SUPPLEMENTAL TO COMBINED ENVIRONMENTAL AND HISTORIC REPORT

RE: Proposed Abandonment of the US Steel Industrial Lead from Milepost 2.4 near Baytown to Milepost 4.63 near Cedar Bayou, a total distance 2.23 miles located in Harris County and Chambers County, Texas, (the "Line") STB Docket No. AB-33 (Sub-No. 324X)

To whom it may concern:

On April 1, 2016 the Union Pacific Railroad Company ("UP") served your office, pursuant to 49C.F.R §1105.11 with a Combined Environmental and Historic Report prepared pursuant to 49 C.F.R. §1105.7 and §1105.8 concerning the above referenced matter. The Texas State Historic Preservation Office has determined that in its opinion the Cedar Bayou Bridge located at M.P. 4.63 is a structure on the Line which is fifty years old or older. UP without challenging the merits of the determination has agreed to include the Cedar Bayou Bridge as a structure on the Line that is fifty years old or older and has added the bridge to the map attached to the Combined Environmental and Historic Report as Attachment 1.

It is expected that the Cedar Bayou Bridge will either be sold to the Texas Department of Transportation for demolition in conjunction with a public use highway project which includes the SR – 146 Grand Parkway Highway expansion or to a third-party for dismantlement and relocation to a new undetermined location not on the Line.

Yours very truly,

Mack H. Shumate, Jr.
Senior General Attorney
