To whom it may concern:

I realize that you and other agencies lack information about Puerto Verde Holdings LLC, Mr. Garibay is presenting misleading maps and information to all agencies omitting us on the maps. Also, he is proposing to build this project of the Railroad and International Commercial Bridge in the middle of a Residential Area.

I oppose this project. This isn't just about environmental concerns – it's about our families and community bonds. I live just one block away from the proposed bridge site, where four generations of my family have created our home. My son and his wife chose to return to Eagle Pass from Kyle, Texas, specifically so their young daughter – my five-year-old granddaughter – could grow up surrounded by both the Maldonado and Barrera families. With another grandchild due in August, we're faced with the prospect of having this precious family dynamically disrupted by a massive infrastructure project that threatens the very neighborhood we've worked so hard to build together.

We will be BOXED IN, Right side of my house a massive Railroad and on my backyard an International Commercial Bridge, then a couple of blocks on my left on FM 1509 will be the exit and entry of all tractor trailer that will be crossing from Mexico into the US, Since we only have just one entry and exit on Hwy 277, those 18 wheelers will be crossing through town in front of my home. We, the people from Cenizo Heights and Seco Mines, will be breathing diesel fumes all day and night. Please review the map on the next page.

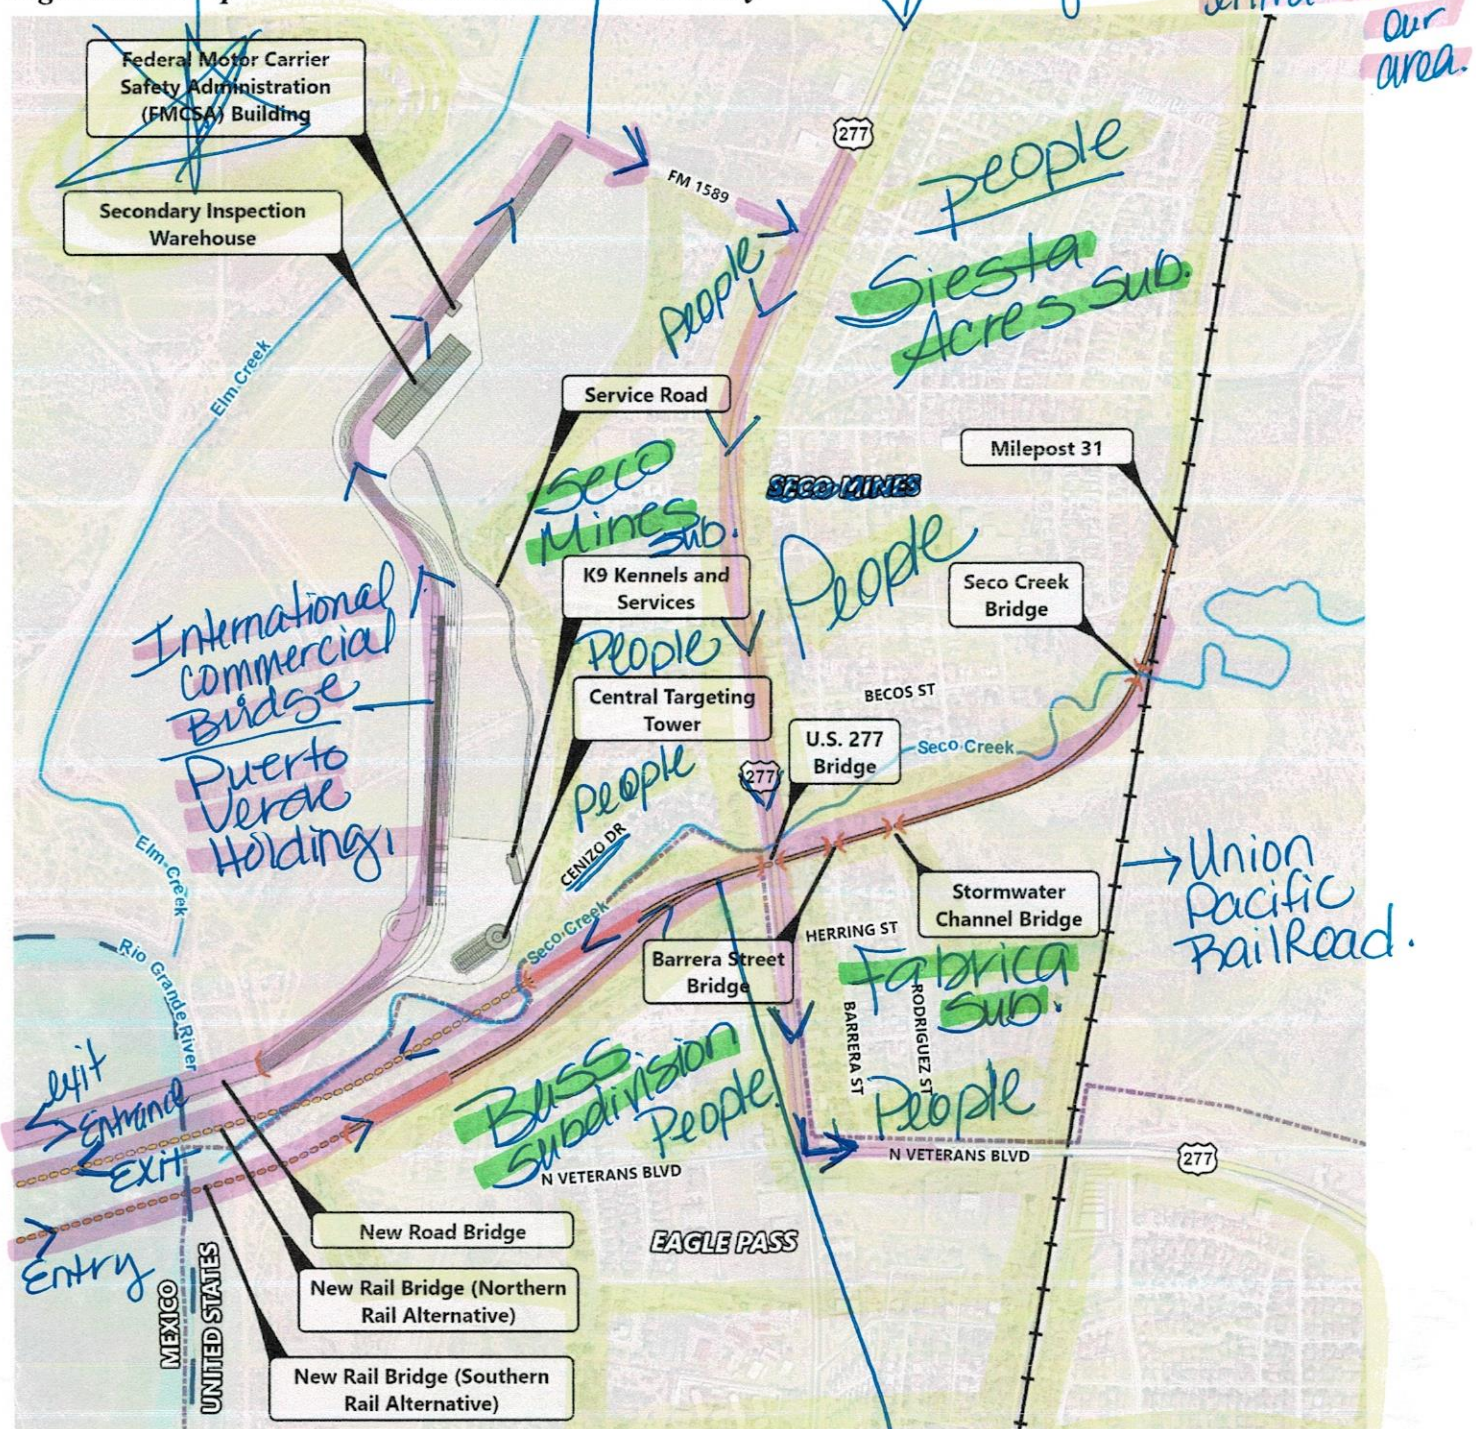

Affected areas: Bass Subdivision, Cenizo Heights, Seco Mines, Hopedale, Fabrica Subdivision, Siesta Acres Subdivision, Elm Creek Subdivision.

We are asking to oppose any permit that Mr. Garibay is seeking. Please consider the Maverick County Residents.

If you have any questions or concerns, please contact me:
