Scott, it was good talking to you yesterday about the status of the SHPO review of OEA's documentation package that was submitted on 7/31/25. I wanted to confirm that the 30-day review period has expired and the Section 106 process for this project is now complete. I look forward to future projects in Michigan and working with you and your office again.

Thanks.

Hi Alan,

Are we to interpret that the agency has closed consultation?

Hi. I am following up on the materials we submitted to your office on 7/31/25 regarding the West Shore Spur Abandonment project (ER25-489; STB AB 534 4X). It has been over 30 days since we submitted additional materials including our determination that the only resource within the APE was the West Shore Spur and that it was not eligible. For the project, since there are no historic properties present, we determined that there are no historic properties affected (36 C.F.R. § 800.4(d)(1)).

Thanks very much and reach out with any questions.

Good morning. I am following up on additional materials that we submitted to your office on 7/31. I realize it isn't quite 30 days, but hope that this detailed information, photographs, and mapping addressed all of your remaining questions on the West Shore Spur Abandonment project (AB 534 (Sub-No. 4X)) related to cultural resources. We determined that the only resource within the APE was the West Shore Spur, and that it was not eligible for the NRHP. If you have any questions, please let me know.

Thanks.
