Hi Danielle:

Thank you for your email and my apologies Karen for not responding last week. We are waiting for one more piece of information from the rail engineering contractor.

They had provided it to us last week and therefore, we thought we would be able to provide it as expected. However, upon review, it had some items that required revision.

We believe that they will be providing it to us this week, but we will double check on their progress.

Thank you and we understand your need for the information in order to move forward.

Justin

Hi Justin,

Can you please provide us with an update on the status of the second part of Lampwrights' response to Info. Request #1? We were expecting the response by the end of last week. Under NEPA, we have one year to complete the Environmental Assessment for this project, and we need the response to move forward. Please let us know when Lampwrights will be able to provide us with the requested information. If there is going to be any additional significant delay, I may need to put

the environmental review on hold until we receive the response.

Best,
Danielle

Good afternoon, Justin,

I wanted to follow-up with you regarding the status of the part 2 response to Information Request 1. It is our understanding that you will get us the rest of the information in the next few days, by the end of the week at the latest. We need this information to move forward with the environment review.

Thanks!
Karen
