

SURFACE TRANSPORTATION BOARD

Finance Docket No. 36873

UNION PACIFIC RAILROAD COMPANY AND NORFOLK SOUTHERN
CORPORATION — CONTROL — NORFOLK SOUTHERN RAILWAY COMPANY

**NOTICE OF INTENT TO PARTICIPATE WITH COMMENT OF
THE EASTWOOD CIVIC ASSOCIATION, HOUSTON, TEXAS**

Pursuant to the Surface Transportation Board's Rules of Practice, the Eastwood Civic Association hereby files this Notice of Intent to Participate with Comment in the above-referenced proceeding.

The Eastwood Civic Association is a community organization representing residents of the Eastwood neighborhood in Houston's East End, directly traversed by Union Pacific rail lines on multiple subdivisions and situated at the center of what residents and local officials have documented as the "East End Triangle" — a configuration in which simultaneous blockages on the West Belt, Galveston Subdivision, and East Belt encircle the neighborhood, leaving residents, emergency vehicles, and first responders with only one passable route in or out.

We file this Notice to preserve our right to submit comments, data, and testimony, and to ensure the record before the Board accurately reflects the conditions Union Pacific has created and continues to impose on our community.

The Eastwood Civic Association files this notice of intent to participate because our neighborhood has spent years engaging directly with Union Pacific to seek relief from chronic, multi-hour rail blockages — and conditions have not improved to a livable situation.

Please add the undersigned to the service list for this proceeding.

Respectfully submitted,

Lindsay Williams, President

Eastwood Civic Association

Houston, Texas
