Subject: NOI in FD 36873

Hi Danielle – I have a question for you. In the CPKC merger, the applicants submitted their proposed voluntary mitigation measures to OEA on March 31, 2022. The Draft EIS was issued on August 5, 2022 with those measures, and parties had the opportunity to comment on the mitigation measures before the final EIS was issued. In UPNS, there will be no Draft EIS, and the only opportunity for submitting substantive comments will be in response to the NOI.

So, the question that arises from that change is whether the applicants' voluntary mitigation measures will be part of the NOI? If not, then how will affected parties be able to comment on them prior to the EIS coming out, since the EIS will include recommended mitigation measures?

Thanks in advance, and have a good weekend.

Regards,
Tom
