Sammamish Home Owners

ENTERED
Office of Proceedings
October 9, 2018
Part of
Public Record

The above organization represents approximately 440 property owners along the abandoned ROW now converted to the East Lake Sammamish Trail. As a board member of this organization, I urge the Board to follow through with the adoption of the rule to limit the extension of trail use negotiation periods to a maximum of six 180-day extensions. The uncertainty of the outcome of these negotiations over a protracted and open-ended time works a hardship on farmers and other property owners who cannot plan with any certainty the use of land they may legally come to control.
