Before the Surface Transportation Board

Finance Docket No. FD 36911

PETITION TO DENY EXEMPTION

Charles Marchiori
PO Box 12
Brockport PA 15823

Petitioner respectfully requests that the Surface Transportation Board deny the requested exemption in Docket No. FD 36911.

Lampwrights and Greentree rail are both subsidiaries of Noble Environmental and failed to meet criteria for a transfer/transloading station with Pennsylvania DEP at this location. We hope the board understands that a public hearing was held in October 2025 with hundreds of people opposing the transfer/transload in attendance and many individuals speaking out against the idea.

Please understand the following: Several residential homes are within the allowable distance, the train and train siding blocks accessibility to some of these homes and properties. The accessibility to route 219 with increased truck traffic and provided right of way is not conducive for heavy truck traffic therefore causes safety concern with motorists; wetlands and streams are within feet of this site. We have 30 plus school aged children living within ¼ mile of this site. A park (Brockway Soccer fields) is within sight of this location. Greentree Rail LLC could **not** guarantee hazardous or toxic waste would not be shipped in rail containers. There are historic homes and cemeteries close to the site.

For these reasons, Petitioner respectfully requests that the Board deny the exemption requested in this proceeding and in the alternative, institute a full review of the transaction.

Respectfully submitted,

Charles Marchiori
