

To whom it may concern:

My name is Chasity, and I am reaching out to you on behalf of the congregation of The first Apostles' Doctrine Church, to express our opposition and concern regarding the impending approval of the transfer station in our area.

Approval of this proposal would have hazardous impact on our minister, our place of worship and the faith-based homeless outreach our bishop founded in order to fulfill the gospel: Helping the least of these; Matthew 25:31-46.

Our bishop resides next door to our new church building that he constructed on his personal property. The right-of-way for the freight train, which would be transporting large quantities of municipal and residential waste from urban areas to our remote community would:

- Hinder access to his home and driveway.
- Disrupt his services and bible studies.
- Compromise daily activities and trade opportunities (designed to help the homeless).
- Eliminate the use of sawmill that provides trade opportunities and income.
- Cause restlessness for the bishop, due to noise, commotion and blow off.
- Obstruct from revivals and fellowship events.
- Attract odors, pests, rodents, and dust.
- Deflect from the peace and beauty of the church property.
- Impede the calm and quiet the bishop needs to talk to God and prepare sermons.
- Disturb the organizing of the blessings and aid the church and ministry provide to the community and others.

Our aim is to take care of our ministry and our church so that he can continue to serve our Lord and give us the spiritual leadership and guidance that he has for so many years.

Please consider all our concerns, so we can protect the bishop of our church from distractions this trash train would guarantee to create. In order for him to effectively do what God has called him to do, uninterrupted.

Yours sincerely,

The First Apostles' Doctrine Church
