Part of
Public Record

To those who are concerned with property values and municipal expenses:

There are several reasons removing the rail lines and prohibiting locomotive traffic through Noblesville/Fishers to Indianapolis would be negative for governmental structures involved:

1. It would be a costly endeavor, requiring much maintenance to be done correctly
2. It would further divide the people of Noblesville/Fishers
3. It would feed a trend-seeking attitude, which will likely waste money in the long-run
4. It would not be any great addition to the community

It is the hope of many, if not most, concerned citizens in the Noblesville/Fishers area that the authorities over this project would speak reason to the leaders of Fishers and Noblesville and pursue a course that is wisest in uplifting healthy cultural values rather than pursuing trends which might give a short-term gain. Thank you.

I certify that these comments have been provided to the Applicant's Attorney of Record via email. /S/ Noah Debaun.
