Part of
Public Record

GLBT has done an inadequate job of showing ability to pay for their proposed rail line. Their refusal to release their investors brings further doubt upon this project. The public has a right to know who is behind the proposal. This lack of transparency clearly shows the public the company is not legitimate. Their lack of any business history, assets, loans, letters of intent, their fictional made-up profit projections, fictional guesses as to costs, and ever changing answers to questions further show they are not a company operating in the public interest. For these reasons I am asking you to deny their application and release their investor names.
