Docket No. FD 36137

Save the Nickel Plate

James Dean Barron
11968 N. Lantern Rd.
Fishers, IN 46038
j.d.barron@comcast.net

ENTERED
Office of Proceedings
September 18, 2017
Part of
Public Record

Hello,

I believe that the public is being ignored by the officials of Fishers & Noblesville, and that the citizens deserve public input.

This rail has economic benefits, such as the fair train, various public excursions, county and city tourism, and the potential for a badly needed commuter rail line from the northern suburbs to Indianapolis.

I honestly feel that at minimum, a public referendum should be held, and put this major issue to a vote.

The citizens need to be heard and not have this important economic issue be solely decided by a select few.

Thank you for your consideration.

I certify that I have this day served copies of the document upon the Applicant in this proceeding, by [U.S. Mail or E-mail].

Signature James D. Barron Date September 18, 2017

Sincerely,

Jim :-)
