GLBT Application

Lana L Daly  
7889 Cemetery RD  
Winnebago, IL 61088-  
dalybago@yahoo.com

Dear STB,

I am submitting this memo asking the STB to deny the motion the GLBT made for an order of protection to withhold finances from the public because no person or organization in the United States of America should have the ability to steal from another American without at least full disclosure of their plan. Am I living in pre-World War II in Germany or post-World War II Soviet Union where leaders were allowed to take away the property and lives of fellow countrymen because some paranoid lunatic conceived a plan shrouded in secrecy to do so? Or is this an ancient Chinese Dynasty and all are expected to serve the State without question?? No, I live in America where I've always believed in a democratic process for every governmental decision and every person. Mr. Patton can dream the plan and be allowed to present it and have its merits judged fairly but I and every person who will be adversely effected by his plan need to be afforded the same fairness in opposing him. As appointed officials of our democratic system of government, please deny this order of protection to withhold finances and allow all the information about GLBT to be public.

Thank you,

Lana L. Daly
