Hello Mr. Marchiori,

Thank you for your interest in this proceeding. We are still in the preliminary stages of the environmental review process and the petition has not yet been filed formally with the Board. A proposed rail line construction is subject to the National Environmental Policy Act (NEPA). To fulfill the Board's responsibilities under NEPA, the Office of Environmental Analysis (OEA) will prepare an environmental document addressing potential impacts of the proposed project. Through the environmental review process, the proposed railroad alignment may change because the environmental document that evaluates the potential environmental impacts may identify alternatives.

OEA sent letters soliciting preliminary comments from elected officials; federal, state and local agencies; and tribes, but there will also be a public comment period after we prepare the draft environmental document. The draft environmental document will seek comments on all aspects of the analysis. We would welcome your comments during that phase of the review. Unfortunately, we cannot include the public in our meetings at this time, but there will be opportunities for consultation and public involvement as the environmental review progresses.

In the meantime, questions regarding the Board's procedures can best be addressed by contacting the Board's Rail Customer and Public Assistance (RCPA) service. They can be reached at **(866) 254-1792** (toll-free) or **202-245-0238**, or by emailing rcpa@stb.gov.

Thanks,
Elizabeth Webster

Subject: RE: Lampwrights llc filing

You don't often get email from cmarchiori@abbottfurnace.com. [Learn why this is important](#)

Hello Ms. Webster

I received a phone call from a Nico Mermigas today from phone number 412-427-7680(just to prove I did) @ 3:38 pm and he mentioned about someone from our group sitting in on the

weekly calls. He mentioned that he did not have the power to authorize this alone but I (we) am asking if this could be a possibility.

Please let us know if this is a possibility. We at this time feel many mistruths are being made and want YOU to have a very good understanding of our home., its history, and the long hard work its taken to bring Toby Creek back from a polluted stream.

Best Regards,
Chuck Marchiori

Subject: Lampwrights llc filing

Hello Ms. Webster

This filing from Lampwrights LLC indicates that Conrail was last owner of the railroad. Conrail was formed in 1976. The Interstate Commerce Commission received railroad abandonment of the Erie Lackawanna Railroad Company for this section of railroad, property, and land in February of 1973. This was accepted by the United States District Court and Order #59 was executed.

Can you please assist us in our research with the filing with Conrail, we are unable to find any documentation concerning Conrail in our local records, and University's libraries in Pennsylvania and Ohio.

Best Regards,
Chuck Marchiori
