() NEW COMMENTS WERE RECEIVED

In this proceeding, Colorado Pacific Rio Grande Railroad, LLC (CXRG) filed a notice of exemption with the Surface Transportation Board under 49 C.F.R. § 1152.50 seeking exemption from the prior approval requirements of 49 U.S.C. § 10903 in connection with the abandonment of a line of railroad in Rio Grande County, Colorado. The rail line proposed for abandonment extends approximately 26.55 miles from milepost 272.75 near Monte Vista, to milepost 299.3, near Derrick, Colorado (the Line). The Office of Environmental Analysis (OEA) served a Draft EA for this proceeding on August 25, 2025 for public review and comment. In the Draft EA, OEA recommended one environmental condition and concluded that the proposed action would not significantly impact the quality of the human environment.

Conclusions

The Draft EA comment period has ended. Accordingly, OEA recommends that the following condition previously recommended in the Draft EA should be imposed upon any decision granting abandonment authority:¹

Colorado Pacific Rio Grande Railroad (CXRG) shall retain its interest in and take no steps to alter the historic integrity of all historic properties including sites, buildings, structures, and objects within the project right-of-way (the Area of Potential Effect) that are eligible for listing or listed in the National Register of Historic Places until the

¹ If an interim trail use agreement under 16 U.S.C. § 1247(d) and 49 C.F.R. § 1152.29 is reached for the Line (or a portion thereof), compliance with this condition is not required with respect to any portion of the Line covered by the interim trail use agreement for the duration of the agreement.

Section 106 process of the National Historic Preservation Act, 54 U.S.C. § 306108, has been completed. CXRG shall report back to the Office of Environmental Analysis (OEA) regarding any consultations with the State Historic Preservation Office and the public. CXRG may not file its consummation notice or initiate any salvage activities related to abandonment (including removal of tracks and ties) until the Section 106 process has been completed and the Board has removed this condition.

If the above condition is imposed, OEA believes that the proposed action will not significantly affect the quality of the human environment.

By the Board, Danielle Gosselin, Director, Office of Environmental Analysis.
