To Whom It May Concern:

I am writing this letter regarding the GLBT application to the STB on the railyard and railroad proposal. I oppose the request for both the construction of the railroad and railyard, as well as the withholding of the stockholder information.

This is our home and way of life that is being threatened by this proposal. Our children's futures are being threatened by the thought of our home and land (farm type lifestyle) being taken away. Along with the threat comes the idea that the stockholder's, those financing this threat, may be allowed to do so with anonymity, rather than accountability. I implore the denial of the order of protection so that those being directly affected by this beast of a railroad/railyard proposal may have the ability to be thoroughly informed and have recourse to move forward. While we have financially supported this community and built our lives here we should be educated as to who may be given the right to take that away.

Regards,

Jenny Curtis
