

FD 35952

GLBT application

Laurie Suzanne Fleishman
2390 S.Verona
Verona , Illinois 60479
jmmkyle@csky.net

ENTERED
Office of Proceedings
May 24, 2017
Part of
Public Record

The GLB project as proposed would pass through our farm- Vienna Twp, NW 156.6 acres, Sec 13, Grundy County, IL according to the latest maps. This will cause an environmental issue as we currently have 30.65 acres on this farm enrolled through 2026 in a federal government environmental pollinator protection program primarily payed for by the United States Department of Agriculture. As proposed the GLB would pass through the government pollinator environmental protection program in 3 places therefore triggering #10 in our contract - Liquid Damages which reads - (if the CRP contract is breached the CCC will SUFFER SUBSTANTIAL DAMAGES!!!) Besides the Environmental Damage we would also be fined a list of penalties as severe consequences comes with breaching this environmental program. These programs are truly put in place for the good of all!

I would hope you would show Respect and Protection for Our Environment, Our Conservation Practices, and expenses put forward in cooperation with The Department of Agriculture Natural Resources Environmental Programs and not let everything GOOD that has been done be bulldozed !!
