Hello All,

Please find attached the revised Memo of Understanding to re-engage Freese and Nichols as third-party contractor for this environmental review under OEA's direction incorporating some edits requested by PPHTD. I've included a redline for Freese to show changes since the last version. I've also modified the signature page to allow for signature by part in any order. The MOU would be effective on the date of the last signature.

Thank you,
