RE: Docket No. FD-35952

We oppose this proposed project. We are asking the STB deny the hiding of finances and investors. The people affected by this project deserve to know who is behind this threat to our community, safety, and personal property.

GLBT is refusing to make public the investor's names of the project. We, as a society, have way of properly vetting the financial capabilities of this project's construction or have the capital to operate a railroad. There has been problems of a cash poor railroad with the Rock Island. Let's not repeat these problems.

Again deny the hiding of finances and investors for all those affected by this nonsense.

Sincerely,

Ralph & Marla Heldt
