Hi Thomas,

That is correct. I can confirm that the response to IR4 is no longer due on June 12th. A new deadline will be established once the Board lifts the abeyance.

Thanks,
Danielle

Hi Danielle and Elizabeth,

I am writing to request confirmation of the Applicants' understanding that the abeyance of the environmental review process described in the Board's May 26 decision encompasses the June 12 deadline for responding to Information Request No. 4 (i.e., that the June 12 deadline is no longer in effect). If you are able to provide confirmation at your convenience, that would be much appreciated.

Best,

Thomas
