Part of
Public Record

We are farmers in the route of the proposed Railroad. Our Ground has been developed! (Notill Conservation farming for 25 years) this action by the Great Lakes Basin Transportation would take us another 25 years in order get to where we are now in our production. Please Deny this Railroad and the Protective Order they seek. We should be able to know who is Taking our land. Please Deny The Great Lakes Basin Transportation from this heinous act of aggression against the farming industry and our conservation practices we have spent a lifetime to achieve. Danette R. Hayes.
