Re: Docket No. FD 36833, Lamprights, LLC

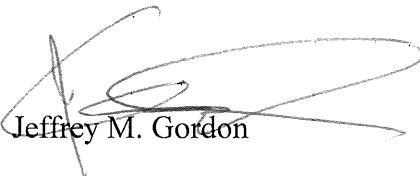

Dear Ms. Webster:

Please be advised that I am the Solicitor for the Brockway Area Sewage Authority. We received correspondence from your office dated April 25, 2025 concerning the above referenced Docket No. and Lamprights, LLC proposed construction of a rail line in Elk and Jefferson Counties, Pennsylvania.

The Brockway Area Sewage Authority has approximately 1.5 miles of buried sewer line within the subject abandoned railroad bed and the proposed rail line cannot be placed over top of said sewer line. There is also insufficient right-of-way within the existing railroad easement to relocate a sewer line parallel to the proposed tracks that would provide adequate cover, slope protection, and access for service and maintenance. It is my understanding that on both sides of the railroad bed in question, wetlands exist and the Sewer Authority would be unable to access those areas for the relocation of the existing line. Finally, there does not appear to be a feasible site for relocation of the sewer line to maintain services to existing customers.

On behalf of the Brockway Area Sewage Authority, I thank you for your attention to this matter. Should you have any questions concerning this correspondence, please do not hesitate to contact me.

Sincerely,

Jeffrey M. Gordon
