Thanks for responding. I just wanted to be sure that was the same line presented to you, as that would have affected the comments I am working on if it had been different.

Sincerely,

PJ Piccirillo

Mr. Piccirillo,

Thank you for following up. As I mentioned, we are still in the early stages of the environmental review process. Your questions regarding the Board's procedures can best be addressed by contacting the Board's Rail Customer and Public Assistance (RCPA) service. They can be reached at **(866) 254-1792** (toll-free) or **202-245-0238**, or by emailing rcpa@stb.gov.

To answer your question about the map that was attached to the consultation letter, that was the same proposed line that was presented to us during our meeting on January 28. However, through the environmental review process, the line may change because the environmental document that evaluates the potential environmental impacts may identify alternatives. We are currently soliciting comments from elected officials, agencies, and tribes, but there will also be a public comment period after we prepare the draft environmental document seeking comments on all aspects of our analysis. I hope this clarifies your questions.

Thanks,
Elizabeth

Hi Elizabeth,

Sorry we got cut off on Friday. I did get your voicemail. I am somewhat clearer on the meaning of a “Waiver Request of Six-Month Prefiling Notice Requirement” but we are still confused about the process.

In the message below, I had also inquired about the green line on the map attached to the consultation letter Danielle Gosselin sent our supervisors. How can we be assured that is the same map that was presented to the OEA of the STB at the January 28 meeting the STB had with Lampwrights? We would like to confirm what information your review was based on.

Sincerely,
PJ Piccirillo
Horton Township Supervisor

Ms. Webster,

Thank you for your response. I had seen that letter, but I did not think that was the waiver response.

How do I find the criteria for that waiver? I don't seem to find an explanation in the letter other than that they explained to you that the rail line would follow a former right-of-way and that OEA believes it has “adequate information.” How do I find the scope of adequate information as used in your determinations?

Also, how may I see a copy of the map presented at that meeting? I want to be assured it is the exact same map that was part of the "Preliminary Consultation Letter to Agency Representatives" sent to me dated April 25. Please let me know how I obtain that information to verify this.

Sincerely,
PJ Piccirillo
Horton Township Supervisor

Hi Mr. Piccirillo,
Yes, we granted the request for waiver of the six-month prefilng notice by letter dated February 10, 2025. It is posted to the website along with all environmental correspondence.

Here is the link to search for environmental correspondence -
<https://www.stb.gov/proceedings-actions/search-stb-records/>
Once you are on that webpage, enter the docket number (you can also narrow down your search with additional information). After you've entered the docket number, press the blue "Search" button and the correspondence should appear. This webpage is regularly maintained, so it should have all the environmental comments in the docket.

For your convenience, I've attached the February 10, 2025 letter to this email.

Thanks,
Elizabeth Webster

Elizabeth,

In the January 30, 2025 letter from Justin Marks regarding the subject project, Mr. Marks requested a waiver of a “Six-Month Prefiling Notice Requirement.” Did the Surface Transportation Board grant that waiver?

Please let me know.

Thank you,

PJ Piccirillo
Supervisor, Horton Township
