To Whom It May Concern:

My name is not important, but what is important is the fact that if a rail line is run on a part of Bishop Jack Wisor's property, it will take away a lot of his livelihood, that he uses to help support the efforts of the church and the Just for Jesus Challenge Homeless Outreach Ministry.

His sawmill is used to supply customers in the community with rough cut lumber, and he would no longer be able to meet their demands if the rail line goes through. In the area of the sawmill, logs are also stored for cutting and splitting for firewood as well as the mill. That area would be destroyed as well.

All this would take away Bishop's ability to make money, keep his church and homeless outreach ministry (where I am a guest, along with more than 20 other persons) running.

If it wasn't for Bishop's huge heart and his house, I would be homeless.

The rail line will also hinder, most importantly, his church. It will take away the driveway to and from most of the parking area for his church, which is very important to not only me, but the other people as well. That will make it difficult for members of his church to reach the building and park.

Not to forget – the smell. Have you ever been to a landfill or even followed a garbage truck to it? I bet you have. So you know what I mean.

In conclusion, to run the rail line would hurt people more than benefit them. Moreso, when all some people care about is money. GOD is most important.

Thank you

James Lagle
