**NOTICE OF INTENT TO PARTICIPATE BY
VILLAGE OF VOORHEESVILLE, NEW YORK**

Pursuant to the Surface Transportation Board's (the "Board") Rules of Practice, the Village of Voorheesville, New York (the "Village") hereby files this Notice of Intent to Participate in the above-referenced proceeding as a Party of Record.

The Village is a municipal government located in Albany County, New York and is traversed by a rail corridor that intersects local streets, emergency response routes, and access to critical public and private facilities, including schools. Rail operations within the Village include numerous at-grade crossings that are integral to daily traffic circulation and public safety.

The Village files this Notice of Intent to Participate to preserve its right to participate in this proceeding. Specifically, the Village seeks to ensure that the Board's review considers the potential for increased frequency and duration of blocked grade crossings, including effects associated with changes in train volume, train length, scheduling, crew changes, and yard or switching operations. Prolonged or recurrent blockage of rail crossings will affect emergency response times, traffic operations, commuter and pedestrian safety, and neighborhood access within the Village. The Village therefore reserves the right to review the record; submit comments or information related to potential local impacts arising from the proposed transaction or from alternative operating scenarios evaluated by the Board, including regarding the Village's crossings, emergency routes, safety and environmental concerns, and operational conditions; and to request reasonable mitigation measures if warranted.

At this time, the Village takes no position regarding the merits of the proposed transaction. This filing is intended solely to ensure that the Village's interests may be appropriately considered in the Board's evaluation.

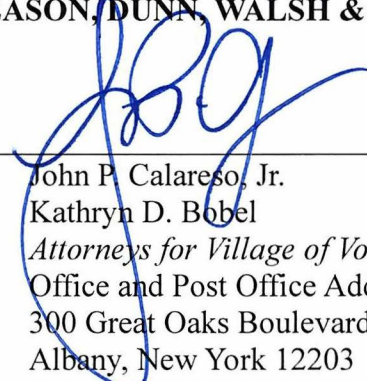

Please add the undersigned attorneys, counsel for the Village, to the service list for this proceeding.
