NOTICE OF INTENT TO PARTICIPATE

TTX Company ("TTX") hereby gives notice of its intent to participate in the above-referenced proceeding as its interests may appear. TTX is a North American railcar pooling company jointly owned by the Class I railroads. TTX operates pools of more than 168,000 standardized railcars in which it has invested on behalf of pool participants (which include non-Class 1 railroads). TTX's railcar fleets include flatcars of all types (intermodal wells, auto rack flatcars, center beams, bulkhead flats, and others), boxcars, and gondolas. TTX's pooled fleets support freight movement for a diverse array of American businesses in the automotive, machinery, metals, agriculture, construction, and forest products industries, among others. Railroads and their customers benefit from TTX's innovation and investment in high-quality railcars, TTX's efficiency-enhancing management of those fleets to achieve high utilization levels, and TTX's proactive maintenance of those railcars using its continent-wide maintenance network that includes heavy repair shops and an extensive network of field maintenance facilities. Through its fleet and operational expertise, TTX strengthens the reliability and competitiveness of North American freight transportation and supports economic activity across all 50 states.

TTX requests that the undersigned counsel be placed on the service list for this proceeding. TTX consents to e-mail service of all documents in this proceeding.

Respectfully submitted,
