What's going on here? Another power grab by government where the people don't even know the parties involved and who's making the money off of this? I'm sick and tired of all this secrecy! The government is supposed to work for the American people, not the other way around! This needs to be stopped in its tracks and some light needs to be shed on what is going on here before people in the area are thrown out to make room for something we don't even understand we're getting. Transparency now!!!!
