**UP-NS Response to OEA Request #1**  
**Footnotes to Segment IDs on Tabs "A1 & A2" and "F"**

Note ID	Segment Key	Applicable Tab	Footnote Description
1	ALL	A1 & A2	Mileages reported in this table for certain corridors differ from mileages reported in Applicants' Workpaper "Line Segment Tables from Model vF.xlsx." To prepare maps required for environmental review purposes (i.e., to more precisely identify areas of potential environmental impacts), Applicants supplemented network mileage data used in the ordinary course of business for operations planning with GIS data where they determined GIS data were more precise.
2	ALL	A1 & A2	Gross Ton Miles are reported in Million Gross Ton Miles (mGTMs).
3	12311 12313 12526 12745 12753 12754	A1 & A2 F	Applicants anticipate approximately 14 TPD increase between Ogden Jct. and CP518. Given the complex nature of train routing in the Chicago Metroplex, there are alternate routing options available to the applicants. Applicants anticipate the primary route utilized will be through Ashland Avenue.
4	10081 10102 10161 11564	A1 & A2 F	The planned passenger growth reflected between the Baseline Year and Year 3 is organic growth associated agreements that are separate from, and predate, this transaction.
5	12338	A1 & A2	The modeling process connected two lines in Detroit, MI that do not physically connect: 1. NS's Detroit Huntington District between Boat Yard (NS station 09870) and Delray (NS station 09872) 2. NS's overhead rights on Conrail and CPKC between Conrail's CP Scotten and the west end of CPKC's Detroit River tunnel NS does not currently use Route 2 above.
