Public Record

PLEASE take into consideration the long term negative effects this ill conceived project will entail. Giving approval will lead to private people with only a concept project to be able to seize private owned land for eternally. This is land people have sacrifice years to buy, it is their source of living. I would not want a fast speed trains crossing my fields, or near my home, esp. if they are carrying hazardous materials.

The rail transportation service has better project to spend taxpayers money (Federal Loans) Fix the track already in existence, the bridges over the rivers, improve the carrier cars,
