To Whom It May Concern:

Re: Application for Construction, Installation and Use of a Rail Line to transport garbage and hazardous waste through a “populated and diligently utilized property”

I am writing to voice my opinion concerning a matter that has recently come to my attention. The matter concerns the construction of the “garbage train” rail line that is not wanted or needed to run through our sacred land, space and area.

If this is approved, the lives, activities, health, air and water quality, land, homes, work environment, skills, learning and development spaces will be severely impacted or eliminated. The opportunity and ability to be a community-based, all-inclusive, all-accepting organization, ministry, and First Apostles’ Doctrine Church, charitable and non-profit entities would no longer exist for those who need these places to exist and run fully, as they have for the past quarter century, and to run fully to accommodate the desperate needs and situations of so very many individuals who need a place to run to and ask for much needed help in their desperate time and their darkest hour.

For these people, this is their only hope! Males, Females, Fathers and Mothers with children, who have lost everything and who have been given “false hope and false information” and been told lies about so-called organizations that can help them in their desperate hour. Right here at Just for Jesus Challenge Homeless Outreach Ministry IS the TRUE help for those in need!!

The First Apostles’ Doctrine Church is ALL accepting, non-judgmental, a safe haven for any and all who need reassurance, praise, a positive nudge in the right direction. This organization is needed to be active and to be in place to operate properly and efficiently for those in need.

The garbage/trash train will disrupt all of the good this shelter and church have done, is doing and will continue to do to benefit the community and surrounding areas who need them.

To construct this rail line will not benefit anyone. Would you like to be eating a meal and smell the stench from the garbage going passed your space as you attempt to enjoy a meal? I’m sure you wouldn’t.

Therefore, this rail line needs to be eliminated from the project agenda because it is not beneficial to anyone in this or any surrounding community or business, whether for

profit or non-profit, just like Just for Jesus Challenge Homeless Outreach Ministry and the First Apostles' Doctrine Church.

Would you like your child or children to grow up in the garbage environment? What about the chances of Hazmat, radiation and more?

PLEASE TAKE THIS TRASH TRAIN OFF OF YOUR AGENDA!

Sincerely,

Christine Boyer
