Public Record

Having dealt with our own R-T issue here in NE Texas since 1995 we strongly urge the STB to limit the number of times that these trail groups can apply for extensions on their proposed projects. Our abandonment was done in the dark of night with no prior notice to adjacent landowners as to what was going on. Since then it has been an uphill battle to protect our private property rights against trespassers, litterers, vandals, and thieves who view this ROW as their own personal linear park. We have very few bonified trail users through here so we are constantly on guard for those who seek to do harm. It does an injustice to private property owners across the country to continue to allow these trail groups to apply for extension after extension, without any limits, while they seek funding and support for their project. Additionally, the funding they seek could be put to a much better use to benefit many rather than a special interest group! I, personally, love riding my bicycle but not through someone's cow pasture or front yard! Thank you for your time and attention in this very important private property rights issue.
