To Whom It May Concern:

I am a member of the Just for Jesus Ministry staying in the homeless shelter. Please do not put a trash train through Bishop Wisor's property.

He gave me a place to live and worship. His mill will be taken away, which he works at and uses it to teach a trade to other homeless members of the ministry.

His church is on his property, along with the church and a homeless outreach. These will be taken away if the rail way gets put in. We do not need garbage shipped from other states to go to the local landfill. There are plenty of other places where the garbage can go. Also, the stench will be horrendous.

Please take this into consideration.

Thank you.

Shelly Mattson
