I am writing to voice my opposition to this project. Many citizens have worked very hard their entire life, only to have someone draw a line on a map across or near their property. Is it fair that private interests can ruin our livelihood this easily? Furthermore, looking at their proposed route in Winnebago County, the route crosses the Kilbuck, the Kishwaukee, a small LAKE near the rockford airport, and the Rock river not once, but twice. This area is wetlands, I can't even imagine the costs involved here. Not to mention crossing bypass 20 in its widest area and I39, I90 twice. Granted, I am sure there is no easy path for such a railway, but surely I am not the only one who realizes this route is INSANE! Thank you for your time.
