Public Record

Trains are a huge part of our historical heritage, as is the Nickle plate. The fact that we have a running train is an enormous part of history. Children and teens need to see what it was like back in the day of trains. Having a working piece of history where so many trains and tourist railroads are disappearing is a blessing. Please don't rob us of our history. Please keep this piece of living history intact.

I certify that I have this day served copies of the document upon the Applicant in this proceeding, by [U.S. Mail or Email].
