I am against the proposal for the railway GLB to go thru my town and many other ones nearby. This project will HURT OUR TOWN not help us. If this rail way needed why are the other freight rail companies against it? They will not run their cars on it. This company GLB would just make it not put any cars on it. Many farmers would be land-locked and it would destroy our property values and our town would get even fewer families to move in. This would deteriorate our small town even more. WE ARE IMPORTANT. WE MATTER. WHAT WE GROW FEEDS THIS COUNTRY. IT SHOULD BE PROTECTED. A private company has no right to force this on so many people and owns. PLEASE do your job and DO NOT LET THSI PROPOSAL go thru. DENY IT.!!!
