Public Record

Dear sir or madam, I am writing because I'm concerned over GLBT requesting an order of protection to hide all of their investors. I believe they should make that information public knowledge. They should be treated as equally as the citizens and landowners that they are trying to use eminent domain to take our land. Which brings me to my next request that GLBT not be given eminent domain. You have heard from many people potentially affected from this disaster of a plan. My personal issue with a RR in my backyard in Grundy county is 1. I moved to a rural area and bought my forever home to have peace and quiet. 2. I worry about raising a family next to a RR, I currently have a 15 month old who enjoys being outside and I wouldn't feel safe letting him play outside in the future. 3 I also worry about the potential for a train accident and the possibility of chemicals seeping into the groundwater. We have a well that is only 50ft deep. I can not fathom what my family would have to go thru if we can't drink the water from the land safely. Thank you for your time and consideration in all of our opposition to GLBT.
