I am opposed to the proposed GLBT rail and I demand that the Motion for Protective Order be denied.

I cannot, in any stretch of my imagination imagine how destroying our farm and the hundreds of other farms and families along this proposed route will benefit anyone now, or in the future. I believe the disturbance this proposed railroad will cause will be a crushing blow to 3 states and thousands of lives and livelihoods. Destruction of prime farmland, creating unsafe travel zones, toxic waste, polluting of water sources, destruction of animal habitats, noise levels increasing, and the list goes on.

Please keep these thoughts, and the thoughts others have shared

about their families in your mind when you consider this proposal of destruction in creating this railroad. I have faith in our country and the systems that have been put in place to make decisions based on the good of our people and not for big business.
