Most of us building and maintaining trails are amateurs with limited experience and even more limited funds. We work hard to create trails which are used by families, the elderly, and walking and cycling enthusiasts. This sort of grass roots effort by small local groups should be celebrated, not stymied. Please do not place restrictions on our efforts to build trails. Negotiations take time. Working people volunteering to help aren't very efficient. And mistakes are made by amateurs. Your rules should give us more time, not less.
