If this project is for the good of ALL, why does Frank Patton want to hide investors for all to see?

If a proposed project is great, everything is out front for all to see as investors want their names/projects out there for recognition. But, if the project is hiding specifics and rushed through with investors hiding their identities behind one, then the project is NOT for the good of all and Crooked!

I am asking STB to deny the GLBT.

WE NEED ALL THE FACTS!!!!
