jefferson Counties, Pa.; Waiver Requests of Six-
Month Prefiling Notice Requirement**

Dear Mr. Marks:

Pursuant to 49 C.F.R. § 1105.10(c)(3), the Surface Transportation Board's Office of Environmental Analysis (OEA) is granting your January 30, 2025 request for waiver of the six-month prefiling notice generally required for rail construction projects under 49 C.F.R. § 1105.10(a)(1). According to your letter, Lampwrights LLC (Lampwrights), a noncarrier, intends to file a petition under 49 U.S.C. § 10502 for an exemption from the prior approval requirements of 49 U.S.C. § 10901 to construct and operate approximately 20,427 feet of new rail line in Elk and Jefferson Counties, Pa. (the Line).

On January 28, 2025, via videoconference, OEA met with a representative from Lampwrights and outside legal counsel to discuss the proposed project. Lampwrights provided a brief overview of the proposed project, including maps and a description of the former railroad right-of-way, known as the Toby Branch. According to Lampwrights, the Line would follow the former Toby Branch and terminate at the Superior Greentree Landfill, which currently receives all waste via truck. Lampwrights explained that Buffalo & Pittsburgh Railroad, Inc. would be the operator of the Line and that the Line would handle one inbound train and one empty outbound train per week.

At the January 28, 2025 meeting, OEA provided an overview of the Board's environmental review process, OEA's role in the process, and the use of third-party consultants. After meeting with Lampwrights and its legal counsel, OEA believes that it has adequate information, and that Lampwrights is sufficiently aware of the Board's environmental review process, to grant this request.

If you have any questions, please feel free to contact Elizabeth Webster of my staff at 202-360-0742 or by email at Elizabeth.Webster@stb.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Danielle Gosselin". The signature is fluid and cursive, with the first name "Danielle" written in a larger, more prominent script than the last name "Gosselin".
