Subject: GER EIS determination
Date: Friday, February 16, 2024 2:56:00 PM

Team,

OEA has determined that the GER Petition Environmental Review will be an EIS and OEA has informed Justin Marks of this determination. This is based on information gathered through our project initiation process which included a review of the available materials and discussions with several federal agencies. While on the phone, I also requested assistance with gathering information on the environmental review process and documentation from the Mexican Govt.

Best regards, Andrea
