Weekly Status Report of Arkema Inc.—March 22, 2018

Complainant Arkema Inc., submits this weekly status report on discovery progress pursuant to the Order that Administrative Judge Dring issued on March 2, 2017, in this proceeding.

1. Progress of Discovery

Arkema is continuing to collect and review records and will produce them on a rolling basis.

2. Outstanding Discovery Concerns

None.

3. Plans to Address Outstanding Discovery

Over the past week, Arkema was able to narrow the number of potentially responsive electronic files from approximately 60,000 files to approximately 39,000 files. Many of these

files are associated with e-mail messages or e-mail attachments that appear non-responsive, but nonetheless increase the scope of records for production to approximately 73,000 files. Arkema is continuing to cull these files further for responsiveness using multiple methods. Once Arkema has narrowed the field of potentially responsive files to a reasonable level, it will begin production. Arkema will revise its estimate for completing production once it has made sufficient progress in culling these electronic files.

4. Estimate of Time to Address Concerns

There are no outstanding discovery concerns.

Respectfully submitted,

/s/ Jason D. Tutrone
