Surface Transportation Board
395 E Street, SW
Washington, D.C. 20420-0001

RE: Docket Nos. NOR 38302S and NOR 38376S

Dear Chief of Case Administration:

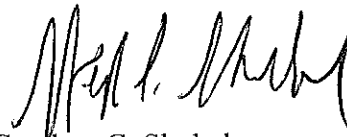

The U.S. Department of Defense and U.S. Department of Energy (the Government) hereby respond to the order of the Surface Transportation Board (Board) issued in this case on March 2, 2026. The order, *inter alia*, directed the Government to "file by April 16, 2026, a list of remaining defendants in these proceedings to inform the Board of the proceedings' status." March 2, 2026, Decision at 5.

As the Board referenced in the March 2, decision, in a prior decision served June 28, 2017, the Board approved a settlement agreement in this proceeding between the U.S. Departments of Defense and Energy (the Government) and Norfolk Southern Railway Company (NS). That decision followed an order in these dockets, served August 26, 2013, approving the Government's settlement agreement with BNSF Railway Company (BNSF), and an order in these proceedings, served August 2, 2005, approving the Government's settlement agreement with Union Pacific Railroad Company (UP). Those settlements resolved all rate-setting, shipping, and service determination questions between UP, BNSF, NS, respectively, and the Government, and have governed the parties' relationships since they took effect. In approving each settlement, the Board dismissed UP, BNSF, and NS as parties in these proceedings. The Settlement Agreement between the Government and CSX Transportation, Inc. (CSX) is substantially similar to these earlier agreements and likewise seeks the dismissal of CSX as a party in these proceedings.

With respect to the Board's inquiry concerning the remaining defendants in these proceedings, the Government submits two Attachments: Attachment No.1 identifies the defendant railroads, and current railroads, in Docket 38302S. Attachment No.2 identifies the defendant railroads, and current railroads, included in Docket 38376S. The Attachments further indicate whether the Government has reached a transportation agreement with the identified railroads.

Further, with respect to the status of these proceedings, the Government wishes to advise the Board that it plans to reach out on an individual basis to a discrete number of railroads to explore the possibility of additional agreements related to these proceedings. We propose reporting to the Board on the status of such efforts by September 1, 2026.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen C. Skubel". The signature is fluid and cursive, with the first name "Stephen" being more prominent than the last name "Skubel".
