As a resident of Northern Kankakee County, who grew up in the acreage of a proposed GLBT Railyard & who knows first hand the Values of Farming & the necessity of preserving valuable Farm Land for Food Production, I must insist that Frank Patton's Motion for Protective Order (to keep any financial backers secretly hidden) be DENIED. Without Transparency, We are at an extreme disadvantage to protect our Farming Livelihood (Investments: Land, Machinery, Lifestyle) ...because Farmers work where they live & live where they work.

Please consider all Opposition to the entire GLBT Application: to be a higher priority than such a project as Patton & his Associates are trying to "Railroad" through our rural communities. Thank you.
