Public Record

I am asking that the Surface Transportation Board deny the request of Great Lakes Basin Transportation, Inc. from concealing the entire list of investors from the public with a Motion For Protection Order.

One of the definitions of "transparency" states:

"Transparency in business or governance context is honestly and openness.

Transparency and accountability are generally the two pillars of good corporate governance.

The implication of transparency is that all of an organizations actions should be scrupulous enough to bear public scrutiny."

I understand that the Surface Transportation Board has no obligation to any requirements to approve the request of GLBT, therefore taking into consideration transparency and common sense, I am making this request.
